MESSRS. D. NICHOLSON & Co.,

SILK, WOOLLEN AND MANCHESTER MERCHANTS,

AND

WAREHOUSEMEN,

50, 51 & 52, ST. PAUL'S CHURCHYARD, LONDON.

ESTABLISHED 26 YEARS.

Messrs. D. Nicholson & Co. beg to advise their Correspondents and the Merchants and Traders generally throughout India and the Colonies

that their PRICE LISTS for every description of Silks, Mantles, Shawls, Woollen Goods, Men's and Boys' Clothing, Muslins, Jewellery, Calicos, Prints, Ladies' Underclothing, Baby Linen, Children's Dresses, Household Linens, Ribbons, Lace, Hosiery, Haberdashery, &c., &c. are now ready, and will be forwarded post-free on application. These lists embrace every description of goods with lowest quotations of prices, also numbers and widths of Tapes, Ribbons, &c., and sizes of Gloves and Hosiery; in short, all necessary information for ordering this class of goods from their London Warehouse.

The large stock that Messrs. D. Nicholson & Co. hold, enables them to execute their orders with great exactitude and despatch, and having had twenty-six years' experience in trade with the Indian markets, they are thoroughly acquainted with the best methods of packing and forwarding their orders.

AGENCY DEPARTMENT.

Messrs. D. NICHOLSON & Co. undertake carefully to purchase goods of every description for firms in India who have not a buyer in London. As Messrs. N. & Co. have open accounts with all houses of any importance connected with the Manchester Trade, they can offer advantages much above an ordinary agent. Satisfactory references, both at Home and in India, will be forwarded if required.

Messrs. D. NICHOLSON & Co. continue to execute orders for every class of Household Furniture, Ironmongery, Agricultural Implements, Carriages, Saddlery and Harness, Boots and Shoes, Pianofortes, and other Musical Instruments, Toys, Stationery, Wines, Ales and Beer, Provisions, &c., &c. All these goods are purchased in the best markets, and the original Invoices duly forwarded to their Correspondents. A charge of 5 per cent. is made as Commission for executing all orders in this Department. Price Lists of every description of Merchandise forwarded to Correspondents if required.

India Shawls, Precious Stones, and General Foreign Produce disposed of for a Commission of 2½ per cent., which includes Broker's charges.

Terms.

Cash or Produce to accompany all orders to the extent of not less than half the amount of Indents, and balances to be payable on 30 days' Bills drawn at time of shipment, and which will be collected in India.

GUARANTEE.—We wish it to be distinctly understood that in all instances we guarantee the *quality* and *purity* of our Wines and Spirits, and that we *engage to take back or exchange any that may not be approved.*

QUOTATIONS.—Our quotations for Sparkling Wines are for good delivery from our Godowns, our calculations being based to guarantee the full complement of sound bottles in each case; the risk of breakage and ullage is thereby avoided by the consumer.

DELIVERIES.—Our deliveries will be in quantities of not less than 1 doz., excepting Liqueurs which can be had in any quantity, *Sample* bottles may be had, and to the purchasers of 6 dozens and upwards there will be no charge made for the same.

OUR LONDON & BORDEAUX HOUSES.—Those of our friends desiring to indent direct on our *London and Bordeaux Houses* can be supplied at home quotations.

CASH DEPARTMENT.—We would direct special attention to our Cash quotations, which we have found so successful in Calcutta, whereby our friends derive all the advantages of a cash transaction, by obtaining their Wines at the very lowest remunerative prices. All orders to the Cash Department should be accompanied by a Remittance, in the absence of which they will be transferred to the Credit Department for execution at credit rates.

ADULTERATIONS.—We take the liberty of mentioning that there is a vast quantity of adulterated Wines shipped to this country which are offered at somewhat lower prices than those at which we can afford to sell pure ones; still we are assured that good Wines will stand their ground when fairly tested. Those parties, however, who vend "made up" Wines act very injuriously to the fair trader, and bring discredit on the merchant generally.

THE TRADE.—We shall be happy to supply the Trade on the most liberal terms. Our English quotations are especially directed to local and up-country dealers interested in the Wine Trade. Our stocks here are large, and we shall at all times be prepared to supply any quantity at a short notice.

THE CALENDAR FOR 1869.

THE Time given in this Almanack is Bombay Civil Time, or that which a well-regulated Mean Time Clock will show.

MEAN TIME AT TRUE NOON.

The Mean Time of True Noon is the instant at which the centre of the Sun passes the meridian of Bombay.

SUNRISE AND SUNSET.

The Time of Sunrise and Sunset shows the instant at which the Sun's centre is on the visible horizon of Bombay, the refraction of the atmosphere being supposed to preserve a constant mean amount.

MOON'S AGE.

The Time given as the Moon's Age is the interval expressed in days and tenths of a day which has elapsed at noon of each day, since the Sun and Moon were together in the same longitude.

MOON'S SOUTHING.

The Moon's Southing is the mean time at which the Moon's centre passes the meridian of Bombay. From the "apparent time" of the Moon's meridian passage the Time of High Water is computed.

TWILIGHT.

The duration of Twilight and of Daybreak shows the Time within which the Sun's centre is not more than 9° below the horizon of Bombay. This may be termed the Civil Twilight to distinguish it from the Astronomical, which is of double the length.

TIDES.

Attention has been called in former years to the want of accuracy in the Times of Tide published for Bombay. The Times of High Water in the Calendar this year are those computed by W. Parkes, Esq., M. Inst. C. E., by authority of the Secretary of State in Council of India, which have been placed at our disposal by the author. The heights of High Water are above MEAN SEA LEVEL, which is 80 ft. 4 in. above the Town Hall Datum.

For the Times of High Water at other places along the coast, &c., the information given at pp. 34-35 may be referred to.

NATIVE HOLIDAYS.

We have failed to obtain any information from the Government Offices of the dates on which the Native Holidays are allowed, and therefore we may occasionally be in error by one day in the dates of Hindu or Muhammadan festivals.

5629-30 of the Modern Jewish Era, of which the year 5630 will commence on September 6th, 1869.

It is the 3rd year of the 22nd Cycle of Grahaparivritthi; the 3rd of the 84th Cycle of Brihaspati according to the Tamil account, and 15th of the 85th Cycle according to the Bengal account.

The year 2412 of the Buddhist era of India, Ceylon, Siam, &c. and 1230 of the Burmese Vulgar era;

And the 6th year of the Chinese 77th Cycle of 60 years which begins about 14th February.

Ramazan (the month of abstinence observed by the Muhammadans) commences 5th December 1869.

ADJUSTMENT OF THE CALENDAR.

Julius Cæsar was the first to attempt to adjust the length of the year with any degree of accuracy, and fixed it at 365 days 6 hours; introducing a day every fourth year, (called Leap Year,) which accordingly consists of 366 days, while the three others have only 365 days each.

From him it was called the Julian Year, and it continued in general use till the year 1582, when Pope Gregory XIII. undertook to rectify the error, which then existed between the Julian year of 365¼ days and the solar year of 365·24222013 days. At that time the difference amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration has been introduced throughout Europe, except in Russia and by the Greek church, and the year was afterwards called the Gregorian Year or New Style.

In England the method of reckoning after the New Style was not admitted into the Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September, by calling the 3rd of that month the 14th, and it was settled by Act of Parliament (24 Geo. II. 1751) that the Years 1800, 1900, 2100, 2200, 2300 and every hundredth year of our Lord which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, whereof the year 2000 should be the first.

By the same Act of Parliament the Legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February, and March up to the 24th day, which by the Old Style would have been reckoned part of the year 1752, were accounted as the three first months of 1753, which is the reason we sometimes meet with such a date as—

MARCH 15TH, 1774-75,—

that is according to the Old Style it is 1774, according to the New 1775.

Easter Day, on which the rest depends, is always the first Sunday after the first full moon, which happens after the 21st day of March. If the full moon happens upon a Sunday, Easter Day is the Sunday after, Advent Sunday is always the nearest Sunday to St. Andrew's day, whether before or after.

Rogation Sunday is Five weeks after Easter. | Whit Sunday is Seven weeks after Easter.
Ascension Day is Forty days ditto. | Trinity Sunday is Eight weeks ditto.

CHRONOLOGICAL CYCLES.

Golden Number	8	Dominical Letter	C
Epact	17	Roman Indiction	12
Solar Cycle	2	Julian Period	6582

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, after which all the Dominical Letters return in the same order as they did during the 28 years before. The first year of the Christian Era was the 10th of this Cycle.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle, (from Meton, an Athenian, who invented it about 432 B.C.) is a revolution of 19 years, in which time the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the number of years elapsed in this Cycle. Before the birth of Christ 2 years of this Cycle had elapsed.

The Epact for any year is a number introduced by Aloysius Lilius, an astronomer of Naples in the time of Gregory XIII., and designed to represent the age of the Moon on the 1st of January. For the 18th and 19th centuries, it is the remainder found by dividing 11 times one less than the Golden Number by 30.

The Roman Indiction is a period of 15 years, used by the Romans for the time of taxing their provinces. Three years of one of these Cycles had elapsed before the birth of Christ.

The Julian Period contains 7980 years, and arises from multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was contrived by Joseph-Juste Scaligor in 1583, for Chronological purposes, and is assumed as a fixed era in calculations by all Astronomers and Chronologers throughout the Christian world. Its beginning is placed 710 years before the Hebrew date of the creation of the world, or 4714 before the commencement of the Christian Era.

ECLIPSES.

In the year 1869 there will be two Eclipses of the Sun, and two of the Moon.

I. A partial Eclipse of the Moon January 28th, 1869, partly visible at Bombay.

Explanation.—Look for the year in the first part of the table, and opposite it will be found the Dominical letter. When there are two letters together, the first is for January and February, the second for the rest of the year. In a line with the month, in the second part of the table, find the Dominical letter of the year, and down the same column with the letter find the day of the week, when the figures on the left will give the days of the month. Thus for the Mondays in January 1869. Opposite 1869 in the first column is C in the fifth. In a line with January find C, and descend the column to "Mon."—On the left are 4, 11, 18, and 25, the required dates.

TIDE TABLE.

WHEN the times of High Water at one port are known those for a neighbouring place may be readily found approximately, by adding or subtracting the difference of the establishments of the two places. For the Coasts of Europe and America the establishment of almost every harbour is accurately known; but in the Indian Ocean this important element is only roughly fixed for a few of the ports on its shores and islands. For some places only a single observation exists, and that of unknown date; in others the authorities differ widely.

The following table is formed from such data as exist, and gives the constants to be added to or subtracted from the times of High Water at Bombay, according to the sign affixed to each, in order to find the time of High Water at the given place.

For example, the time of tide at Bankut on any day will be found by subtracting 40m. from the time of high water at Bombay on that day; thus,—on January 1st, the time of High Water at Bombay is 1h. 5m. P.M.; hence at Bankut it will be high water 40m. earlier,—or at 0h. 25m. P.M. So, for Damaun, the table gives + 1h. 50m., and hence high water there on the 1st Jan. will occur at 1h. 5m., + 1h. 50m., that is at 2h. 55m. P. M. of that day.

CHRISTIAN FESTIVALS AND FASTS.

JANUARY.

Jan. 1—CIRCUMCISION.—This festival was originally called the Octave of Christmas, and the first mention found of it is in the year 487. It was instituted by the Church to commemorate the ceremony, under the Jewish law, to which Christ submitted, on the eighth day of the nativity.

Jan. 6—EPIPHANY.—The word EPIPHANY signifies appearance or apparition. This festival appears to have been first observed as a separate feast, in the year 813. From the circumstance of its being twelve days after Christmas, it is vulgarly called "Twelfth-day."

Jan. 11—PLOUGH MONDAY.—Is the first Monday after the Epiphany, and received this appellation from its having been fixed upon as the period when the early English returned to the duties of agriculture, after the festivities of Christmas.

Jan. 24—SEPTUAGESIMA SUNDAY.—Is a Sunday dependent upon Lent, as that season is upon Easter. It is considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by "decades" the Sunday preceding Quadragesima received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

FEBRUARY.

Feb. 2—PURIFICATION.—This day is kept in the Romish Church as a solemn festival, in memory of the purification of the Virgin Mary. The festival was originally called CANDLEMAS DAY, as well as the Day of Purification. The practice of lighting the churches has been discontinued in England since the second year of Edward VI. In the Romish Church all its attendant ceremonies are still retained.

Feb. 9—SHROVE TUESDAY.—After the people had made the confession required at this season, by the discipline of the Romish Church, they were permitted to indulge in festive amusements, although not allowed to partake of any repast beyond the usual substitutes for flesh; and hence arose the custom, yet preserved, of eating pancakes and fritters at Shrovetide.

Feb. 10—ASH WEDNESDAY.—The early Christians did not commence their Lent until the Sunday now called the first in Lent. Pope Felix III., in the year 487, first added the four days preceding the old Lent Sunday to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the names of DIES CINERUM, or Ash-Wednesday. At the Reformation, this practice was abolished.

Feb. 14—QUADRAGESIMA, OR FIRST SUNDAY IN LENT.—Ercombert, King of Kent, first appointed the fast of Lent in England, in the year 641. Succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII. published a proclamation in 1543, allowing the use of white meats, which continued in force until by proclamations of James I. in 1619 and 1625, and by Charles I. in 1627 and 1631, flesh was again wholly forbidden.

Feb. 17, 19 and 20—EMBER-DAYS.—After the first Sunday in Lent, the Wednesday, Friday, and Saturday are Ember-days, and the week in which they occur, Ember-weeks. On Ember-days our forefathers ate no bread, but what was baked in a simple and primitive fashion under hot ashes; hence the name. The other Ember-days of the year are the Wednesdays, Fridays and Saturdays, after the Feast of Pentecost, Holyrood Day (September 14), and St. Lucia's Day (December 15).

MARCH.

March 1—ST. DAVID'S DAY.—St. David, the patron saint of Welshmen, was Archbishop of Menevy. He was a man of considerable learning, and was reputed to possess the power of performing miracles. He died in 544, and was buried in the Church of St. Andrew, but his remains were afterwards removed to Glastonbury Abbey. On this day, Welshmen wear a leek in their hats, a practice supposed to have originated from their countrymen, in a great battle with the Saxons fought adjacent to a leek field,

having adopted that vegetable as a military mark of distinction, by which they might distinguish each other from the enemy during the battle.

March 7—Mid-Lent Sunday.—This day received its appellation because it is the middle Sunday between Quadragesima and Easter Sunday. It is by some called "Mothering Sunday,"—a term expressive of the ancient usage of visiting the Mother, or Cathedral Churches, of the several dioceses, when voluntary offerings were made, which are now called Easter offerings.

March 17—St. Patrick's Day.—A grand festival of the Church of Rome, and on which Irishmen consider it their duty to make themselves as happy as a Welshman does on the 1st of March. The Irish venerate St. Patrick as the introducer of Christianity into Ireland. He was a Scotchman by birth. The shamrock, a species of three-leaved grass, is generally worn by the Irish on this day. The favour thus bestowed upon it is said to have arisen from the saint having used it as an illustration for explaining the doctrine of the Trinity.

March 21—Palm Sunday.—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. The festival commemorates our Saviour's triumphal entry into Jerusalem, when branches of palms were spread before him.

March 25—The Annunciation of Our Lady.—This day is more familiarly known in England as Lady-day. It is kept as a festival in the Romish Church, in commemoration of the Incarnation of Christ. In England it is one of the quarter-days on which rent and other dues become payable. The other quarter days are Midsummer Day, Michaelmas Day, and Christmas Day.

March 26—Good Friday.—This day is held as a solemn fast, in remembrance of the Crucifixion. Its appellation of Good appears to be peculiar to the Church of England. Our Saxon forefathers termed it "Long Friday," from the length of the offices and fastings on that day.

March 28—Easter Sunday.—Is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance, it governs the whole of the other moveable feasts throughout the year. Nearly the whole of the moveable feasts and holidays of the Church are determined by Easter-day, which is itself moveable, according to the following canonical regulation ordained by the council of Nice (A.D. 325); viz. Easter Sunday always falls upon the first Sunday after the first full moon after the 21st day of March. If the first full moon happens on a Sunday, then the following Sunday is Easter Sunday. The moon on which Easter depends is called the Paschal moon, and the full moon is defined to be the fourteenth day of the moon, that is, thirteen days after the preceding day of new moon. The first of the moveable feasts in the year dependent on Easter is Septuagesima Sunday, and it takes its place nine Sundays before Easter.

APRIL.

April 4—Low Sunday.—So termed from the Church service being somewhat abridged or lowered from that of the preceding Sunday.

April 23—Saint George.—Edward III., at the Battle of Calais, in the year 1349, joined to England's then supposed principal guardian St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year the Order of the Garter was established, dedicated to St. George; and the saint himself has, from that period, been considered as patron of England.

MAY.

May 1—May-day.—It has been celebrated from the earliest ages, as a kind of nature's birthday: and notwithstanding the havoc which the march of knowledge has made with the customs of our forefathers, it is probable that in rural districts May-day will long continue its hold upon human affections. May-day can hardly be said to be known in great cities.

May 2—Rogation Sunday.—Rogation Sunday received and retains its title from the Monday, Tuesday, and Wednesday immediately following it, which are called Rogation Days, derived from the Latin "rogare," to beseech. The early Christians appropriated extraordinary prayers and supplications for those three days as a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated "Holy Thursday," or Ascension Day. The whole week in which these days happen is styled Rogation-week; and in some parts it is still known by the other names of Crop-week, Grass-week, Gang or Procession-week. The perambulations of parishes were made in this week.

May 6—Ascension-day, or Holy-Thursday.—Is the day on which the Church celebrates the Ascension of our Saviour,—the fortieth day after his Resurrection from the dead.

May 16—PENTECOST OR WHIT-SUNDAY.—The seventh Sunday after Easter-day. It was on the feast of Pentecost (a great feast of the Jews), that the Holy Ghost miraculously descended on the Apostles. This and the two following days comprise Whitsuntide; and in many parts of England it is a time for hiring servants. It is named WHIT, signifying "White" Sunday, because on this day the catechumens appeared in the ancient Church in white garments.

May 23—TRINITY SUNDAY.—Trinity Sunday is a festival observed by the Latin and English Churches on the Sunday next following Pentecost, or Whitsuntide,—of which, originally, it was merely an octave.

May 27—CORPUS CHRISTI.—A festival of the Romish Church, held on the Thursday after Trinity Sunday. It celebrates, as the name indicates, the doctrine of transubstantiation, and is observed in Catholic countries with considerable ceremony.

JUNE.

June 24—ST. JOHN THE BAPTIST.—The Nativity of St. John the Baptist: a holiday of the Church of England. The Eve of St. John, variously called Midsummer Eve, was formerly a time of high observance amongst the English, as it still is in Catholic countries. There was a custom of holding vigil in the church porch.

AUGUST.

Aug. 1—LAMMAS DAY, CALLED THE GULE OF AUGUST.—It is now only remarkable as a day of term for some purposes. It was probably one of the great festival days of our heathen ancestors, and occurs exactly three months after another of them—Beltane or May-day. Lammas seems to have been held as a day of thanksgiving for the new fruits of the earth.

SEPTEMBER.

Sept. 29—MICHAELMAS DAY.—A festival of the Romish and English Churches, established 487, in honour of St. Michael and all the holy angels. St. Michael is singled out for peculiar mention as being the chief of the angels or archangels. It is an ancient and extensively prevalent custom to have a goose for dinner on Michaelmas-day, which seems to have arisen simply from the goose being at its best immediately after it has had the range of the reaped harvest fields.

NOVEMBER.

Nov. 1—ALL SAINTS.—All Saints, or All-Hallows, is a day of general commemoration of all those saints and martyrs in honour of whom, individually, no particular day has been expressly assigned.

Nov. 11—ST. MARTIN'S DAY OR MARTINMAS.—Popularly this is one of the most remarkable days of the year, especially in Scotland, where Whitsuntide and Martinmas are the two great terms for leases and engagements of servants, the latter being that at which the occupation of farms usually commences. Martin is said to have been born in Lower Hungary, about 316, and to have originally been a soldier. When, as often happens, a few fine days occur about this time of the year, they are called St. Martin's summer. Formerly this was also a quarterly term day in England.

Nov. 28—ADVENT [literally "the coming"].—A term applied from an early period of ecclesiastical history to the four weeks preceding Christmas, which was observed with penance and devotion in reference to the approaching birth of Christ. There are four Sundays in Advent, the first of which is always the nearest Sunday to St. Andrew's Day.

Nov. 30—ST. ANDREW'S DAY.—St. Andrew was one of the Apostles. His history, as related by the Catholic writers, represents him as martyred in the year 66. at Patræ in Greece, upon a cross of the form of the letter X, which accordingly is still recognised as St. Andrew's Cross.

DECEMBER.

Dec. 21—ST. THOMAS'S DAY.—A festival of the English Church. It was customary in England to go "a gooding," on St. Thomas's day; that is, they went about begging money, and presenting in return sprigs of palm and bunches of primroses, with a view to the decoration of their houses against Christmas.

Dec. 25—CHRISTMAS DAY.—Observed as the nativity of our Lord. In England, Christmas-day is kept by the Church as a solemn festival, and is distinguished by the complete cessation of business—an honour paid to no other day besides Sunday and Good Friday. In many country places the celebration of Christmas begins the latter part of the previous day—Christmas Eve.

HINDU METHOD OF RECKONING.

The Luni-solar year is used for the regulation of festivals and domestic arrangements; it commences at the instant of conjunction of the Sun and Moon in the Sidereal month Chaitra. The Hindu Lunar months invariably consist of 30 Tithis, or Lunar days: and the whole month is divided into two equal parts of 15 Tithis each, the one called Shukla Paksh or Shud—the bright half or increase of the Moon, the other the Krishna Paksh, or Vad—the dark half or decrease of the Moon. The Lunar month begins on the Western side of India and South of the Nerbudda river, with the first day of the Shukla Paksh (Shudi Pratipada), or bright half of the Moon. At Benares, Oojein, and the countries North of the Nerbudda, the Lunar month begins with the first Lunar day of the preceding Krishna Paksh (Vadi Pratipada) or dark half of the Moon. The former is designated the Shukladi mode of reckoning, and the latter the Krishnadi. The Lunar year begins both North and South of the Nerbudda with the first day of the Shukla Paksh, or bright half of the Moon in Chaitra; but as the dark half of the Moon precedes the other, or Shukla Paksh at Benares, the half Lunar month of Chaitra is taken from the last Lunar month of the year preceding, and considered to belong it; so that the difference between the Shukladi and Krishnadi reckonings affects the months only, and not the commencement of the year. The Lunar months are named after the Solar month in which the conjunction occurs, so that when two new Moons fall within one solar month, the name of the corresponding Lunar month is repeated, and the year is intercalary containing 13 months. The ordinary month is called *nija*, and the additional one, which, according to the Surya Siddhanta, falls in the middle of the 60 days, *adhika*. The Tamil account makes the first month of the two the *adhika* month. Such feasts as occur are confined to the *nija* or proper month. Once in about 160 years no new Moon occurs in some one of the last six months, which, from the Earth's being in perihelion, contain only 29 and 30 days each. When this occurs the name of that month is omitted, but two others always happen to be repeated in such years. Thus in 1822-3 or 4924 K. Y. Margasirsh (Dec.) was expunged, but Aswin and Chaitra were intercalated. The ordinary year is called Samvat-sara, the common intercalary year Adhika-samvat-sara; and the double intercalary with the expunged month, Kshaya-samvat-sara.

While the Lunar month invariably consists of 30 Tithis or Lunar days,—in order to regulate the Feasts and Festivals, certain Lunar days are dropped and others are reckoned twice to make up the deficiency; the first of these are termed Kshaya Tithis (perishable days), and the days repeated twice are called Vridh Tithis (additional days).

The rule of these is ;—those Lunar days on which the sun does not rise (Suryodaya nahin) are struck out; those in which it rises twice are Vridh, or additional; and since, according to the Hindus, the Tithi is 22m. 31·9s. less than the mean solar day, it is obvious such circumstances will occur about once in 64 days, or six times in the course of the Lunar year.

The Tithis of each half month are named after the Moon's age, as follows :—

1 Prathami or Pratipada.	6 Shasthi.	11 Ekadasi.
2 Dwitya.	7 Saptami.	12 Dundasi.
3 Tritiya.	8 Ashtami,	13 Triadasi.
4 Chaturthi.	9 Navami.	14 Chaturdasi.
5 Panchami.	10 Dasami.	

The 15th from Shukla Pratapada is Purnima, or Full Moon; and the 15th from Krishna Pratipada is Amavasya or New Moon.

The Hindu Zodiac is divided into twenty-seven Lunar Mansions or Nakshatras of 13° 20′ each, probably originating in the revolution of the Moon being performed in little more than 27 days. Their names are :—

1 Aswini.	10 Magha *or* Pitriyam.	19 Neriti *or* Mula.
2 Bharani *or* Antakam.	11 Purva Phalguni.	20 Purva Asharha.
3 Kritika *or* Aguiya.	12 Uttara Phalguni.	21 Uttara Asharha.
4 Rohini *or* Brahmam.	13 Hasta, *or* Arka.	22 Sravana.
5 Mrigasiras.	14 Chaitra.	23 Sravishtha.
6 Ardra, *or* Raudra.	15 Swati.	24 Satabhisha.
7 Punarvasa, *or* Aditya.	16 Vaisakha.	25 P. Bhadrapada.
8 Pushiya *or* Tishiya.	17 Anuradha.	26 U. Bhadrapada.
9 Aslesha *or* Sarpam.	18 Jyeshtha.	27 Revati *or* Paushna.

The Hindu sidereal year, according to the Surya Siddhanta, is 365d. 6h. 12m. 36·56s., or 1·000045286 Solar years, and is measured by the return of the sun to the same point in the Zodiac, the beginning of the sign Mesha. Each month contains as many days as the Sun continues in each sign; the civil only differing from the astronomical reckoning in rejecting fractions of a day. The civil year and month begin at sunrise instead of the instant of the sun's entrance into the respective signs. If the fractions exceed half a day, the civil year or month begins with the sunrise following. The months vary in length with the sun's angular motion. The following are the signs of the Zodiac with the months and the corresponding astronomical periods :—

The Hindus have several Eras :—The Kaliyug commences from the factitious Era 18th Feb. 3102 B.C. The Era of Vikramaditya, so named from a sovereign of Malwa who defeated Soka, King of Delhi, and got possession of the chief throne of Hindustan, is reckoned from 57 B.C.; the years of this Era are luni-solar, and are called Samvat. The Era of Salivahna dates from the 14th March A.D. 78, Julian reckoning, the first year being reckoned 0, or the date indicating always the year complete: it is the most prevalent in the South of Hindustan as that of Vikramaditya is in the North and in Gujerat. The years of it are sidereal and are termed Saka.

The Vrihaspati Chakra, or Cycle of Jupiter, is employed for little else than giving the name to the year. The Cycle consists of 60 years, and according to the Surya Siddhanta, the Chakra year is to the Sidereal year as 18000 to 18211, so that to keep the Cycle in accordance with the planet's motion one year has to be expunged every 85 or 86 years. According to the Jyotistava rule the expunged year falls 13 years earlier than according

to the Surya Siddhanta computation used in Bengal. The Telinga method, followed in the peninsula and in Thibet, identifies the Vrihaspati year with the Chandra-mana or luni-solar account. This last directs to divide the expired years of the Kali-yug by 60, and the remainder is the year of the Cycle, to be reckoned from *Pramathi* the 13th of the Chakra. Thus for the year 4966 K. Y. 4966÷60=82 Cycles 46 years, or *Krodhana* the 59th will be the year sought.

The names of the Sixty Sanvatsars or years of the Vrihaspati-chakra are as follows :—

The Era of Parasurama is used in Malayala, or from Mangalore to Cape Comorin. It derives its name from a prince who is said to have reigned 1176 B.C. The epoch is 7th August 3537 Jul. Per. or 1925 K. Y. It is reckoned in cycles of 1000 sidereal years, commencing when the Sun enters Kanya (Virgo) answering to the month Aswin. The Fourth Cycle of this era began 15th September 1825, but the commencement of the new era having been overlooked and the following year dated 1001, the error has been perpetuated, and the year beginning 15th September 1869 instead of being dated the 45th of the fourth cycle, is thus dated 1045.

MUHAMMADAN METHOD OF RECKONING.

The Muhammadans reckon from the Hijra or era of the Flight, which took place on the evening of Thursday the 15th July A. D. 622 (15 Thamuz 933 A. S.), from which the Hissabi or Astronomical reckoning commences, but in the Helali, or chronological reckoning, Friday the 16th July is made the initial date. This era was introduced by the Khalif U'mar. The year is purely lunar, consisting of months of 30 and 29 days alternately, and adding a day eleven times in a cycle of 30 years, namely to the 2nd, 5th, 7th, 10th, 13th, 15th, 18th, 21st, 24th, 26th, and 29th in the cycle.*

The Lunar year is 354d. 8h. 48·57m.; and a year of the Hijra is 354d. 8h. 48m. The small error thus arising will not amount to a day in less than 2300 years. Hence a year of the Hijra=0·970223 Gregorian year; and a Gregorian year=1·03069 year of the Hijra; and thus 32 Gregorian years are about equal to 33 years of the Hijra, or, more nearly, 163 years of the former are within less than a day of 168 Muhammadan years.

It is obvious that in such a system every year will begin 10 or 11 days earlier in the season than the preceding, and in the course of 33 years the commencement of the Muhammadan year runs through the whole course of the seasons.

Muhammadan Months.

5 Jumada'l awal, or Jumad I	30	11 Zu'l kadah	30
6 Jumada'l akhir, or Jumad II	29	12 Zu'l hijjah.....29d. & in leap years	30

The first day of the Muharram, or the commencement of the year, is ordinarily reckoned from the first observed appearance of the new Moon, or in cloudy weather from the time at which it would be visible; and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. In this manner each separate month is reckoned, and as a few cloudy days may thus retard its commencement, two parts of the same country may sometimes differ a day in their reckoning. But in chronology, history and documents they use months of 30 and 29 days alternately, as just described.

All Muhammadans reckon time in weeks of 7 days. Their days are named as follows:—

* Jervis gives the 8th, 16th, 19th, and 27th as intercalary, instead of the 7th, 17th, 18th and 26th, but mentions the usual list also. Ulug Beg mentions the 16th as a leap year.

We may find the Christian date from that of the Hijra thus :—Divide the number of years elapsed by 30, and the quotient A will be the number of cycles elapsed, and the remainder B the number of years in the current cycle. Let E be the number of intercalary years in B and D the days elapsed of the given year. Then the number of days that have elapsed from the Christian era is,—

$$227016+10631A+354B+D+E\text{; and } E=\frac{11B+14}{30}.$$

Divide the sum by 1461 and call the quotient Q; and divide the remainder by 365, and call the quotient R, and the last remainder S. Then the years elapsed from 1st Jan. A. D. 1 is :—

$$4\,Q+R,$$

and S is the days elapsed of the current year, Old Style. To reduce to New Style add as follows :—

For any date of New Style antecedent to March 1 A. D. 1700...10 days.
After February 28, 1700 and before March 1 1800...11 „
„ „ 1800 „ „ 1900...12 „

The reckoning may be facilitated by the following Table :—

A	Days.	B′	Days.	D	Days.	Q	Days.	Month.	Days.
1	10631	29	10277	Muharram.	0	1	1461	Jan. 1	0

40	425240	2	708			2	731		
		1	354			3	1096		

* Thus : to find the date A. D. corresponding to the 6th of Zi'l Kadah A. H. 1285.

Dividing 1284, the years elapsed, by 30, we have A=42 and B=24.

The Constant.....	227,016
For A = 40	425,240
= 2	21,262
B′ = 24	8,505
To 1st Zi'l Kadah.....	295
6th Zi'l Kadah	6
Sum of days.....	682,324

Then subtract from.....	682,324
For Q = 400	584,400
	97,925
= 60	87,660
	10,264
= 7	10,227
∴ Q = 467	37
R = Q and to Feb. 1st	31
	134
Old Style, Feb.....	6th

Hence, since Q = 467 and R = 0, the date is 4 × 467 + 0 = 1868 complete, or 1869 current; and to 6th Feb. O. S., adding 12, we have the 26th May 1868.

To find the day of the week answering to any day of the Muhammadan year. Divide the year by 210 and the remainder by 30, and with the last remainder on the left hand and the last quotient at the top of the following table, the day of the week on which the year begins will be found at the intersection of the line and column. The calendar following will show the day of the week answering to any day of the year and *vice versa*. Thus to find the day of the week corresponding to 1st Shawal 1284 :— 1284 ÷ 210 gives 64 as a remainder, and 64 ÷ 30 = 2 and 4 over. Then, in a line with

* For dates between 1st Jan. and 28th Feb. 0 is to be used, and after the latter date 1.

4 on the left hand and in the column marked 2 at the top we find 'Sunday' for the first day of A. H. 1284; and by the calendar, in the 1st column, (which begins with Sunday) and in a line with 1st Shawal we find "Sunday"—the day of the week (26th January 1868) required.

Derived from the Muhammadan era, there are several others more or less in use. Akbar introduced a Fasli, or "harvest" year for the regulation of financial and other civil transactions, and adjusted its epoch to the year of his accession A. H. 963, which began 26th November 1555 N. S. The Fasli year 963 of Upper Hindustan was accordingly reckoned from the beginning of the Samvat year on the first of the lunar month Aswin, or 10th September 1555. The Vilayati year introduced into Orissa, was made to coincide with the Saka Solar year, and to begin with the Solar month Aswin, or 8th September 1555. The San-i-Bengali year 963 was likewise reckoned from 1st Bysakh or 11th April 1556.

The Shahur* Era of Maharashtra is said to have been introduced on Thursday, 6th June 1342, with the year 743 A. H. Jervis, however, found its epoch to agree with the commencement of the year A. H. 745. It begins in June at the Sun's entrance into the lunar mansion Mrigasirsh. The years are denominated after the corresponding Arabic numerals :—

1	Ahadi,	10	Ashar,	100	Mayat, or Maya,
2	Isni,	11	Ishrin,	200	Miatin,
3	Salas,	30	Salatin,	300	Sals-mayat,
4	Arba,	40	Arbain,	400	Arba-mayat,
5	Khams,	50	Khamsin,	1000	Alf,
6	Sita,	60	Sitain,	1100	Mayat-o-alf,
7	Saba,	70	Saba-in,	1200	Miatin-o-alf,
8	Samani,	80	Samanin,	1269	Tisa-sitain Miatin-o-alf.
9	Tisa,	90	Tisa-in,		(A.D. 1868-9.)

* From *shahur*, plural of Arab *shahr*, 'month'; it means literally the 'year of months.' See Jervis on Weights, Measures, &c., p. 135, &c.

The preceding names are corrupted in the native pronunciation. To reduce Shahur dates to Christian 599·424 years must be added.

The Fasli Era of the Dakhan was introduced by Shah Jehan in 1638, A. H. 1048. It begins in July and ought to be sidereal. At Madras, however, the Government fixed its commencement to 12th July.

PARSI METHOD OF RECKONING.

The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yezdijird had no successor, the date of his accession to the throne, 16th June A.D. 632, (exactly ten years after the Hijra) has been brought down to the present time, thus making their current year 1238-39. In their calculations only 365 days are allowed to the year, leap year is unknown to them, though it is alleged that in every 120 years one month was added to make it correspond with the solar year. The year is divided into twelve months of thirty days each, and five days, or "Gathas," as they are called, are added at the end to make up the deficiency. The months are,—

1	Farvardin.	4	Tir.	7	Meher.	10	Deh.
2	Ardibehisht.	5	Amardad.	8	Aban.	11	Bahman.
3	Khurdad.	6	Sharivar.	9	Adar.	12	Asfandyar.

Gathas 5 days.

The Parsis do not now divide their time into weeks, but name the 30 days of their months each after a celestial being—7 Amshaspands and 28 Izads—supposed to preside over them. These are as follows:—

	Gujarati.	*Pehlvi.*		*Gujarati.*	*Pehlvi.*
1	Hormazd.	Anhuma.	16	Meher.	Matun.
2	Bahman.	Vahuman.	17	Serosh.	Sarush.

4	Sharivar.	Shatnavin.	19	Farvardin.	Farvardin.

14	Gosh.	Gosh.	29	Maharaspand.	Mansar-spand.
15	Dep-mehor.	Dini pavan Matun.	30	Aniran.	Aniran.

The 1st, 8th, 15th and 23rd days are sacred to Hormazd, and thus afford evidence of an older division into weeks.

The Parsis of India are divided into two sects,—the "Shaharsahis" or "Rasamis," and the "Kadmis" or "Churigarians," the former of whom constitute the larger portion of the race. This division originated about a hundred and fifty years ago when a Persian priest, named Jamasp, arrived in India, and found that his co-religionists differed from their brethren of Iran in their calculation of time by a full month, and in other minor points relating to their "liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects,—the Rasamis adhering to their own views and the Kadmis adopting the opinions imported by Jamasp—and thus agreeing with their Persian brethren. The difference lies in their computation of time and in some slight variations in the forms of prayer. Those that begin their year a month earlier are styled Kadmis, and the rest Rasamis, *i. e.*, 'customary,' and Shaharsai, 'citizen,' for which some one substituted Shahanshahi ('of the king of kings'), and this absurd change has ever since been adopted.* The Kadmi Parsi Era of Yezdijird, or Dariyia Naoroz, or sea-reckoning is made use of in nautical calculations among Asiatic mariners, and the New Year always commences on the 1st of Farvardin, which falls about the 25th of August, one month earlier than the

* Journal Royal Asiatic Society No. viii.

commencement of the Rasami New Year. With the Rasami Parsis the New Year begins on the 1st day of Farvardin, which at present falls about the 24th of September, a month later than the commencement of the Kadmi New Year.

About A.D. 1075 Jalal'ud-din Malikshah, finding that the commencement of this year in Persia had anticipated the epoch by 112 days, ordered that, in future, the Persian year should receive an additional day whenever it should be necessary to postpone the commencement of the following year in order that it might occur on the day of the sun's passing the same point of the ecliptic. U'mar Cheyam, one of the Astronomers appointed by him to construct a calendar, is said to have discovered that 8 intercalations in 33 years very nearly adjust the Calendar, giving the length of the year 365d. 5h. 49m. 5·65s. Scaliger and others say this was the period actually adopted, though Delambre shows that the Persian intercalation combines the two periods of 29 years with 7 intercalations and of 33 years with 8 intercalations.

JEWISH METHOD OF RECKONING.

The Jews have ever marked their time by sevenths, according to the command given by God for labouring during only six days of each week and resting on the seventh, which was consequently set apart or consecrated to the service of the Creator. They not only hallowed the seventh day or Sabbath, which formed a portion of their week of days, but they had, also, their week of years, which consisted of seven years, and their jubilees, or rejoicing periods, at the end of every seven times seven years, which were celebrated by acts of justice, forgiveness, and restitution. The Hebrews, Assyrians, Egyptians, Arabians, and most other ancient nations reckoned by weeks.

The modern Jews name the days of the week thus:—

Sunday..... Yom Russian rishun, or echad.	Thursday.. Yom Chamashi.
Monday..... Yom Shani.	Friday .... Yom Shi-shshi,
Tuesday .... Yom Shalishi.	Saturday .. Yom Shavli, or Sabbath.
Wednesday.. Yom Rabbii, or ravii.	

Since the 15th century the Jews date their years from the creation which they reckon to have occurred 7th Oct. 3761 B. C. The year is luni-solar and consists of twelve months, each of which has 29 or 30 days. To regulate the commencement of their years and their festival days, they first employed a cycle of 84 years, but about A.D. 358 they changed this for the Metonic cycle, which was then adopted by the authority of Rabbi Hillel, prince of the Sanhedrim. The 3rd, 6th, 8th, 11th, 14th, 17th, and 19th in the cycle of 19 years is embolismic, having an additional 6th month—Ve-adar, which is introduced that Passover, the 15th of Nisan, may occur at its proper season, which is the full moon of the Vernal equinox. The ordinary years now consist of 353, 354 or 355 days, and the embolismic of 383, 384, or 385, in order that certain festivals may fall on proper days of the week for their observance.

The Calendar is constructed by assuming a mean lunation to be 29d. 12h. 44m. 3·33s., and that the year commences at the new moon following the autumnal equinox. The cycle of 19 mean solar years is also assumed to be exactly 235 lunations or 6939d. 16h. 33m. 3⅓s., so that the length of the solar year is reckoned at 365d. 5h. 55m. 25·4⅓ s., and thus the commencement will advance from the equinox a day in 218 years.

To avoid certain festivals falling on incompatible days of the week, the new year must begin on the following day if the conjunction happen on a Sunday, Wednesday, or Friday. When the new moon happens after noon the year begins next day, unless that be one of the days just mentioned, when it must be postponed a day more. If in an ordinary year the new moon falls on a Tuesday as late as 9h. 11m. 20s. A.M., the new year is postponed till Thursday; if in a year following an embolismic year the conjunction is on Monday, as late as 3h. 30m. 52⅔s. P.M., the new year is fixed on Tuesday.

The 297th cycle began 1st October 1864, at 8h. 15m. 46⅔s. A.M., Gr. M. T., and consequently the 1st cycle began B.C. 3761, October 7th at 5h. 11m. 33s. A.M.

The months are:—

INTRODUCTION TO THE CALENDAR.

In the following Calendar the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes of the Hindu months (Maru, Gujerat, Deccan, and Konkan), Paush and Magh; the Malabar, Dhanu and Magaram; the Parsi months (Rasami) Tir and Amardad; (Kadmi) Amardad and Sharivar, and the date of the Naoroz 132 to 162; the Muhammadan months Ramazan and Shawal; and the Jewish months Tebet and Shebat.

In the respective columns the 1st of January corresponds with the 3rd of Paush Vad, Gujerat, Deccan and Concan; 3rd Magh Vad, Maru; the 19th DHANU, Malabar; the 12th TIR, Rasami Parsi; and the 12th AMARDAD, Kadmi Parsi, or the 132nd day of Naoroz; with the 17th *Ramazan*, Muhammadan; and the 18th of TEBET of the Jewish reckoning; and so on throughout the year.

We have also endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type; the Hindu, for example, we have distinguished by Roman small letters, as Paush Shud; the Malabar and Jewish by Roman capitals, as MAGARAM; the Parsi by small capitals as AMARDAD; and the Muhammadan by Italic small letters, as *Muharram*.

* According to the Shukh Year. † Samvat commences with Kartik Shud 1st, or Prati-pada. ‡ Begins with the Sun's entering Kanya about 15th September. § The year is sidereal and begins 11th April.

INDIAN AND CHRISTIAN ERAS.

Table of the Correspondence of Indian Eras with the Christian Years till the End of the XIXth Century.

For the Bengali San, subtract 515 from the Saka date or 3694 from the Kaliyug (Sidereal) date; it begins on the same day. For the Fasli year of Upper India, subtract 649 from the Samvat date; it begins on the 1st of the lunar Month Aswin. For the Buddhist era of India, Ceylon, Ava, &c. add 486 to the Samvat date; and for the vulgar era of Burmah and Aracan, subtract 695; these are also luni-solar, and though the Nirvana of Buddha is dated on the full moon of Vaisakh, or 1st April B. C. 543, they commence on the same day as the Hindu year.

NATIVE FESTIVALS, FASTS, AND OBSERVANCES.

HINDU FESTIVALS.

THE Hindu festivals are so numerous and the observances of them are so intricate, that it is often bewildering to endeavour to describe them. The writers of the Hindu legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension, and unhesitatingly say that those observances themselves will secure heaven.

MAKAR SANKRANTI.—On this day the sun enters the sign of "Makar,"—a monster having the head and forelegs of an antelope, and the body and tail of a fish—corresponding to Capricorn. It occurs on the 1st of the solar month Magh. Great rejoicings are held among the Hindus, but particularly among the Brahmans, on the feast of Makar Sankrant. From this day when the sun reaches the most southern, till the time of his arriving at the most northern point of the Zodiac, is called Uttarayana, and the time from his leaving the northern sign "Karka" or Cancer, till he again returns to Makar, is called Dakshinayana. The days of Uttarayana are reckoned lucky and those of Dakshinayana unlucky. During the days of Dakshinayana, it is said, the gates of heaven are shut, and in the Uttarayana they are open. For men to die in the Uttarayana is considered more blessed, because they are said to get immediate entrance into heaven; but if the good die in the Dakshinayana, they have to wait outside the gates till the Uttarayana sets in. In Uttarayana, Munj—the ceremony of investing youths with the sacred cord—and marriages are celebrated. On the day of Makar Sankrant, just at the time of the sun's entrance into the sign, the Hindus go to the sea, accompanied by a Brahman priest, to bathe; there they rub their bodies with tila or sesamum seed, the favourite grain of the sun, and wash themselves in the manner prescribed in the Shastra. The Brahman then repeats certain incantations suited to the occasion, and closes the ceremony by receiving adoration and a present of money for himself. On their return home they invite Brahmans, present them with cups of bell-metal, filled with tila seed and with money, according to the ability of the Yajaman or worshipper; some present copper pots, new dhotars, umbrellas, &c., and the whole family receives benediction from them, which is done by the Brahmans repeating certain words and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweatmeats. They invite their friends and relations to dinner; and towards evening they wear new clothes, gold and other ornaments, and frequent the houses of their friends and relations, distributing tila seed mixed with sugar. At the time of putting the tila into the parties' hands, they repeat these words: "Receive these tila seeds mixed with sugar, and be friendly with me throughout the year." All the praise and prayers offered this day are to the sun and to no other god. The second day of Sankranti is named Kar, and is generally celebrated by the women making small presents among those of their own sex.—*Vide 12th January.*

WASANT PANCHMI, on the 5th of Magha Shud, seems to have been instituted in honour of the spring, which season is personified under the name of Wasanta, who is fabled as attending on Kama, the god of love.—*Vide 18th January.*

RATHSAPTAMI (from *Ratha* a car, and *Saptami* 7th day of the month) is the 7th of Magha Shud, and is dedicated to the worship of the sun. This day is the beginning of the Manvantram or period embracing the reign of Manu, of which fourteen govern in succession during each *Kalpa* or grand period of creation and destruction. The present age is the 7th Manvantaram of this Kalpa; and at the commencement of this period a new sun is supposed to have mounted his chariot.—*Vide 20th January.*

SIVARATRI.—A celebrated festival in honour of Siva, held on the 14th of the Krishna paksh of Magha, during which the linga or phallus is worshipped. Vad Chaturdasi, or the 29th of every month, is kept sacred by the votaries of Siva, but Magh vad Chaturdasi has obtained the peculiar epithet of Maha Siva Ratri or the great night of Siva. The Hindu legends account for its celebrity among the rest of Siva Ratris in the following manner:—In time immemorial an archer of wicked and licentious habits went into a forest on this day to shoot deer. He spent the day in the pursuit of the game, but on a sudden, night came on, and he was left at the mercy of wild beasts. When he found himself in such a condition, he had

recourse to a Bil or Vilva tree* to secure himself from their attack. Having got into the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: the twigs fell on a Lingam of Siva near the foot of the tree, and Siva was so pleased and satisfied by this accidental worship that he forthwith sent a Vaiman or heavenly chariot, and took the hunter into Kailas, his own abode, with acclamations of joy. To commemorate the entrance of this archer into Kailas, the Hindus observe a feast this day, and worship Siva in hopes of obtaining a like reward. His votaries fast, and at night repair to the temples of Siva accompanied by a Brahman priest, who performs puja by repeating certain incantations; first he pours water over the Lingam and washes it, and then he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Siva's thousand different names are written, and reads the names, and the Yajaman,—the worshipper,—flings a leaf of the *Vilva* or Bil over the top of the Linga at each name. This kind of puja is performed four different times, and thus no sleep is obtained for whole night. This is styled the puja of the four Prahars or watches. It commences at about eight P. M. and ends at five A. M. The pagodas of Siva are thronged by devotees. Some persons engage twelve Brahmans, others four, &c., according to the abilities of the Yajaman, to perform the puja. The Brahmans must be liberally paid for their labours. On this day there is a fair at Elephanta. —*Vide 9th February.*

HOLI or HUTASHANI (Sanscrit—HOLIKHA or PHALGOTSAVA).—This most popular festival, called also Dola or Dolayatra, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Naoroz. It commences fifteen days before the full moon of Phalgun, on which day the ceremonies are terminated, and is held in honour of Krishna's sportive swinging. It is kept as a complete saturnalia.† Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are insulted by exclamations and jests of the most ribald and impure description, persons are sent on bootless errands, and the dance of drunken devotees in commemoration of Krishna dancing with the Gopias or female cowherds, crowns the scene. The wheaten cake, which is placed on the pile, lighted in every village at the close of the festival, on the 1st of Phalgun vad, is called Poli, and the right of first offering it is considered as an honorary privilege. Neither the origin of this festival, nor the obscene manner in which it is observed in Western India can be described. Nor is the observation of it confined to the lower classes of the native community—the highest join in it with the same zest as the lowest. This festival nominally continues from the new to the full moon: but only a few of the last days are practically and openly devoted to it. From one of the names of the month in which it occurs it is often called Shimga.—*Vide 26th February.*

THE HINDU NEW YEAR (the first day, called *Guddi Padwo*, or 'the flying of paper kites') is held on the new moon, 1st of Chaitra shud. On the morning of this day a Hindu first rubs oil on his body and then bathes himself in warm water. A pole bearing a flag and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family to represent the banner of Indra, the king of the gods, which, on this day, is also said to be raised in honour of him by the gods. What is done on earth is therefore in imitation of what is imagined to take place in the heaven of Indra. The leaves of the bitter Limb tree (*Melia Azadirachta*) are then to be eaten, which is supposed to secure health to the body, because this tree is the offspring of the ambrosia of the gods. The Almanack for the New Year is next to be worshipped and its predictions in regard to the year just commencing are to be heard from the Jyotishis. They tell whether there is to be abundance or scarcity of rain, whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. All this important information is not, of course, to be obtained without compensation. And not only are presents to be given to the Jyotishis, but the poor people are taught on this day to extend their liberality also to the Gurus and Brahmans. The day is to be celebrated by fasting. This is considered an auspicious day for commencing a building, or engaging in any new undertaking.—*Vide 14th March.*

RAM NAVAMI from *Ram* the 7th incarnation of Vishnu, and *Navami*, the 9th day of the month).—On this day it is said Ramchandra, the 7th incarnation of Vishnu, was born at "Ayodhya" or Oudh, about B. C. 1400. It is celebrated from the 1st of Chaitra

* The Ægle Marmelos, a favourite tree of Siva's, and which is held sacred among the Hindus.

† For a full account, see Broughton's Letters from a Maratha Camp.

Shud to the 9th. The object of the incarnation, it is said, was to effect the destruction of Rawan, the ten-headed tyrant of Lanka or Ceylon, which was at last done with the assistance of Hanuman, the chief of the monkey tribe. On the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the "Ramayana" or legendary history of Rama, is read in the temples and in the night "Kirtan" is preached by the "Haridas," who describes the so-called morality and heroic actions of Rama. The red powder called *gulal* (composed of barley meal or rice paste, or the *trapa natans*, dyed with *bakam* or sappan wood) is thrown about. Naches are not omitted during the nights. In some temples Brahmans are fed with rich and substantial dinners for eight successive days; these days are called Rama Navaratra, or nine nights of Rama. Many Hindus, both males and females, go to the temples of Rama to hear the Kirtan and Puranas. The last or principal day is Ramnavmi, when, it is said, Rama became incarnate at noon. In honour of this incarnation some Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about nine o'clock. Every temple of Rama is well furnished on this day and the images are decorated with precious ornaments and rich brocade. A Haridas is engaged to describe the birth and circumstances that attended his incarnation. He continues his discourse till twelve o'clock, when he brings a small image of Rama, nicely ornamented and well clad, and shows it to his audience, telling them that it is Rama who became incarnate; he then puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is the rejoicing and acclamation on this occasion; they fling gulal on each other and with great mirth at about one o'clock they go home, again to return to the temples in the evening. The feast of Ramnavmi is more particularly observed by the votaries of Vishnu.—*Vide 22nd March.*

Vada Savitri (Savitri Vrata)—A fast observed by women who, on the 15th of Jyeshth Shud, worship the Indian fig tree, to preserve them from widowhood.—*Vide 24th June.*

Ashadi Ekadasi is the eleventh of the light or shudi half of the month Ashad, and is dedicated to Vishnu. On this day, which refers to the summer solstice, commences the night of the god, during which the deity reposes for four months on the serpent Shesha.—*Vide 19th July.*

Nag Panchami is sacred to certain demi-gods called *Nagas*, in the form of serpents, and is celebrated on the 5th of Sravan Shud. Ceremonies are performed on this day to ensure protection against the bites of snakes. The serpent Kali, said to have been slain by Krishna, is worshipped at the festival.—*Vide 12th August.*

Shravan or (Nariyal) Purnima.—On this day the stormy part of the rainy season is considered to be at an end and cocoanuts are offered to the sea to gain its favour towards those who now begin to trust themselves to its mercy. It is held on the 15th Shravan Shukla.—*Vide 21st August.*

Janma or Gokal Ashtami (from *Janma* birth, *Ashtami* 8th day of the month).—Instituted in commemoration of the birth of Krishna, which is said to have taken place at midnight in the city of Mathura on the 8th of Shravan Krishna. Krishna is reckoned the eighth incarnation of Vishnu, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceding ones. His mother's uncle Kans, King of Mathura, who, it was predicted by Narada, would be slain by one of his own family, endeavoured to ensure the destruction of the infant god by placing guards over his pregnant niece Devaki; but the child was preserved from this and other attempts of his relations who had given directions for the slaughtering of all newly-born infants. This holiday is considered one of the greatest among the Hindus, and is observed by almost all the community; there are two sects among the followers of Krishna, and they solemnise the feast on different days. Those belonging to the one keep the eighth day of the dark moon, and those belonging to the other, the day following—being the one on which he was removed to the house of Nanda the cowherd in Gokal or Vraja, from fear of his maternal uncle, who sought his destruction; and some even keep both days. The former fast on the day of Janma Ashtami, and the latter on the day of Gokal Ashtami. Whichever day is kept, they fast the whole day, that is abstain from their usual food, but they may eat Phalahar, consisting of fruits and certain kinds of grain—rice and other grain being prohibited on this day. At night they bathe, and worship an image of the infant Krishna, adorning it with tulsi, (*Ocymum Sanctum.*) a favourite plant of Vishnu's, and other flowers, in the manner enjoined in the Shastra; and at about ten or eleven P.M. they eat their food. Next day a Brahman is called in to perform the puja, and afterwards he himself is worshipped and sent away loaded with dakshina and other

presents. The holiday is thus observed among the people of the higher castes. On the day of Gokal Ashtami gavalis (or keepers of cattle) hold a great jubilee among themselves, as Krishna is said to have been bred up among their race. They join themselves into a company, and frequent the houses of the people who follow their profession, holding each other's hands, and dancing in the street, repeating the words, "Govinda, Govinda," when they are honoured either by throwing over them curds or presenting them with curds. These people are called Gopals—protectors of cows. On the night of Janma Ashtami, crowds of people, generally of the lower ranks, flock to the temple of Kanhoba, which is commonly known by the name of Matth. There they hire native music and continue shouting and making a great noise. The Bhagat of Kanhoba, or the head of the temple, who is very often of the Shudra caste, and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance, makes his way through the assembly accompanied by the playing of tom-toms and acclamations of joy from his disciples, and standing before the shrine of Kanhoba, offers prayers to the idol which is richly decorated on the occasion. He is at first calm, but shortly affects to show signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his body into violent contortions, dancing and muttering strange ambiguous and wild sounds. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him thus, than believing that the spirit of the god has entered into him, they burn incense before him and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease quaking and trembling. His disciples, who are always near him, then commence one after another to shake themselves and dance in the same way, and the spirit of the god is believed to enter them also. This day the great Bhagat can create new disciples and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons supposed to be possessed of devils, children, &c., are brought to the temple to receive the benediction of the Bhagat and his disciples; he rubs ashes on their foreheads, passes his hand over their heads, and gives them full assurance of speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the Bhagat's promise. The Bhagat receives large presents on this occasion from his followers. He is held in great respect among the orthodox Hindus and even among people of other tribes. On the following morning the Bhagat collects his disciples in front of the temple and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies; then they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The Bhagat, in the mean time, with a scourge in his hand, and with all pretended dignity, stands in the midst, and looking in all directions in feigned solemnity, he lifts up his scourge, and putting it round the neck of one of his disciples as a token of his regard, draws him towards himself, when the disciple trembles a little, and then stands still, stretching his hands towards the sky, with his eyes closed. No sooner does he do so than the Bhagat scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated with the whole body of his disciples, and when he ceases, sweetmeats are distributed among the disciples and to the spectators. This terminates the feast of Gokal Ashtami among the people of the Shudra caste.—*Vide 30th August.*

PITHURI or PRACHI AMAVASYA (*Prachi* eastern, and *Amavasya*, produced in the new moon) is a festival observed at the new moon of the month Shravan, at which the 64 Yoginis or female attendants of the goddess Durga are worshipped, particularly by women, with the hope of obtaining issue. The 30th day of Shravan or the last day of the dark half of the moon is termed "Prachi Amas." Prachi is commonly known among the people of the Konkan and Deccan by the name of Pethuri. Wealthy Banias and other people of Gujerat go to Walkeshwar, in Bombay, on the previous evening, with their families, to remain in the Dharamsala during the night, and next morning bathe in the tank called by the natives Ban-ganga, i. e. the Ganges produced by an arrow. They say when Rama visited this place, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence. On the margin of the tank they perform *Shradhas* or ceremonies for procuring the deliverance of their departed ancestors from the thraldom of Yama, the king of the infernal regions,—if they still remain at his court or in his dominions. They afterwards repair to the temple of Walkeshwar and worship his

image, and then take their meals. The remaining part of the day is spent in amusements but particularly gambling. Booths are erected in the locality of the temple and furnished with all kinds of articles that please the fancy or delight the taste. Many Hindus on this occasion squander hundreds of rupees in hiring vehicles and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Deccan. It is kept up chiefly by those women who lose their children in infancy. They fast on this day, and worship an image of Pethuri, adorning it with various kinds of fruits and flowers through the medium of a Brahman priest.—*Vide 5th and 6th September.*

GANESH CHATURTHI or CHAUTH.—On this day was born Ganpati, or Ganesh, who is regarded as the god of wisdom who removes obstacles, and is invoked at the commencement of all undertakings. The manner of his birth is differently told; one story relates that as the god Kartikvirya was created by Siva without connubial assistance, in like manner Ganpati was formed by his consort Parvati from the turmeric and oil scraped from her body while bathing. The loss of his human head and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Siva, when he endeavored to prevent the god from entering the chamber of Parvati when performing her ablutions. According to others it was reduced to ashes by a glance from the eyes of Shani, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of this deity are formed, and after having been worshipped mostly for two days, or for nine or ten days, are thrown into the water. The Chinchore or Chinchwad (properly Deo) man-god who resides at the village of that name near Poona is supposed to be an incarnation of this god, who granted to a holy Gosain or ascetic named Moroba, who lived in the time of Sivajee and had won his favour, that he would continue in human shape in his family for seven generations; and though Dharmadhar, the 7th in descent from Moroba, died without issue, the deceit is perpetuated by the Brahmans from self-interest.* It is commonly said among the Hindus, that the Shastra enjoins on its followers the worship of Mrittika (earth) in the following forms, three times a year: The first of them is Nagpanchmi, on which day a snake of clay is made and worshipped; the second is Gokal Ashtami, when a clay image of the infant Krishna is made and worshipped; and the third and last is Ganesh Chaturthi, on which day a clay image of Ganesh is worshipped. This being the last day of the worship of Mrittika, it is observed with greater pomp and more ceremonies, conviviality, and music, than the other two. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being Ganpati's favourite vehicle, is sometimes placed beside his image, richly saddled and bridled. The image of Ganpati is either made in the house or purchased from an artist; it is gilt with the finest gold and painted with superior and variegated colours; and much labour and ingenuity are bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of Bhadrapad shud is the period appointed for the celebration of this feast in honour of his birth. On the previous day the worshipper cleans and whitewashes his house and furnishes it with all sorts of costly furniture that he can procure. The profusion of light is the first thing that would attract the eye. On the following morning, i. e. on the day of Ganesh Chaturthi, they bring the image home (if it is bought) with great display, accompanied by native music, and with all the honours of a god. A place where his godship is to be seated is prepared, either in the form of a covered shrine or open space which is adorned with fruits and flowers strewed round it, and twigs of trees hung over it in clusters; after which commences the business of the officiating priest. He sits near the master of the house and begins consecrating the idol by reciting incantations or mantras from his book and throwing over it red coloured rice; after performing many consecrative ceremonies, he pretends to bring the god into the image. Being installed, the devotee places before him Naivedya (food), which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him and prays him to be gracious to him and his family. By the generality of the people, Ganpati is kept one day and a half; but by some five or ten days according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his exploits by a Haridas in his presence, at which friends and relatives are invited to attend. A large party of Brahmans are entertained at a sumptuous dinner in honour of Ganesh, and then dismissed with the usual dakshina. On the last day preparations for the departure are made. Evening is the time appointed for parting, when the master of

the house performs Uttarpuja through the priest, who takes away the pretended divinity with which the image was invested by repeating certain mantras; flowers, fruits and sweetmeats are offered to the idol; *arti*, that is, lighted wicks, are moved before him, accompanied with music and hymns; and he is invoked to bless the owner and his family and remove any calamity that may befall them throughout the year. Afterwards the Brahmans are presented with dakshina, and the image is seated in a palanquin, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or a tank in a procession which consists of the master of the house, his children, and relatives, attired for the occasion. When they reach the place, they take out the image and commit it to the water, with expressions of regret for its absence till next year. There is a legend, that one day Ganpati, while riding on his favourite Mouse, had a fall, at which the Moon laughed. Enraged at such an insult the god of prudence cursed the moon and all who should look at her: but afterwards amended the matter by restricting any from looking at her on his birthday. Thus, on the day of Ganesh Chaturthi, the Hindus are prohibited by the Shastra from looking at the moon, and are afraid to look at it this evening, for fear of incurring any calamity during the year; and if by any accident they happen to see it, they try to provoke their neighbours to revile them and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse and removed by it.—*Vide 9th September.*

RISHI PANCHAMI.—The day following Ganesh Chaturthi is observed in honor of the seven Rishis or sages, who are supposed to be the seven bright stars in the Great Bear. It is especially observed by females who are strictly prohibited from eating anything but articles produced by manual labour.—*Vide 10th September.*

GAURI-VAHAN (*Gauri* a virgin, one of the names of the goddess Parvati). This festival occurs two days after the last, or on the 7th Bhadrapad. Parvati, the wife of Siva, is worshipped as a tender maiden. It is specially observed by females. Cakes are made in the shape of pebbles, and eaten at night. Servants keep it with songs which they rehearse at night two months before the holiday. It lasts for three days.—*Vide 11th September.*

WAMAN DWADASI (from *Waman*, a dwarf, *Duadasi*, 12th day of the Paksh) is a festival held on the 12th of Bhadrapad Shud in commemoration of the 5th incarnation of Vishnu, in the shape of a dwarf, to prevent Bali from obtaining dominion over the three worlds through the effects of his religious austerities. Bali promised the dwarf, at his own request, to grant him as much land as he could compass at three steps. On the ratification of this promise, the first two strides of the incarnate deity are said to have embraced the heaven and the earth: there being now no place for him to put down his foot for the third time, Bali magnanimously told him to put it on his head, which the dwarf having done, crushed him down to Patal, the dominion of which was conceded to the monarch.—*Vide 17th September.*

ANANT CHATURDASI—Is kept on the 14th of Bhadrapad shud in honor of the god Anant. An Anant Dora, as it is called, made of gold lace and silk so formed as to be tied round the elbow, is bought and worshipped. It is not much observed.—*Vide 19th September.*

PITRA PAKSH.—(*Pitra*, paternal ancestors.)—The Krishna Paksh of the lunar month Bhadrapad or the last day of it or new moon of Aswin is sacred to the Pitras, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which are considered particularly proper during this season. Offerings of fire and water are made to the manes.—*Vide 5th October.*

DASARA.—(*Dashan*, ten.)—This festival is held on the 10th of Aswin Shud. It is called Durga Puja or Durgaochchawa, and is supposed to relate to the autumnal equinox. On this day, in commemoration of the victory of Devi, the wife of Siva, over the buffalo-headed demon Maheshasur,—her image, after having been worshipped for nine days, is thrown into the water. On this day also Rama marched against Ravana, the demon king of Ceylon, on which account the Marathas seem to have selected it as a proper period for commencing their plundering excursions. Early in the morning the Hindus having washed themselves perform the Puja of their household gods in conjunction with that of all their shastrical granths or religious books. Marathas and Kshatriyas, or those who consider themselves of the military race, worship the implements of war and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. At noon they take dinner in company with their relatives. In the afternoon they go to the temples in procession, with friends, relatives and children. Mammadevi and Bhuleshwar are the principal scenes. Both of these places are thronged by Hindus, bearing each in his hand flowers and a branch of the *Apta* or *Palas* tree (*Butea frondosa*), which is regarded as representing *sona* (gold), and is held highly sacred and indispens-

able in commemorating this day. On entering the temple they offer the *sona* and flowers to the image, accompanied with a prayer, they also give dakshina to th Brahmans. On returning home, they visit their friends and relatives, present them with a leaf or two of the imaginary gold, concluding with an embrace, and receive similar treatment in return. The vicinity or front of the temples are surrounded by the vendors of *sona* who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindus most auspicious for sending their children to school. The nine preceding days of the Dasara are called *navratra*, a compound word for nine nights. During these days, the devotees of Durga engage a Brahman to read hymns before her, in which her exploits are extolled and her rewards to her votaries described. On the ninth day, at every temple of Durga, Havan or sacred fire is created, and fed with rice and clarified butter, and adored by repeating certain mantras. It is customary among the Bania women to keep up a dance during these nine nights, called Garba, which is accompanied with religious songs. The celebration of the Dasara is also said to owe its traditional origin to the Pandavas—the five sons of Pandu having selected this day, after completing their exile of twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins the Kauravas, of which the Mahabharat gives an account, occupying the whole volume. The Hindus decorate their horses with flowers this day, putting garlands of flowers round their necks. It is said that Parth, the most invincible of the five Pandavas, who had a peculiar fondness for horses and pre-eminent skill in the art of chariot-fighting, and from their being great auxiliaries in the matters of battle, washed his favourite milk-white horses, put garlands of flowers round their necks, and patted them with his own hand in token of fondness and approbation. Owing to this legend it seems the decorating of horses with flowers on this day is observed.—*Vide 15th October.*

DEWALI (*Dipa* a lamp, and *Ali* a row), "the feast of lamps," is a festival on the new moon of *Kartik* celebrated in honor of the goddess Kali, or Bhawani, who was formerly propitiated by human sacrifices, and of Vishnu's victory over the demon Taraki. The festival, however, seems to be more peculiarly consecrated to Lakshmi, or the goddess of prosperity. The feast begins on the 13th day of Aswin vad termed Dhanatryodasi (from *Dhan* wealth, *Tryodasi* 13th,) and saukars now count their stores and perform puja to their wealth. It is celebrated for a period of five days, during which houses are cleaned, whitewashed, and illuminated; a quadrangular floor called Rangoli is made in front of the house and painted with different coloured powders. Gambling is vigorously carried on and is the chief recreation of the feast. All the treasure in the house is collected and worshipped under the name of Lakshmi, the goddess of wealth; a light is made and dedicated to Yama, the god of the infernal regions, and every preparation made for the succeeding morning. Fire-works, crackers, spouters, &c. are displayed. The 14th is Nark Chaturdasi (*Nark* hell, *Chaturdasi*, 14th) on which Vishnu is fabled to have killed Narkasur, a giant, and entered his city early in the morning, when the people illuminated the city and received him with great joy and acclamation; and the women having adorned themselves went before him with lighted lamps. The Hindus keep this day to commemorate this great conquest. They get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed, new clothes and ornaments are put on, and the children are decorated. When this is done, the mistress of the house performs a sort of ceremony called *Arti*—placing wicks either in silver or brass dishes, symbolical of the removal of all their difficulties and of a happy year—when each male member makes her a present of money; sweetmeats are distributed and friends are invited to dinner. The 30th, Amavasya or the last day of the moon, is the day of Sarasvati, the goddess of learning, the same as Lakshmi, the goddess of wealth. It is known by the name of Vadhipujan, or the worship of the shops. This day the Vikramaditya Samvat year ends. All the merchants close their accounts this evening. New journals, ledgers, and day-books are brought and worshipped through a Brahman priest; new entries are made in the account books; writers are sent to different shops with money to credit in their names on this auspicious evening: Sarasvati is invoked to render the subsequent year prosperous and to be with them throughout it; then the Brahmans are sufficiently paid for their labours and the servants receive a present of money according to their rank. This day is celebrated by all classes of people—Banias, Parsis, Muhammadans, &c.—*Vide 2nd and 3rd November.*

BALI PRATIPADA.—The first day of Kartik Shud is Baliraj, the day of king Bali. On it Bali was sent to Patal or the lower regions, by Vishnu, for his great merit. The Hindus rise very early in the morning, prepare lights, clean their houses, wash their bodies, and fill a basket with all the rags and rubbish in the house, put a lighted lamp over it, and throw it outside of the house, repeating the words—"Let all misery and

troubles go, and the kingdom of Bali come." After ablution, the women make an image of Bali Raja and worship it; and presents are given to the Brahmans and other mendicants.—*Vide 4th November.*

BHAU BIJA.—The 2nd day of Kartik Shud is Yama Dwitiya, which is commonly known by the name of Bhaubij. This day it is said Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of money or gold ornaments, and thus please the king who, they imagine, will save them from the punishment of their sins.—*Vide 5th November.*

KARTIK EKADASI—Is the eleventh day (in some years the twelfth) of the light half of the month Kartik, and is celebrated, in honour of Vishnu. On this day the god is supposed to rise from his slumber of four months—a fable which has reference to the sun being at the winter solstice—*Vide 15th November.*

KARTIK PURNIMA—Is the full moon of the month Kartik. On the fifteenth of this month as well as of Magh, Ashad, and Vaishakh, which days are called "Dhanumasya Kuru," gifts to Brahmans are considered indispensably necessary. Siva is said to have gained his victory at this season over the monster "Tripurasura,"—"the demon of the three cities." This demon is said to have become so powerful that he defeated almost all the gods and drove them out of their habitations, when they went to Kailas, the abode of Siva, and represented to him their grievances. Siva assured them that the evil would soon be removed and sent them back to their homes. He made a car of the earth, the wheels of which were the sun and the moon; Brahma was chosen his charioteer, the mountain Himalaya formed his bow, and Wasuki, the king-serpent, his bowstring; Vishnu himself became his quiver. Thus equipped, Siva rode out and, after a struggle, destroyed the mighty giant. To perpetuate the memory of this event, the Hindu women get up in the morning about two o'clock, wash themselves in cold water, repair to the temple of Siva, and worship his image. Afterwards they return home and present a Brahman with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and dakshina—a present in hard cash; this is called Dipdan or present of a lamp. On the evening an illumination is made in the temples of Siva, and a pillar of stone is built in front of each of them for this special occasion. A great fair is held in Bombay at Walkeshwur and kept for three days. The Hindus, both the rich and poor, Brahmans and Shudras, go there and worship the image of Siva, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the Dharmshala, or inns built by them, but the poor return the same evening. During these days hundreds of rupees are uselessly spent in hiring conveyances and purchasing sweetmeats and toys.—*Vide 19th November.*

CHAMPA SHASTI—Is held sacred to Khandoba on the 6th of Margasirsh Shud. Fairs are held wherever there is a shrine of that idol. At Jijooree in the Deccan, between Saswad (Sassoor) and Satara, a great meeting from distant places annually takes place, where hook-swinging used to be practised. *Bhandar*, a mixture of powdered turmeric and another substance, and *Champa* flowers are held sacred on this day. Pretended exorcists keep shouting "Elkot," and give *bhandar*, as of supernatural efficacy, to their followers. The devotees of Khandoba are prevented from eating brinjals previous to this day.—*Vide 9th December.*

DATTA JAYANTI—Is held as the anniversary of the birth of Datta on the 14th of Margasirsh Shud. At night a Haridas preaches kirtan, narrating the traditional circumstances of the birth of his godship.—*Vide 14th December.*

HINDU BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shastras to be observed at the period of conception, and in the different stages of pregnancy. "Jat-Karan" is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel-string. When a father first sees his son he is required to take a piece of gold in his hand, offer a sacrifice to Brahma, and smear the forehead of the child with the *ghi* left on his fingers on finishing the sacrifice. A string of 7 or 9 threads and 5 blades of *Durba* grass is to be bound by the father round the child's wrist. Other rites are to be observed on naming the child twelve days after birth, on bringing him outside the house when three months old—on feeding him with the hand at six months—and if a male, on shaving his head at the age of three years.

HINDU MARRIAGE CEREMONIES.

Among the Brahmans the male may be married at any time after the "Munj" or investiture with the sacred thread, which is done within the age of eight years, and

among other castes at any age. The female should not be ten years old and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shastras mention eight kinds of marriage, but only one is observed by the higher castes, named "Bramha," when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmans are the *Lagnapatrika* or writing by the Joshi or Astrologer of the names of the parties and the day and hour at which the wedding is to take place, the *Saptapadi* or walking round a fire three times, at each time seven steps, and tying together the garments of the parties, and the "*hom*" or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes; as also the same castes in different provinces have their peculiar ceremonies. *Phallasambandh* is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

HINDU DEATH CEREMONIES.

On the death of a man the performance of his funeral obsequies (*Kriyas*) and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing "Sradh" are eleven days after death; secondly, every month; and thirdly, on the anniversary of the death. Brahmans are unclean only for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen —but Shudras for thirty. Among the Hindus, generally, the body of the deceased is burnt, but that of an infant under two years of age is buried. The "Sradh" consists in the offering of rice, flowers, water, &c. to the deceased and to his manes, in order to enable his soul to ascend to the heaven of the Pitras, or great progenitors of the human race.

MUHAMMADAN FESTIVALS.

MUHARRAM.—(Ar. *Muharram*, most sacred).—A celebrated mourning held annually in remembrance of the first alleged martyrs of the Shiah Musalmans—Hasan and Husain, from whom the whole race of Sayids are descended. Hasan and Husain were the two sons of Ali, the cousin, and Fatima, the daughter of Muhammad; and after the murder of their father A. H. 40 by the contrivances of the Kaliph Yazid, the son of Muawiah, they with their families removed from Shawn, or Kufa, the capital, to Medina. The elder Hasan was poisoned by an emissary of the usurping Kaliph A. H. 49; and after several years, the people of Shawn, being tired of king Yazid's tyrannical rule, invited Husain to return to the capital and assume his lawful right as Imam (leader of the faithful). Before accepting this invitation, Husain sent Moslem, his cousin, as a messenger, to report the true state of affairs to him; but on his arrival with his two sons at Shawn he was murdered with all his retinue at Karbala in Turkish Arabia on the 10th day of the Arab month Muharram A. H. 61 (9th October A. D. 680). Zain-ul-Abidin, the eldest son of Husain, alone escaped. This forms the subject of the ten days' wailing during the Muharram. The Muhammadans are divided into two distinct sects, called the Shiahs and the Sunnis. The former regard Ali and his descendants Hasan, Husain, Zain-ul Abidin, Muhammad Bauker, Jafar Sidak, and Ismail-bin-Jafar-Sidak, as the lawful leaders after Muhammad; and the latter the Kaliphas, as Abubakr, Omar, Oaman, &c.,—hence quarrels, animosities, and dislikes are hoarded up to be avenged during the Muharram. The festival begins when the new moon of the first month (Muharram) becomes visible. Including the *Ziyarat*, or "visiting the grave," it lasts till the 12th; but the fast is only for 10 days, and is hence called *Ashura*, from the Arabic word signifying ten. Houses are appropriated for the mourning ceremonies, and called, *Ashur Khana* 'ten day house'—*Taziya Khana*, 'house of lamentation,'—and *Astana*, threshold or *fakir's residence*. The mourning assemblies of the rich are held morning and evening in the Imambaras during the Muharram, when the head priest or preacher recites a subject for each day's service, from the various books descriptive of the life and sufferings of Hasan and Husain. The Marsiah, a poetical composition embracing the whole of the subject commemorated, is chaunted; the names of their lawful leaders are recounted with blessings, and that of the usurpers, the Kaliphas, with curses. Taziyas (a term signifying grief, applied to a representation of the mausoleum erected over the remains of Imam Husain at Karbala,) made of ivory, ebony, sandal-wood, cedar, and sometimes wrought in silver filigree,—and indeed of

every variety of material. from pure silver to bamboo and paper, according to the rank and wealth of the party,—are exhibited and conveyed in procession through the streets. The moment the new moon is seen a spade is struck into the earth: this is called *kodali marna*, and at this spot a pit is dug two or three days afterwards, in which a bonfire, called *allawa*, is kindled. At night men dance round the fires, fencing with swords, and springing through the flames, crying Ya Ali! Shah Hasan! Shah Husain! Dulha! "bridegroom," &c.

On the night of the 7th a representation of *Burak*, the horse or mule on which Muhammad is said to have ascended to heaven, is brought out. On the 10th the bier called *tabut* or *taziya* is carried in procession. Before this incense is burned and other rites are performed. The Tabuts, it is said, are peculiar to India. They are not built by the inhabitants of Persia and Arabia. Many Muhammadans regard them with strong disapprobation but in Bombay the larger portion of them unite in building Tabuts. These are taken out, and, accompanied with music, carried in procession through the Bhendi Bazar from midnight of the ninth until three o'clock of the morning of the tenth day, and again from two till six o'clock on the afternoon of the same day, on their way to the beach in Back Bay, where the greater part of the Tabuts, after being stripped of whatever is of value, are cast into sea. The Indian Shiah Muhammadans who do not unite in building the Tabuts are accustomed to go on this occasion to the mosks for five successive evenings to listen to the account of the death of Husain. On the morning of the 10th of Muharram they resort to the open court of the Imambara. A *Mulla* reads the story of the martyrdom and as he becomes eloquent the auditors beat their bared breasts and weep aloud, every now and then giving utterance to cries of lamentation—"Wai! Wai! Husain kush ta shud!" A kind of ring is meanwhile cleared among the devotees, for the passage of a procession; and then amid intense excitement three horses are led in. Little children representing the children of Husain, with blood-stained clothes, are mounted on these horses, surrounded by large numbers of mourners, wailing and chanting, and as the procession moves forward, headed by six banners—among which is the green standard of Ali,—the riders of the horses throw ashes over their heads. A figure borne on a bier, representing the decapitated body of Husain, covered with blood and wounds, is brought in, from which broken arrows stick out, with a white dove hovering above it. The profoundest grief is now exhibited by the spectators. Walking round and round the ring, the mourners now and again form circular groups of a dozen or twenty, and bending inwards to the ground, beat their breasts, crying "Wai! Wai! Husain!" Their demonstrations of grief, however, are not equal to those of the Moghuls and Persians, who while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Musjid in Mirza Muhammad Ali Khan street. Some two or three horsemen, bearing flags, enter the large yard adjoining the Imambara with loud wailings, and are followed by two horses caparisoned, to represent those which were for the use of the fallen Husain. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying "Hai Hasan! Hai Husain!" This festival is with the Sunnis a mere farce. Before the martyrdom of Hasan and Husain this fast was observed as a feast and is still reckoned one of the lesser *'Ids.—Vide 13th to 23rd April.*

AKHIRI CHAHAR SHAMBAH.—A lesser *'Id* or festival held on the last Wednesday of *Safar* on account of Muhammad having, it is said, recovered a little on this day during his last illness, and taken a bath for the last time. It is usual to write out seven benedictions, wash off the writing while the ink is fresh and drink it. It is proper to bathe, put on new clothes, prepare sweetmeats, walk in gardens, and repeat prayers on this day. —*Vide 6th June.*

BARI WAFAT.—(Urd. *bari*, great, Ar. *wafat* death.)—A fast held on the 13th of *Rabi-ul-awal*, in memory of the death of Muhammad A. H. 11. The *Kadam-i-rasul*, (Prophet's foot) the impression of a foot on stone, or the *mu-i-mubarak* (the sacred hair of Muhammad) is brought forth and honored. On the nights of the 11th and 12th processions take place.—*Vide 23rd June.*

PIR-I-DASTGIR.—Is a festival held on the 11th of *Rabiu's sani* in honour of Sayid Abdul Kadir Ghilani or Pir Piran, a celebrated saint who has 96 names. He was a Sufi doctor, born in Ghilan, who taught at Bagdad, where his tomb is still revered as sacred. Sadi, who studied under him, mentions him in his Gulistan. On this day and during the ravages of cholera or any plague it is customary to carry a large green

flag in his name. Vows are made to him for offspring. His sister's son Sayid Ahmad Kabir is the patron of the remarkable religious mendicants called *Gurzmar.*—*Vide* 20*th July.*

CHIRAGAN-I ZINDAH SHAH MADAR.—A festival held on the 17th of *Jumadi-al-awal* in honor of Badi-ud-din, a Syrian saint who is said to have dwelt at Makkhanpur in Oudh, and to have lived to a great age, or to be yet alive, whence he is styled *Zindah*, living. A fair that lasts 17 days is held at his tomb or cenotaph, which is visited annually by about a million of pilgrims. *Dam Madar*, "the breath of Madar," is supposed to be a charm against snakebites, the violence of fire, and all other evils. His flag is black, and black cows are sacrificed in his name.—*Vide* 25*th August.*

URS-I KADIR WALI.—A festival in honour of *Khwajah Mu'in-ud-din Chishti, or Kadir Wali*, is held on the 11th of Jumada'l-akhir. This Sunni Saint was born in Sijistan A.H.527, and came to Ajmeer in the reign of Kutb-ud-din Ibak (A.H. 602-607), where he married the daughter of Sayid Husain Mashhadi though a Shiah. A magnificent mosque was built by the Emperor Jehangir, A.H. 1027, near his tomb at Ajmeer, where he died A.H. 628. He has also a shrine at Nagar near Nagapatnam. He is held in special reverence by the Mapillas.—*Vide* 18*th September.*

MIRAJ-I MUHAMMAD in commemoration of the alleged ascension of Muhammad when the Angel Gabriel mounted him on Burak and conveyed him to heaven. The ascent is referred to in the 17th Sura of the Koran. It is held on the 27th of Rajab, though Katib al Wakidi says the Miraj happened on the 17th Ramazan.—*Vide* 2*nd November.*

SHAB-I BARAT or 'Night of Record' is one of the three lesser *'Ids*, and is held on the 16th Shaban, when, they say, the actions of men for the ensuing year are recorded. It is passed in mirth with illuminations and fireworks. The whole night should be spent in reading the Koran and a fast observed next day.—*Vide* 21*st November.*

RAMAZAN-KA-ROZAH.—This Muhammadan fast commences from the morning after the new moon of Ramazan is first observed, and is kept each day throughout the month of this name, from 4 A.M., or when the first streak of light borders the eastern horizon, till the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not a single drop of water, or any other liquid, should pass the lips. Each day during the fast is passed in occasional prayers, besides the usual *namaz*, and in reading the Koran or the lives of the prophets. The fast is first broken by a cooling draught called Dandhi, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber, and melon, with coriander, well pounded, and afterwards diluted with cold water; rose water, sugar, syrup of pomegranate, and kurat, are also added; the whole preparation is made in the zenana, and then drunk by basinsful by all true Rozedhars. Plain boiled rice, with dhi (sour curd) and sugar, forms the first morning's repast of the *'Id*; and dried dates are eaten with it in remembrance of the prophet's family, whose greatest luxury was supposed to be the dates of Arabia. On the 20th or 21st the Shiahs celebrate the night of Ali, the nephew and adopted son of Muhammad, who is said to have died on one of these two nights. They perambulate the streets carrying a *tabut* and beating their breasts. The night of the 27th is called *Lailat-ul Kadir*, 'or night of power,' because it is said the Koran descended from heaven on that night. It should be observed as a vigil. On this night the Ghair Mahdis or the Pathan sect who assert that the 12th Imam, Mahdi, has come and gone, used to have encounters with the Sunnis and Shiahs, and those killed were supposed to be rewarded as martyrs—*Vide* 5*th December and* 10*th January.*

'ID-UL-FITR.—"The festival of breaking fast." called also *Ramazan-ki-'Id*, and "the feast of alms" is celebrated on the 1st Shawal. On this day Muhammadans are required to bathe, put on new clothes, apply antimony to the eyes, and perfume themselves; then to distribute the *fitr* or *sadkah*, which is 2½ sers of wheat, dates, or any grain used for food, given to the poor or religious mendicants. All then proceed to the *'Idgah* repeating "God is great. There is no God but God." The mulla ascends the *mimbar* or pulpit, and after a short thanksgiving reads the *Khutbah* or Friday sermon. He then descends to the lowest step (which with the Shiahs is the third, but the fourth with the Sunnis) and recounts the virtues of the king and prays for him. Then a general prayer is made, and the congregation rise with a shout of *Din!*—"Faith!" and fire off muskets. The evening is spent in rejoicing and merriment. In every house the same dainties are provided, every amusement that can be thought of is indulged in; the nach women in the apartments of the men, and the *domini*, a class of singers who exhibit before females only, in those of the women, are in great request on the last day of Ramazan, when the matron of the mansion sits in state to receive nazars from inferiors, and to grant favours to others.—*Vide* 15*th and* 16*th January.*

CHARAGHAN-I BANDAH NAWAZ—A festival on the 16th of *Zil Kadah*, is held in honor of a saint called Bundah Nawaz, "the slave-cherisher," and "Gizu daraz," "the long-ringletted," whose shrine is at Gulburga in the Nizam's territories.—*Vide 28th February.*

BAKARI 'ID or 'ID-I KURBAN.—(Ar. *Bakar* a bull, *Kurban* a sacrifice.) This is a feast held on the 10th Zil-Hijjah in honor, it is said, of Abraham's intending to offer up Ismail, who, they aver, was chosen as the offering to the Almighty, and not Ishak, grounding their assertions on traditions which they deem conclusive evidence on the subject. The offering thus made is annually commemorated by the sacrifice of animals, such as camels, cows, sheep, goats, kids, or lambs according to each person's means, which answer the double purpose of honoring the memory of Abraham and Ishmael and also of assisting as a meal. The followers of Muhammad believe that the entrance to Paradise is guarded by a bridge Pul-sirat as narrow as a scythe, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the animals they have sacrificed at the *'Id* will be present to lend their aid in helping them over with lightening celerity. This festival, called by the Arabs *'Id al Zoha*, 'day of sacrifice,' and the *'Id-ul fitr*, are the two great festivals of the Muslims. In A. H. 1 Muhammad kept the Ashor or Jewish fast of the Atonement on the 10th day of the 7th month, but next year his relations with the Jews being altered, he substituted for it the *'Id al Zoha*, grounded on the ceremonies then current at Makka, and on the 12th of Zil-Hijjah he sacrificed two fatted sucking kids with building horns,—the one for his followers and the other for himself and his family (see Leviticus xvi.)—*Vide 24th March.*

MUHAMMADAN BIRTH CEREMONIES.

After the 7th month of pregnancy, families that have the means celebrate the *satwasa* (seventh month) with great rejoicings, dress the woman in new clothes, and deck her with flowers. In the 9th month the *Ratjaga* (from *rat*, night, and *jagna* to watch) is similarly kept. A *kathar*, (dagger) a lemon, and Limb leaves are placed near her head to ward off misfortune and her drink is boiled water in which a piece of red hot iron has been plunged. After the birth, she is allowed only *achwani* (caudle) for the first six days. An iron plate and a broom is placed in a corner of the room as a spell against evil spirits and if any stranger enter on the 6th and 40th days rue is thrown on the fire to prevent evil. Dogs and cats are carefully kept away, and the latter must not even be named. After swaddling, the summons to prayer must be uttered aloud in the infant's right ear and the Muslim creed in the left. Before it is put to the breast some pious man must dip his finger in honey and put it into the infant's mouth. The mother's relatives and friends go together to the house and place blades of grass in the father's hair, for which he has to make them a present. Until the *chilla* (40th day) the mother is regarded as unclean, and may neither pray, touch the Koran, nor enter the Masjid. Certain ceremonies are then performed for her purification, and the sacrifice of two he-goats for a boy, or one for a girl, is sometimes offered. The child is also shaved, the hair is placed on a raft, a prayer repeated over it in the name of Khizr or Elias, and then launched into the stream. A lock of hair is sometimes allowed to grow in honor of some saint.

MUHAMMADAN MARRIAGE CEREMONIES.

Betrothal takes place at a very early age and the marriage is celebrated when the bridegroom is 18 and the bride at most 13 or 14. *Madawatniyan*, female emissaries, are employed to report the charms or wealth of certain eligible girls. Astrology is then consulted. The ceremonies of betrothal are such as the distribution of betel-nut leaves, the bridegroom going on horseback with musicians to the house of the bride to offer presents, sending sweet cakes from the bride to the bridegroom, treading the threshold when the bride's mother gives the bridegroom a gold ring, money and a handkerchief, and tasting salt in the bride's house—previous to which the bridegroom must only eat sweet things there. Then follow ceremonies of anointing and bathing and the preparation of the wedding garments. Among the marriage ceremonies are the conveying of the bridegroom's gifts to the house of the bride, and of the wedding finery to the bridegroom's. Then the bridegroom gaily dressed rides first to the Masjid, and, after repeating three prayers there, to the bride's house, where, before he is allowed to enter, he must give presents to her friends. He is carried in by a man whose advance is resisted till further presents are made. The Kazi or his sub-

stitute, after taking two veils from the bridegroom's face, makes him repeat in Arabic certain suras of the Koran,* &c. The bridegroom next repeats the marriage contract, and the hand of the bride is joined in his, the Kazi repeating a prayer that the couple thus wed may be as loving as Adam and Eve, Abraham and Sarah.

MUHAMMADAN DEATH CEREMONIES.

When a Muhammadan is dying a reader of the Koran is brought to read the *Suraiyasin* and two creeds. Sweet sharbat is then poured into the throat of the dying person, with the belief that it facilitates the exit of the spirit. After death the body is placed in a coffin, and with parade suited to the rank of the departed, it is carried to the burial ground, where a tent or *kanat* is pitched near the tomb. Here the body is bathed and dried, and powdered camphor rubbed on the hands, feet, knee, and forehead, the parts which daily touch the ground in prayer. The body is then wrapped in a calico windingsheet on which certain suras of the Koran have been written. The religious Musalman generally prepares his own sheet in his life time, adding passages of the Koran from time to time. The coffin is carried to the grave by the relations repeating as they go, "There is no god but God, and Muhammad is the prophet of God." The Kazi reads the funeral service for the poor, and the nearest relation or other friends for the wealthy: it consists of four confessions of faith and one benediction. The body is then placed in the grave on its back with the head to the north and the face towards Mecca or the west. Each person takes up a little earth, and repeating the 112th sura or the passage—"We created you of earth, and return you to earth, and we shall raise you out of the earth on the resurrection day," then puts the earth gently into the grave. The *Fatihah* "I offer this prayer for such a one," is then said first for the person just buried and then for all in the graveyard. Then the 1st and 111th suras are recited and alms distributed. On the 3rd day the whole Koran is read through, and on the 10th, 20th, 30th, and 40th days various ceremonies are gone through. *Fatihah* is repeated after every three months for a year.

PARSI FESTIVALS.

The festivals of the Parsis are celebrated with little outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. The Emperor Akbar adopted their "Naoroz," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the *Ilahi Din* or the "Religion of God," which he fruitlessly endeavoured to introduce among his people.

GAHS.—The day is divided into five watches or *Gahs* or *Gehs* (in winter *four*): 1 *Havan*, from sun-rise till noon, which is under the protection of Mithra; 2 *Rapithwan* or *Rapitan* (omitted in winter) from noon till about 3 o'clock, under the protection of Asha-vahista or Ardibehisht, &c.; 3 *Uzayerin* or *Oziran* from about 3 o'clock till sunset, or till the stars appear; 4 *Aivishruthrem*, from sunset till midnight, under the especial care of the Fravashis or faruhars; and, 5, *Ushahin* from midnight till the disappearance of the stars, or till sunrise, which is under the care of Sraosh or Serosh, the Heavenly Watcher as its *hamkar*. For each gah there are special prayers appointed.

MEDIOSHAM, (*Maidhyo shema*, mid-winter), is the second of the six 'heads' or seasons of the year. These are believed to have been instituted in commemoration of the six periods of creation. They are now called Gahambars, and the second is held in commemoration of the creation of the waters. It is celebrated from the 11th to the 15th of Tir, the 4th month.—*Vide 1st and 31st December.*

TIR JASAN.—In the middle of Mediosham, on the 13th of Tir, this festival occurs. It is kept in honour of the star *Tistrya*, (Tashtar in Parsi) or the planet Mercury, the Watcher of the East, as Satavaesa is of West, Vanant of the South, and Haptoiringa of the North. Tistrya is called the giver of wealth, and is said to bring down the water from celestial ocean *Vouru-kasha* to the earth to fertilize it. He defeats and expels the Pairikas (fairies), who fall like "worm-stars" between heaven and earth into the sea Vouru-kasha (to prevent the waters coming out); but Tistrya enters it in the shape of a horse, and causes the waters to overflow on the earth. He is opposed by the Deva *Apaosha* in the shape of a black horse, and is powerless to defeat him unless he is addressed by the prayers of men.† Hence his worship was compulsory in times of drought.—*Vide 3rd December and 2nd January.*

* The 109th, 112th, 113th, and 114th.

† Dr. Haug's Essays, p. 181.

AMARDAT JASAN.—This feast is held on the 7th day of Amardat, the 5th month in honour of the Amshaspand Amardat.—*Vide 27th December and 26th January.*

SHAHREVAR JASAN— Is held on the 4th day of the 6th month, in honour of Shahrevar (*Kshathrya vairya*) the Amshaspand presiding over hills and mountains, and over mines, gold and silver.—*Vide 23rd January and 22nd February.*

PETASHAM, (*Paitis-haya*, spring) is the 3rd of the Gahanbars, held from the 26th to the 30th of the 6th month, in commemoration of the season of the creation of the earth.—*Vide 14th to 18th February and 16th to 20th March.*

The NAOROZ.—The Naoroz-i-Jamshid, or the Naoroz-i-Sultan,—the king's day. This festival falls about the 21st day of March, and corresponds with the Vernal Equinox. This day is observed by the modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for State purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Muhammadans or Parsis. In India it is simply a day of rejoicing.—*Vide 20th March.*

MEHER JASAN.—The angel or Izad presiding over, and directing the course of the sun is called *Mithra*, (Pers. *mihir*, i. e., friend). He also presides over truth and friendship and woods. His chief efficacy is at dawn, and he is the ruler of the watch Havanim. This feast is held on the 16th day of the 7th month.—*Vide 6th March and 5th April.*

EIATHREM (*Eyathrema*, the rainy season) is the fourth Gahambar commemorating the season of the creation of trees. It is celebrated from the 26th to the 30th of Meher.—*Vide 16th to 20th March and 15th to 19th April.*

ABAN JASAN or AVA ARDUI-SUR JASAN.—On the 10th day of the 8th month. In the Zend text, the name of the Angel who presides over the sea is *Ardui Sura Anahita*, the mighty goddess Anaitis of the ancient Persians, corresponding to the Mylitta of the Babylonians. The epithets which form her name refer to the celestial waters represented by her,* and over which she presides as well as over births. This festival is held in her honor, and the Parsis are required on this day to approach the sea shore, or any stream of water and chant the Zend prayers. Offerings of sugar, cocoanuts, flowers, &c. to the sea are common. In Bombay a fair is held on the Esplanade on the occasion of this festival.—*Vide 30th March and 29th April.*

ADAR JASAN.—Adar, another synonym for fire, is the name by which the ninth day of the month and the ninth month of the Parsi year is called. This is the most sacred of the twelve months, and the ninth day of it is held in great respect. On this day the fire temples are very much crowded, and offerings of sandal-wood are made to the sacred flame, and money distributed among the priests.—*Vide 28th April and 28th May.*

FARVARDIN JASAN—Is held on the 19th of Adar, and celebrated as the festival of the same name in the first month.—*Vide 8th May and 7th June.*

DEH JASAN—Is held on the first day of the month Deh.—*Vide 20th May and 19th June.*

ZARTHOST DISO.—On the 11th of Deh is held as the anniversary of the death of Zoroaster.—*Vide 30th May and 29th June.*

MEDIAREH, (*Maidhyairya*, the middle of the year), is the 5th of the Gahambars during which season they say the animals were created. It is held from the 16th to the 20th of Deh.—*Vide 4th to 8th June and 4th to 8th July.*

BAHMAN JASAN.—On the 2nd of the 11th month is sacred to the Amshaspand presiding over the increase of mankind and useful animals. He is called in Zend Vohumano.—*Vide 20th June and 20th July.*

ASFANDYAR or SPANDARMAD JASAN.—Spenta Armaiti is one of the seven Amshaspands, who presides over the earth as its genius, and is represented as the protector of animated beings. This festival in her honour is held on the 5th day of the month Asfandyar or Isfandarmat.—*Vide 23rd July and 22nd August.*

The MUKTAD is the name of a ceremony performed at the end of the Parsi year in honour of the Faruhars. It consists in keeping a place in the house neat and clean for ten days, where is placed a pile of brass or silver vessels filled with water, and raised from the ground on iron stools. Flowers and fruits are also placed there for the satisfaction of the faruhars, and religious ceremonies in honour of the dead are performed before the Muktads. The Parsi scriptures appear only to require that the last ten days of the year should be spent in deeds of charity, prayers, &c.; the ceremony of the brass and silver vessels, &c. is borrowed from the Hindus. It begins on the 25th day of Asfandyar.—*Vide 12th August and 11th September.*

* Dr. Haug's Essays, p. 178.

MAHARASPAND JASAN.—Maharaspand is the Izad said to preside over paradise, and this festival, held on the 29th day of the last month, is kept in honour of him.—*Vide 16th August and 15th September.*

HAMASHPATMADIM or *Hamaspathmaedaya* is the last of the Gahambars and is held on the five days added at the end of the 12th month, and usually called the Gatha Gahambars from the five Gathas of the Yasna, which with the Afrigan Gatha are specially employed on these days, and give separate names to each of them. The first Gatha is styled Ahunavaiti, whence the day is usually called *Ahonaad* or *Ahunavat*, the second is called Ustavaiti, from the opening words *usta ahmai* (hail him!) and hence the second day *Ostuad*; the third Gatha is Spenta Mainyus (from the first words of it) and the corresponding day is *Sapantomad*; the fourth Gatha is Vohukhshathra (good possession), and the day *Vohukhasthar*; and the fifth Gatha and day are styled *Vahistoisti*. On the Gatha days the Parsis rise early, and dress themselves in new suits of clothes, and those piously disposed say the prayers in their private residences or attend the fire-temples. The performance of the *Afrigan Gahambar* is required at each of the six Gahambar seasons, as the *Afrigan Rapithwin* is on the Rapithwin Jasan. Unless they duly perform these, they believe their souls will not be allowed to pass the bridge Chinvat which leads to heaven. The last of these five days is called Pateti. This 6th Gahambar commemorates the creation of man.—*Vide 18th to 22nd August, and 17th to 21st September.*

NAOROZ, or NEW YEAR'S DAY.—The 1st of Farvardin.—This day is celebrated in honour of the accession of Yezdijird, the last king of the Sassanid dynasty, who was dethroned by the Khalifa Omar about A. D. 640. After prayers the Parsis visit their friends and relations, when the "Hama-i-jur" or "joining of hands" is performed. This ceremony is a sort of greeting corresponding to the wishing each other a happy new year. Their friends and relations are invited to breakfast. They spend the rest of the day in feasting and rejoicing. Alms are also given to the poor in the course of the day and new suits of clothes are presented to servants and dependents. —*Vide 23rd August and 22nd September.*

RAPITHWIN or RAPITWAN.—The 3rd day of Farvardin is sacred to Ardibehisht, the Ashaspand presiding over light and heat. On this day is performed the *Afrigan Rapithwin*, devoted to the genius presiding over the southern quarters, and who is guardian of the paths to Garotman (*Garo-demana*) or paradise.—*Vide 25th August and 24th September.*

KHURDAD-SAL—Is the supposed anniversary of the birth of Zoroaster, who they say was born in the city of Reh, in the North of Persia, in the reign of Darius Hystaspes about 520 years before Christ. The Parsis themselves, however, differ as to the exact time of birth of their prophet; a part of them fix the period at B. C. 389; others at B. C. 688. Religious ceremonies are performed in the morning by the women of the family and the priests, the men, as usual on such occasions, limiting themselves to private prayers. On this day a great victory is said to have been gained over *Zahak*. Khurdad is an Amshaspand presiding over water, vegetation and all kinds of fruits and produce; in Zend he is called Haurvatat.—*Vide 28th August and 27th September.*

AMARDAT-SAL or VALAVA.—This holiday, which falls on the 7th, the day and immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the "Khurdad- Sal;" no religious ceremonies are required, and the day is spent in the enjoyment of epicurean pleasures. Amardat or Ameretat is the Amshaspand presiding over trees, and is usually coupled with Khurdad.—*Vide 29th August and 28th September.*

FARVARDIN—Is the 19th day of the month Farvardin, and whenever the name of the day and of the month coincide it is sacred to the angel said to preside over the month. Farvardin, (from *Farvar* or *faruhar*, meaning 'soul' or 'spirit') is the Izad who presides over the souls of men. This day is specially set apart for the performance of ceremonies for the dead. The people attend on the hills at Chowpatee, where their "dakhmas" or "towers of silence" are situated, and there perform prayers for the dead. The Parsis are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house, but such of their friends as die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are honoured by sacred rites on this day. The ceremony consists in preparing small round pieces of baked bread called "daruns," which are put on a tray or other copper vessel, along with fruits and flowers over which the priest performs the prayers of the Baj.—*Vide 10th September and 10th October.*

ARDIBEHISHT.—Falls on the 3rd of the 2nd month, and is sacred to the Amshaspand

Ardibehisht, the angel controlling the sacred fire,—that element being one of the objects of worship.—*Vide 24th September and 24th October.*

MEDIOZEREM, *Maidhyo zaremya*, mid-summer), is the first of the Gahambars, in which it is said heaven was created, and is celebrated from the 11th till the 15th day of Ardibehisht, the 2nd month.—*Vide 2nd to 6th October and 1st to 5th November.*

KHURDAD JASAN—Is a feast held on the 6th day of the 3rd month in honour of the Amshaspand Khurdad.—*Vide 27th October and 26th November.*

JEWISH FESTIVALS.

The PASSOVER was instituted to commemorate the departure out of Egypt, because on the night preceding that departure, the destroying angel who slew the first-born of the Egyptians passed over the houses of the Hebrews, they being marked with the blood of the lamb, which for this reason was called the Paschal Lamb. It was celebrated on the 14th day of the first month (Abib) of the ecclesiastical year, and lasted seven days. A lamb, or, if that would not be found, a kid without blemish, was killed, roasted and eaten with unleavened bread and bitter herbs. The first Passover was eaten with their loins girded, their shoes on their feet, and their staves in their hands, that they might be in readiness for their journey. It is now kept on the 15th and 16th of Nisan.—*Vide 27th and 28th March.*

The FEAST OF PENTICOST or SEBUOT was celebrated on the fiftieth day after the Passover, or the 6th and 7th of Sivan, and was a feast of thanksgiving to the Lord, wherein they acknowledged his dominion over their country and their labours, by offering to him two loaves, as the first fruits of all their harvests. It also commemorated the giving of the law from Mount Sinai two years and fifty days after their departure from Egypt. The Hebrews counted seven weeks from the Passover, beginning on the second day of that solemnity, and hence called it the Feast of Weeks; but by the Christians it was called Pentecost, a name which signifies the Fiftieth Day.—*Vide 16th and 17th May.*

The FEAST OF TRUMPETS was celebrated on the first day of their civil year (September), its commencement being proclaimed by sound of trumpet, and the day was kept solemn, all business being forbidden and certain sacrifices appointed to be offered.—*Vide 6th and 7th September.*

The FEAST OF TABERNACLES was instituted as a memorial of their fathers having dwelt in tents for forty years during the passage through the wilderness. It was kept from the 15th of the first month (Tisri) of the civil year, and lasted eight days, the first and seventh being the most solemn. During its continuance they lived in booths, tents, or arbours constructed of the branches and leaves of trees. On the first day they cut down branches of trees, with their fruit, which they carried in ceremony to the synagogue. Holding in their right hand a branch of a palm-tree, three branches of myrtle, and two of willow, tied together, and having in their left hand a citron and its fruit, they waved them singing songs and crying "Hosanna!"—*Vide 20th and 21st September.*

The FEAST OF DEDICATION or HANUKA was appointed to celebrate the re-establishment of Divine worship in Jerusalem, after Antiochus Epiphanes had been vanquished and the temple purified. It is observed for eight days from the 25th of Kislev, the third month (December), and is also called the Feast of Lights, from the illuminations which the Jews make during these days in their houses.—*Vide 29th November.*

KIPUR.—The 10th of the first month of the civil years is the DAY OF ATONEMENT on which they observe a fast from evening to evening, and bewail their sins.—*Vide 15th September.*

The FEAST OF PURIM falls on the 14th and 5th of the 6th month (Adar), and commemorates the defeat of Haman. On these days they give alms to the poor and presents to their friends.—*Vide 25th and 26th February.*

Other fasts were also instituted in later times connected with the siege of Jerusalem (10th of Tebet, 14th December); the capture of the city (17th of Tamuz, 26th June); the burning of the temple (9th of the Ab, or the 10th if the Civil year begin on a Thursday, 17th July); and the death of Gedaliah on the 3rd of Tisri (8th September), or the 4th if the 3rd be a Sunday.

Every seventh year was to the Jews a Sabbatical year; and Alexander the Great granted them an exemption from tribute on that year. After seven weeks or Sabbaths of years, that is, after seven times seven years, the great Festival of the JUBILEE was celebrated. On this fiftieth year every one resumed possession of his inheritance, whether it were sold, mortgaged, or alienated in any way.

INDIAN COINS, WEIGHTS AND MEASURES.

EXISTING SYSTEMS.

MONEY.

SILVER is the legally constituted medium of exchange in all money transactions throughout the British-Indian Possessions. Gold coin was intended to be a legal tender, at a fixed value of 16 rupees for the Gold-mohur of Calcutta, and 15 rupees for the Gold rupee of Madras and Bombay; but it is not demandable in payment, and is left to find its current value in the market.

An order in council was promulgated January 1841, authorizing officers in charge of public treasuries freely to receive gold coins struck in conformity with the provisions of Act XVII. of 1835 establishing the 15 rupee pieces. This continued till December 1852, when the swelling tides of California and Australia began to pour their rich treasures over the globe, and, in apprehension that India would be inundated with gold, the proclamation of 1841 was hastily rescinded, and gold debarred from entrance into any of the public treasuries. Since then the English Sovereign has been made a legal tender at 10 rupees.

100,000 Rupees	=	1 Lakh	£10,000	0 0
100 Lakhs	=	1 Crore	£1,000,000	0 0

The value of a Rupee is generally assumed as equal to 2s. sterling At the Calcutta Mint price of silver it is worth 2s. 0·035d.; at the Commercial par of Exchange 1s. 11·51d.; and at the London Mint price of silver it is worth 1s. 11·04d.

The Rupee weighs 180 grains troy, or one tola, and consists of 11 parts of silver and 1 of alloy. The Gold Rupee is of the same weight and standard. The Copper coins are the half anna weighing 200 grains; the quarter anna or paisa 100 grains; the half paisa, 50 grains; and the pie 33$\frac{1}{3}$ grains.

In Bombay, accounts are still often kept in Rupees, quarters, and raes, 25 raes making one anna.

In Madras, accounts were formerly kept in Star Pagodas, fanams, and cash.

80 Cash or Kasu..... = 1 Fanam or panam.
42 Fanams ..... = 1 Star Pagoda, Hun, or Varaha.

The Pagoda was of gold 19$\frac{1}{2}$ carats fine, and intrinsically worth 7s. 5$\frac{1}{4}$d.

INDIAN WEIGHTS AND MEASURES.

The British-Indian weights established by Regulation VII. of 1833, and now for upwards of a quarter of a century in use in Bengal, are founded on the tola of 180 grains as a unit.

1.—BAZAAR WEIGHT.

4 Siki, or quarters	= 1	Tola	6$\frac{192}{175}$ drs.	Av.	180	grs.	Troy.
5 Tola	= 1	Chittak	2$\frac{2}{35}$ oz.	„	1$\frac{7}{9}$	oz.	„
4 Chittaks	= 1	Pauwa	8$\frac{8}{35}$ oz.	„	7$\frac{1}{2}$	oz.	„
4 Pauwa	= 1	Ser or Seer	2$\frac{2}{35}$ lb.	„	2$\frac{1}{2}$	lb.	„
5 Seers	= 1	Passeri	10$\frac{2}{7}$ lb.	„	12$\frac{1}{2}$	lb.	„
8 Passeri, or 40 Seers	= 1	Mun or Maund	82$\frac{2}{7}$ lb.	„	100	lb.	„

The standard seer weighs 80 tolas or rupees, or 36 annas in copper coins.

Also 35 seers are equal to 72 lbs. avoirdupois ; and 49 maunds are equal to 36 cwt.

The pound avoirdupois weighs 38$\frac{3}{4}$ tolas ; and the pound troy 32 tolas.

The tola weighs 11·6638 French grammes ; the maund 37·3242 kilogrammes ; the gramme weighs 0·08573526 tola ; and the kilogramme 1·0716908 seer.

The Factory weight, adopted by the Bengal Government in 1787, was subdivided as in Bazaar weight, only lighter ; 49 of any denomination of Bazaar weight, being equal to 54 of the same denomination of Factory weight ; and 1$\frac{1}{2}$ Factory maunds being equal to 1 cwt., or 1 Factory maund equal to 74$\frac{3}{4}$ lbs. or $\frac{2}{3}$ cwt. Hence 1 Factory maund = 0·9074074 Bazaar maund. It is now disused.

The Khandi for Cotton is 28 maunds or 784 lbs. avoir. or 7 cwt.

The "pukka seer" is 1$\frac{1}{1}\frac{3}{5}$ lbs. avoir. or 72·59 tolas. At Panwel the seer weighs 72·83 tolas.

The British Indian or Imperial seer and maund are 2·9387755 Bombay seers and maunds respectively ; and the Bombay maund is 0·3402778 Imp. maunds.

The Bombay seer weighs 317·51485 grammes, and the maund 12·700594 kilogrammes

Poona.

The seer is 80 Ankushi rupees or 76·66 standard tolas, or 1·9714 lbs. avoir., or 2·33604 lbs. troy = ·9583 B. I. seers. The weights are the same as the British-Indian, only about 1-24th part lighter.

Kachcha maunds of 12$\frac{1}{2}$ and 14 seers are also used in the district.

In the Khed, Poorundhur and Bhimathadi talookas, the seer weighs 76 tolas ; in Shiwner and Indapore, 76$\frac{1}{2}$; in Pabal 77 ; and in Mawal 75 tolas.

Ahmednuggur and Sholapore.

The British Indian or Imperial Weights are in use at these places.

At Ahmednuggur the Palla is 2$\frac{1}{2}$ maunds.

At Sholapore : 1 Manki = 4 dharas = 12 seers.

Satara.

The seer varies in different localities from 92·75 tolas at Koley to 115 tolas at Mamdapore ; in Satara city it is 93·25 tolas.

Sind.

The British Indian Weights were declared by proclamation 1st August 1853 to be the only legal standard.

8 maunds = 1 khandi = 658$\frac{7}{8}$ lbs. av. = 23·510204 Bombay maunds.

Surat.

The Surat seer of 35 Surat tolas is variously stated from 36·4583 to 37 tolas, and the maund from 37½ to 38 lbs. avoirdupois, the former being probably the more accurate determination, from which—

1 Surat seer =	·455729 Brit. Ind. seers.	1 Brit. Ind. seer =	2·1942857 Surat seers.
1 „ „ =	1·339286 Bomb. seers.	1 Bomb. seer =	·746667 „ „

The Khandi for Cotton is 21 maunds or 7 cwt. 3½ lbs.

Khandesh, &c.

The British Indian system is authorized in these districts.

Broach, &c.

At Broach the seer is	40	tolas.

8 Viss or 40 Seers =	1 Maund	25 lb. „	972·222	„
20 Maunds =	1 Khandi	500 lb. „	6·0764	Imp. maunds.

The Madras maund is 0·303819 British Indian maunds, and the Brit. Ind. or Imp. maund is 3·2914286 Madras maunds; 1 Bomb. maund = 1·12 Mad. maunds, and 1 Mad. maund = 0·892857 Bomb. maund. The Madras maund is sometimes stated at 30 lbs. troy or 0·3 Brit. Ind. maund, equal to 24·6857143 lbs. avoir., which makes the pollum exactly 3 tolas and the khandi 6 Brit. Ind. maunds.

The Mangelin for pearls is 6 grains. 18 Mad. Chows=55 Bombay Chows.

The Pagoda Weight=52·56 grains.

2.—NATIVE JEWELLERS' WEIGHT.

4 Dhan =	1 Rati	1⅛	„	„
8 Rati =	1 Masha	15	„	„
12 Masha =	1 Tola	180	„	„

A Dhan is 0·46875 gr. troy, or 0·0303745 French grammes.

4 Wal =	1 Masha	15·3128	„	„
12 Masha =	1 Tola	183·7536	„	„

Mashas, rati, dhans are employed in the native evaluation of assay of the precious metals: thus "10 mashas fine," signifies 10-12ths pure, or the same as "10 oz. touch."

3.—MEASURES OF LENGTH.

The gaz or unit of lineal measure not only differs in different provinces of India, but also, like the seer, in the same province for different purposes. The English yard, however, is rapidly becoming the only standard unit, especially where English education has obtained a firm footing.

8 Jau =	1 Angli	⅛	in. or	19·05	mm.
4 Angli =	1 Muthi	3	„	76·2	„
12 Angli =	1 Big'hath or Bilisht	9	„	228·6	„
2 Big'hath or 24 Ang. =	1 Hath or Cubit	18	„	457·19	„
2 Hath =	1 Gaz or yard	3	ft.	914·38	„
4 Hath =	1 Danda or Bam	2	yds.	1·8287	metres.
2000 Danda =	1 Kos or Kros	4000	yds.	3657·5	„
4 Kros =	1 Yojan	9 1/11	m.	14630·	„

In Bombay the half hath is called Vent; and the measuring rod or Kathi for land, according to Jervis, is 9·3644 feet. In Gujerat 5 hath make 1 Vaso or Kathi. In Western India almost every village has its own Kathi.

The Kos of the Ayin-akbari was about 2·58 miles, or 4540 yards, or 4150 metres.

The Bengal Kos contains only 1,000 danda or dhanu. In surveying, 80 hath=1 Rassi.

In the N. W. P.,—Delhi, Loodianah, Ferozpore, and part of Berar:—33 inches = 1 Ilahi gaz, 3 Il. gaz=1 Bans or ganteh, and 20 bans=1 Jarib. In Benares and Ghazeepore the gaz used by Mr. Duncan in the settlement of 1795 was 33·6 inches. The true Ilahi gaz probably measured 32·6 to 32·8 inches; in Bareilly, Bulanshahr, Agra, &c. it is reckoned at 32·5 inches.

In Orissa the padika or rod is 10·4355 feet: in Tirhoot the lagi is 9¾ feet: and in Jyntiah the dastidari hath is 18·87 inches, and 16 haths make 1 null.

Bombay Cloth Measure.

If the Bombay Kathi of 5⅛ haths be exactly 9·3644 feet as stated by Jervis, this Bigha will contain 3897·422 sq. yds. = 0·805253 acre, but in other places it varies with the Kathi, which is the only real measure ever used in the central and southern part of the Bombay Presidency. In some places the survey chain of 33 feet has taken its place, and—

16	Annas or links	= 1	Gunta or chain.
40	Guntas	= 1	Acre.

20	Vishwashi	= 1	Vaso.
20	Vasa	= 1	Vingho, Bigha or Dori.

North-west Provinces.

In Delhi, Patna, Shahabad, Saran, Bhagulpore, and Monghyr, the bigha of 3600 square Ilahi gaz=3025 sq. yards or 0·625 acre prevails, and is divided as follows:—

20 Uswansi or Nanwansi	= 1	Saswansi	24·5025	sq. in.
20 Saswansi or Tanwansi	= 1	Kachwansi	3·40312	sq. ft.
20 Kachwansi	= 1	Biswansi	7·56125	sq. yds.
20 Biswansi	= 1	Biswa	151·25	,, ,,
20 Biswa	= 1	Bigha	3025	,, ,,

1 Acre = 1·6 Delhi bigha. The Orissa bigha is 1 acre or 4840 square yards. The Tirhoot bigha is 400 sq. lagi = 4225 sq. yds. = ·872934 acre.

Madras.

				1	Mani or Ground	2400 sq. ft.

20	Kattha	= 1	Bigha	1600	„ „

The Bengal bigha is $\frac{4\,0}{1\,1\,1}$ or 0·3305785 of an acre.

The Benares and Ghazeepore bigha contains 3,600 square Benares gaz, or 3,136 square yards, or ·647934 acre.

5.—LIQUID AND DRY MEASURES.

India, properly speaking, does not possess dry or liquid measures. Where these are employed they represent the seer or the maund weight. The value of any vessel of capacity rests solely on the weight contained in it. In S. and W. India an equal mixture of the principal grains is taken, and a vessel formed to hold a given weight of it.

Bengal.

In Bengal, the following are used for grain :—the conversion into English measure being derived from the capacity of a vessel holding a maund of water or $1\frac{1}{5\,5}$ bushels.

5	Chhatank ..... = 1	Kunki.....	11·407	c. in.	0·5143	pts.

According to Sykes, a seer in the Deccan contains 2·44934 lbs. av. of Jerwail rice, or 1·0417 quart. The Adholi is the largest measure in common use.

The measures are all heaped; and equal quantities of five sorts of grain give the equivalent weight in tolas.

PROPOSED NEW SYSTEM OF WEIGHTS AND MEASURES.

In the latter part of 1867 Colonel Strachey and the Hon'ble M. J. Shaw Stewart published proposals relating to the introduction of a new system of weights and measures, differing from that of Regulation VII. of 1833. M. J. Shaw Stewart's was essentially the rejection of all existing Indian weights and measures and the scales on which they are based, and the substitution in their place of the old English Avoirdupois system of weights and the corresponding measures of capacity. Colonel Strachey's proposal for a system of weights was the following:—

"In the first place, for Upper India, the kilogramme could be adopted as the new seer, with a sub-division into 16 chittacks, each of 62½ grammes. The chittack might be divided into 5 siccas of 12½ grammes; or if the rupee weight were altered to 12½ grammes the name tola might still be retained instead of sicca for the purposes of ordinary trade; no lower sub-division than the chittack would be needed. For goldsmiths and jewellers the gramme might probably be substituted for the masha, now 1-12th of the tola, with a further sub-division into 10 ruttees. This seer would answer for all Bengal, for the North-Western Provinces, and probably for the Punjaub and Central India.

"The half-kilogramme would be nearly the seer of Guzerat. A maund of 40 such seers would be suitable for Bengal and Northern India, 25 maunds going to the ton of 1,000 kilos.; and a maund of 20 such seers for Guzerat and Malwa, 50 going to the ton of 1,000 kilos. For the town of Madras, the viss might become 1¼ kilogramme; the Madras small seer would then be ¼ of a kilo., and the maund 10 kilos., the candy 200 kilos., 5 candies going to the ton. Or the maund might be made to agree with the Bombay maund of 12½ kilos; in which case the viss would be 1 9-16th kilos., the seer 5-16th kilo., and the candy 250 kilos., 4 going to the ton. The Bombay maund might be taken to be 12½ kilos, unless it were made 10 kilos., so as to assimilate it to the half of the maund of Guzerat, and the quarter of the maund of Northern India."

A Committee was next formed at Calcutta to consider the proposals and report on the subject. A majority decided very much in accordance with Mr. Shaw Stewart's scheme, but Col. Strachey and Mr. Harrington protested against the introduction of a system that would change the scales as well as the denominations and weights, and bring the system into accordance with the present English system only, which Col. Strachey and others expect to see assimilated with the decimal system now so prevalent on the continent of Europe and already to some extent legalised in England by Mr. Ewart's bill. Nothing has been heard of the matter since.

FOREIGN COINS.

The Governments of France, Belgium, Italy, and Switzerland have concluded a Monetary Convention, by which they bind themselves to use exclusively an identical coinage. The Commissioners-Plenipotentiary assembled at Paris in 1866 agreed upon Articles of which the following are the most important:—

Belgium, France, Italy, and Switzerland are constituted a Union as respects the weights, values, form, and currency of their respective coinages in gold and silver. No change is made at present in the legislation relating to the copper money of each of the States.

The high contracting parties engage not to coin nor to allow to be coined, bearing their impressions and designs, any gold moneys in any other forms than those of gold pieces of 100f., 50f., 20f., 10f., and 5f., fixed as to weight, values, allowance for loss, and diameter.

They shall receive without distinction into their public treasuries gold pieces coined according to the foregoing conditions in one or other of the four States, with the reservation, nevertheless, of excluding all coins whose weight shall have been, reduced by wear to the extent of ½ per cent. below the allowances mentioned above, or where the stamped impressions shall have become effaced.

The contracting Governments bind themselves not to make, nor allow to be made, silver pieces of 5f., except according to the conditions of weight, standard allowance, and diameter fixed as follows :—

Full weight.	Allowance.	Full Standard.	Allowance	Diameter.
25 grammes	3-1000ths	900-1000ths	2-1000ths	37 millimetres.

They shall mutually receive the said coined pieces into their public treasuries, with the right of excluding those which shall have lost weight by wear to a greater extent than 1 per cent. below the allowance above-mentioned, or where the stamped impression shall have become effaced.

The high contracting parties henceforth shall not manufacture silver pieces of 2f., 1f., 50c., and 20c., except according to conditions of weight, standard allowance, and diameter agreed upon.

The silver pieces of 2f., of 1f., of 50c., and of 20c. manufactured otherwise than according to the various conditions specified in the foregoing Article, shall be withdrawn from circulation before January 1, 1869. This period is extended until January 1, 1878, in respect of pieces of 2f. and 1f. issued in Switzerland by virtue of the law of January 31, 1860.

Each of the contracting Governments undertakes to receive back from individuals or from the public treasuries of the other States the old coinage which it has issued, and to exchange it for an equal value in current coin (gold pieces or five-franc pieces in silver,) upon condition that the sum presented for exchange shall not be less than 100f. This obligation shall be prolonged for a period of two years from the date of the expiration of the present treaty.

The high contracting parties shall not issue silver pieces of 2f., of 1f., of 50c., and of 20c. struck according to the conditions mentioned beyond the ratio of 6f. in value for each inhabitant.

The date of coinage shall hereafter be stamped upon pieces of gold and silver struck in any of the four States.

The contracting Governments shall communicate to each other annually the total amount of their issues of gold and silver coins, their position as to the withdrawal and remelting of the old coinage; all the arrangements and all the administrative documents relating to coinages. They shall also give to each other information of all facts which concern the reciprocal circulation of their gold and silver moneys.

The right of acceding to this Convention is reserved to any other State which shall accept its obligations, and which shall adopt the monetary system of the union in whatever relates to gold and silver specie.

The execution of the mutual engagements contained in the present Convention is subject, as far as may be necessary, to the fulfilment of formalities and regulations prescribed by the Constitutional laws of those of the high contracting parties which have determined to obtain their application, and which they bind themselves to do with the least possible delay.

The present Convention shall remain in force until the 1st of January, 1880. If one year prior to that date notice to determine it shall not have been given (*dénoncée*), it shall remain obligatory in full force for a further period of 15 years, and, in like manner, for further periods of 15 years in the absence of denunciation.

The present Convention shall be ratified, and the ratifications thereof shall be exchanged at Paris within the space of six months, or sooner if possible.

USES OF THE PRECEDING TABLE.

1.—When Government 4 per cent Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of the 5 per cent. loan, and 104½ the value of the 5½ per cent loan,—the interest in all the three cases being 5·263 or 5 5/19 per Cent.

2.—At what price should I purchase 4 per Cents. to obtain 5½ per Cent. for my money? In the fourth column opposite 5½ or 5·5 in the column for 4 per Cent., stands 72·727, or 27 8/11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per Cent. Government loans at 104 and purchasing 5½ per Cent. at 112?

In the third column opposite 104 in the 2nd is .....114·4
112

Gain on Rs. 100 of Capital..... 2·4
And in the fourth column, opposite 112 in the 3rd, is.....4·911 per Cent.
„ „ „ 104 „ 2nd, ...4·808 „

Difference, or gain per cent per annum on capital .....0·103 „ or fully 1/10 per cent., being Rs.10-5 on every Rs.1,000 invested.

4.—To find the equivalent values of 4 and 5½ per Cent. Securities when 5 per Cents. are selling at 103⅛ or Rs.103-6.

Opposite 103 in the second column are 82·4 and 113·3 in the 1st and 3rd, and among the "proportional parts" corresponding to ·375 or 6a. in the 5 per Cent. col. are 0·3R. in the 4 per Cent. and ·413 in the 5½ per Cent column.

Hence 82·4 + ·3 = 82·7, the equivalent price of 4 per Cent. and 113·3 + ·413=Rs. 113·713, or Rs.113-11-5, the equivalent price of 5½ per Cents.

Other uses of this Table will readily occur to brokers and others.

Exemptions.—Mukhtarnamas executed by an Officer or Soldier of the Army. No advocate of any High Court shall be required to file or present a Mukhtarnama or Wakalatnama, or any other document empowering him to act.

8. Petition of appeal not being from an Order rejecting a plaint, or from a Decree or Order having the force of a Decree :—when presented to the High Court, Rs. 2. When presented to any Civil Court, other than the High Court, or to any Revenue Court, other than the Board of Revenue :—8 annas.

9. Petition of Appeal when presented to the Board of Revenue, or to the Chief Commissioner, or other Chief Revenue or Executive Authority :—2 Rs.

10. Any other petition, and any application :—when presented to the High Court, 2 Rs. ; when presented to the Board of Revenue or to the Chief Commissioner or other Chief Revenue or Executive Authority, or to a Commissioner of Revenue or Circuit, or to any chief officer charged with the executive administration of a Division, 1 Rupee ; when presented to any Criminal Court when the petition or application contains a complaint of the offence of wrongful confinement or wrongful restraint, or of any offence other than an offence for which Police officers may arrest without warrant, as specified in column 3 of the Schedule annexed to the Code of Criminal Procedure, 1 Rupee ; when presented to any Civil Court, other than a principal Civil Court of original jurisdiction, or to any Cantonment Joint Magistrate sitting as a Court of Civil Judicature under Act III. of 1859 (for conferring Civil Jurisdiction in certain cases upon Cantonment Joint Magistrates, and for constituting those Officers Registers of Deeds), or to any Court of Small Causes constituted under Act XI. of 1865 (to consolidate and amend the law relating to Courts of Small Causes beyond the local limits of the ordinary original Civil jurisdiction of the High Courts of Judicature), or to a Collector or Officer of Revenue in relation to any suit or case in which the amount or value of the subject-matter is less than 50 Rs., one anna. When presented to the Collector of Customs at any Presidency town, to any Municipal Commissioners, or to any Magistrate or Justice of the Peace, under Act XIV. of 1856, or any other Act for the time being in force for the conservancy and improvement of any Presidency town, one anna. When presented to any Civil, Criminal, or Revenue Court, or any Board of Revenue, or any Commissioner of Revenue or Circuit, or any chief officer charged with the executive administration of a Division for a copy or for a translation of any judgment, decree, or order, or other document on record, one anna.

Petition or application not falling within any of the other provisions, or of the exemptions of this Schedule, presented to a Civil, Criminal, or Revenue Court, or to any Collector or other Revenue Authority, or any Magistrate in his executive capacity :—8 annas.

EXEMPTIONS.

A first application for the summons of a witness or other person to attend either to give evidence or to produce a document, or in respect of the production or filing of any exhibit.

Petition of appeal presented to a Magistrate against the Chaukidaree Assessment.

Petition to a Collector or Officer making a settlement, relating to matters connected with the assessment of lands, the ascertainment of rights, or to any other matter affecting the settlement of the Government Revenue on land, if presented pending the formation of such settlement.

Petition to a Board or Commissioner of Revenue relating to the same.

Any application for permission to cut timber in Government forests, or relating to such forests.

Petition, application, charge, or information respecting any offence when presented, made, or laid before an officer of Police, or before the heads of villages in the Presidency of Fort St. George, or before village Police officers in the Presidency of Bombay.

Any such petition, application, charge or information presented, made, or laid before a Criminal Court, when such Court shall think that it ought to be exempted from stamp-duty.

Petition from any prisoner, convict, or other person in duress or under restraint of any Court or its officers.

11. PLAINT OF APPEAL, Petition of, in suits and appeals not otherwise provided for, instituted in any Civil or Revenue Court outside the local limits of the ordinary original Civil jurisdiction of the Courts established by Royal Charter, for the recovery of any sum of money, or to obtain possession of any interest, matter, or thing—

If the amount or value of the property claimed does not exceed 10 Rs.:—1 Rupee.

If it exceeds 10 Rs. and does not exceed 100 Rs. 1 Rupee *plus* 8 annas per 5 Rs. or fraction of 5 Rs. of the difference between 10 Rs. and the amount or value sued for. Where the amount or value is Rs. 32-8, the duty is Rs. 3-8.

If it exceeds 100 Rs. and does not exceed 1,000 Rs.:—1 Rupee per 10 Rs. or fraction of 10 Rs. Where the amount or value is Rs. 485-8, the duty is Rs. 49.

Exceeding 1,000 Rs. and not exceeding 20,000 Rs.:—100 Rs. *plus* 5 Rs. per 100 Rs. or fraction of 100 Rs. of the difference between 1,000 Rs. and the amount or value sued for. Where the amount or value is Rs. 1,250-8, the duty is Rs. 115.

If it exceeds 20,000 Rs. and does not exceed 1,00,000 Rs.:—1,050 Rs. *plus* 1 Rupee per 100 Rs. or fraction of 100 Rs. of the difference between 20,000 Rs. and the amount or value sued for. Where the amount or value is Rs. 43,450-8, the duty is Rs. 1,285.

Exceeding 1,00,000 Rs.:—1,850 Rs. *plus* 8 annas per Rs. 100 or fraction of Rs. 100 of the difference between Rs. 1,00,000 and the amount or value sued for. Where the amount or value is Rs. 5,93,150-8, the duty is Rs. 4,316.

If the suit be instituted in a Military Court of Requests, or in the Court of a Cantonment Joint Magistrate under the said Act III. of 1859, or in a Court of Small Causes established under Section 6 of Act XXII. of 1864 (*to make provision for the administration of Military Cantonments*) and the amount or value claimed does not exceed 8 Rs.:—4 annas.

If it exceeds 8 Rs. and does not exceed 16 Rs.:—8 annas.

If it exceeds 16 Rs. and does not exceed 30 Rs.:—1 Rupee.

If it exceeds 30 Rs., the same Stamp as for a suit in any other Court.

In suits for possession instituted under Section 15, Act XIV. of 1859, and application for immediate possession under Section 1, Clause 2 of Act No. XVI. of 1838, and Act No. V. of 1864, passed by the Governor of Bombay in Council: a Stamp of one-fourth the value prescribed in the foregoing scale.

NOTE.—(*a*) In suits for immoveable property whether paying or not paying revenue to Government, the amount of stamp duty payable shall be computed according to the market-value of the property in suit. In suits for immoveable property paying revenue to Government, where the settlement is temporary, eight times the revenue so payable, and where the settlement is permanent, ten times the revenue so payable, and in suits for immoveable property not paying revenue to Government, twenty times the annual net profits of such property, shall be taken to be the market-value thereof, unless and until the contrary shall be proved.

SPECIAL RULES FOR THE BOMBAY PRESIDENCY.

(1.) In the case of lands held on a settlement for a period not exceeding thirty years, and paying the full assessment to Government, a sum equal to eight times the survey assessment shall be taken to be the market-value.

(2.) In the case of lands held on a permanent settlement or on a settlement for any period exceeding thirty years, and paying the full assessment to Government, a sum equal to ten times the survey assessment shall be taken to be the market value.

(3.) When the whole or any part of the annual survey assessment is remitted, the valuation calculated by the preceding rules shall be increased by ten times the portion of assessment remitted.

(*b.*) In all other descriptions of suits, the amount of stamp duty payable shall be computed in the following manner:—

(1.) In suits for moveable property (other than money), according to the market-

value of the subject-matter of the suit at the date of filing the plaint, or where the subject-matter has no market-value, as, for instance, in the case of documents relating to title, or accounts:—the amount at which the subject-matter shall be estimated in the petition of plaint or appeal.

(2.) In suits (other than suits under Act No. XV. of 1865 or Act No. XXI. of 1866,) in which it is not possible to estimate at a money-value the subject-matter of the suit:—Rs. 10.

(3.) In suits for money (including suits for damages and compensation):—according to the amount claimed.

In order to ascertain the market value or the annual net profits of any such property as is described in Note (*a*) and in Note (*b*), the Court may either of its own motion or on the application of any party to the suit, issue a commission to any proper person, directing him to make such local or other investigation as may be necessary, and to report thereon to the Court, and the decision of the Court as to market-value or annual net profits shall be final. If in the result of any such investigation, the Court shall find that the market-value or net profits has or have been erroneously estimated for the purpose of computing the stamp-duty, the Court shall either (as the case may be) refund the excess paid as such duty, or require the plaintiff to pay so much additional stamp-duty as would have been payable had the said market-value or net profits been correctly estimated, and in such case the suit shall be stayed until the additional duty shall have been paid.

Section 180 of the Code of Civil Procedure shall be construed as if the words "the market-value of any property in suit or" were inserted after the word "ascertaining," and as if the words "or annual net profits" were inserted after the word "damages."

(*c.*) In suits for mesne profits or for immoveable property and mesne profits, if the profits decreed are in excess of the profits claimed, the decree shall not be executed until the difference between the stamp duty actually paid and the stamp duty which would have been payable had the suit comprised the whole of the profits so decreed, shall have been paid to the proper officer. Such difference shall be calculated by the Court according to the rules above mentioned, and shall be costs in the suit.

(*d.*) If an appeal or plaint, which shall have been rejected by the lower Court on any of the grounds mentioned in the Code of Civil Procedure, shall be ordered to be received, or if a suit shall be remanded in appeal on any of the grounds mentioned in Section 351 of the same Court, for a second decision by the lower Court, the Appellate Court shall grant to the appellant a certificate, authorizing him to receive back from the Collector the full amount of stamp duty paid on the petition of appeal. Provided that if, in the case of a remand in appeal, the order of remand shall not cover the whole of the subject-matter of the suit, the certificate so granted shall not authorise the appellant to receive back more than so much duty as would have been originally payable on the part or parts of such subject-matter in respect whereof the suit has been remanded.

(*e.*) When any appeal shall be presented to a Civil Court, not against the whole of a decision, but only against so much thereof as relates to a part or parts of the subject-matter of the suit, and, on the hearing of such appeal, the respondent shall take, under Section 348 of the Code of Civil Procedure, an objection to any part of the said decision other than the part appealed against, the Court shall not hear such objection until the respondent shall have paid the additional stamp duty which would have been payable had the appeal comprised the part of the decision so objected to. Such additional stamp duty shall be calculated by the Court according to the rules abovementioned, and shall be costs in the suit.

GENERAL RULE.—If the subject matter of any plaint, written statement, petition or copy of a decree or order cannot be conveniently comprised within one Stamp Paper of the value prescribed by this Schedule, one or more additional pieces of paper may be used bearing a Stamp of the value required for petitions. This rule does not apply to copies of judgments; and additional pieces of paper required for such copies need not be stamped.

When the first or only examination of a person who complains of the offence of wrongful confinement, or of wrongful restraint, or of any offence other than an offence for which police officers may arrest without a warrant, as specified in the third column of the Schedule annexed to the Code of Criminal Procedure, and who has not already presented a petition stamped as required by Article 10 of Section 6 of this Act, shall be reduced to writing under the provisions of the Code of Criminal Procedure, such examination shall be written upon stamp paper of the value of one rupee, to be supplied by the complainant unless the Court shall think fit to write such examination upon plain paper.

No boat or other vessel is allowed to carry more passengers than the number for which such boat is licensed subject to a penalty not exceeding Rs. 50, or two months' imprisonment.
Boats plying for hire must not anchor within 30 yards of the Bunder.

REGULATIONS OF PUBLIC CONVEYANCES.

(Abridged from Act X. of 1863.)

SEC. 1. Every conveyance which plies for hire, and every boat or other vessel carrying passengers, is deemed a public conveyance.

2. All public conveyances to be licensed: land conveyances by the Commissioner of Police, water conveyances by the Master Attendant; the number of the license to be painted on each conveyance, together with, in the case of land conveyances, the number of passengers they are licensed to carry; and all conveyances to have a list of fares attached thereto; subject to a penalty not exceeding Rs. 100, or imprisonment for three months.

3. No attendant of any public land conveyance to ply for hire without a badge granted by the Commissioner of Police; such badge to be worn conspicuously, and not to be lent to any other person. Penalty, not exceeding Rs. 20, or imprisonment for one month.

5. The licensee to give notice of any change of address, subject to a penalty of Rs. 20.

6. Licenses to be granted usually on January 1st of each year, but at other times also when necessary; and the Commissioner of Police or Master Attendant may refuse licenses, at their discretion, if the conveyances are insufficiently found, or the applicant unsuitable.

7. License fees:—Omnibuses, carrying more than five passengers, Rs. 2; Omnibuses carrying not more than five passengers Rs. 1; Buggies, 8 as.; Bullock carts, 4 as.; Palkees, 4 as.; Bunder boats, Rs. 1; Dhingies, 8 as.; Tonies or Canoes, 8 as.; Labour carts, for goods only, 4 as. The balance of such fees, after paying all expenses, to be paid to the Municipal and Port Funds.

8. Licenses to be renewed on the 1st of January in each year.

9. The Commissioner of Police or Master Attendant to have the power to revoke licenses; and the owner of any unlicensed conveyance allowing the same to ply for hire, to be liable to the penalty contained in Section 2.

10. Revoked licenses to be delivered up within 24 hours, subject to imprisonment not exceeding two months.

11. Half-fees to be charged for duplicate Licenses, if they are accidentally lost or destroyed.

12. Licenses not to be transferred without the sanction of the Commissioner of Police or Master Attendant.

13. Licenses not to be used other than for the conveyances for which issued, subject to the penalty contained in Section 2.

15. Not more than the licensed number of passengers to be carried by any public conveyance subject to a fine not exceeding Rs. 50, or two months' imprisonment.

16. Concealing the number of the license, or preventing any person noting it—a penalty of Rs. 20 or two months' imprisonment.

17. No licensee or attendant to let any person ride in his conveyance without the consent of the hirer, subject to a penalty not exceeding Rs. 20 or imprisonment for two months.

18. The driver or attendant in charge of any public conveyance to produce, when called upon to do so, a list of fares in English and the Vernacular, subject to the penalty in the previous section.

19. Lists of fares, with regulations, to be prepared in the offices of the Commissioner of Police and Master Attendant, and to be issued at four annas for each copy.

20. Public conveyances to give way to private conveyances, and not to hinder other public conveyances in taking up or setting down passengers, subject to the penalty contained in section 17.

21. If the driver or attendant of a public conveyance be intoxicated, or refuse to obey reasonable orders, or keeps the inside of his conveyance dirty—the penalty contained in section 17.

22. If the driver or attendant of a public conveyance (not being a labour cart) demands prepayment of his fare, refuses to convey any person desirous of hiring his conveyance, refuses or delays to proceed with any reasonable expedition, exacts or demands more than the regulated fare, or plies for hire other than at the appointed stands,—the penalty contained in section 17.

23. The driver or attendant may be arrested for causing hurt or damage through negligent misconduct; and in addition to the punishment inflicted by the law, the Magistrate may award compensation, and in default of payment simple imprisonment not exceeding six months.

24. In case of a dispute the hirer *or* driver may require the other to proceed to the nearest Police Court; or to the nearest European Constable should the Court be closed.

25. Licensees of any public conveyance are bound to cause the same to ply for hire, when called upon to do so by the Police, subject to a penalty not exceeding Rs. 50

26. The Licensee to produce before a Magistrate, the driver or attendant of any public conveyance, if summoned to do so, subject to a penalty not exceeding Rs. 50.

27. Fines, &c. may be levied by distraint of the property of the attendant or his employers.

28. If the hirer refuse to pay the lawful fare, a Magistrate may fix the amount and award compensation to the driver or attendant for loss of time; and in default of payment sentence the defaulter to imprisonment not exceeding one month.

29. Wilfully or negligently injuring a public conveyance—a fine not exceeding Rs. 20 and compensation for the injury.

30. If a driver or attendant of a public conveyance is wrongly summoned for refusing to carry any person, and does not improperly conduct himself in making such refusal, the Magistrate may award him compensation for loss of time.

31. Property found in public conveyances to be delivered to the Commissioner of Police, subject to a penalty not exceeding Rs. 50 or one month's imprisonment, or both. The Commissioner of Police will, on application, restore such property to the owner, on payment of all reasonable expenses, and of such reward to the driver or attendant as the Commissioner may award.

32. Police officers may arrest, without warrant, for any offence against this Act, and take possession of the conveyance until judgment.

35. No conviction under this Act to be open to appeal.

36. Attendants include drivers, conductors, hamals, tindals, syrangs, and boatmen.

The Bombay Postal Circle comprises a section of the Continent of India upwards of 1,000 miles in length, and 800 miles in width, and extends over nearly 13 degrees of latitude and 11 of longitude, from the Toongbhudra river at Hurryhur in the south, which is the boundary between the Bombay and Madras Presidencies, to Joudpore in Rajpootana in the North. The postal boundary to the East is the river Wurda, which separates the Central Provinces from Berar, and to the west, the Runn of Kutch at Lucktur, the S. Eastern limit of the province of Scinde. The above district includes the 13 Collectorates and 3 Sub-Collectorates of the Presidency of Bombay, the provinces of Guzerat, Kattiawar and Kutch, a great portion of Marwar, and also the Assigned Districts of the Nizam in the Deccan, known as East and West Berar. On the line of the Sea Coast, the Post Offices of the Bombay Circle reach from Byndoor in Canara to Bushire in the Persian Gulf. In the Circle above described, there are 350 imperial and 80 District Post Offices, and 11,682 miles of Post road. The mails are despatched from the General Post Office, Bombay, for the interior by three lines of Railway, to the north, north-east, and south-east, each of which is between 300 and 500 miles long.

The Town and suburbs of Bombay are divided into ten Postal Districts, and a directory of the streets in each Division has been made to aid posters in addressing their letters according to Divisions, a copy of which may be obtained on application at the Bombay Post Office. The public are recommended to add to the address of letters the number of the street, and of the Postal Division in which the addressees reside, which will expedite delivery and prevent mistakes. The Divisions are as follows:—

Southern (S.)—Bounded on the North by the Mallet Basin; on the South by the Arthur Pier; and on the East and West by the Sea.

South Eastern (S.E.)—Bounded on the North by Thakoordwar and Bhooleshwar Road; on the South by the Esplanade Road; on the East by the Sea; and on the West by Shaik Memon Street.

South Western (S.W.)—Bounded on the North by Poyodonee Road; on the South by the Esplanade Road; on the East by the bunders to Clare Basin; and on the West by Shaik Memon Street.

West Central (W.C.)—Bounded on the North by Grant Road to Gowalla and Chinchpoogly; on the South by Thakerwaddy Road; on the East by the Falkland Road to the Theatre; and on the West by the Sea.

Postal Divisions continued :—

East Central (E. C.)—Bounded on the North by the Baboola Tank Road; on the south by Poyodonee Road; on the East by the Clare and Wady Bunders; and on the West by the Obelisk and Falkland Roads.

Eastern (E.)—Bounded on the North by Chinchpoogly Road to the Police Chowkey; on the South by the Baboola Tank and Val Packady Roads; on the East by the Sea; and on the West by Parell Road.

Western (W.)—Bounded on the North by Mahaluxmee; on the South and West by the Sea; and on the East by Chowpatty and Tardeo Road.

Central (C.)—Bounded on the North by the Byculla Flats; on the South by the Grant and Bellasis Roads; on the East by the Railway line; and on the West by the Mahaluxmee and Tardeo Roads.

Northern (N.)—Bounded on the North by Dadur and Nyagaum; on the South by Chinchpoogly and Sion Road; on the East by the Sea; and on the West by the Railway line.

Colaba.—The whole island south of Arthur Pier.

DELIVERY OF INLAND MAILS AT BOMBAY.

The number of deliveries in Bombay are six, viz., at 8 A.M., 10 A.M., 11-30 A.M., 12-30 P.M., 2 P.M., and 5 P.M. At the Bombay Post Office, they take place a few minutes earlier, as the mail carts leave the General Post Office so as to ensure issue at the same hours from each of the Branch Post Office. There are two deliveries only for *unpaid* letters, at 10 A.M. and 2 P.M. and one delivery for Parcels at 11-30 A.M., and the latter will also be sent round in light carts instead of being delivered on foot. On Sundays there are two deliveries of letters, viz., at 8 A.M. and 2 P.M.

Letters posted half an hour before the prescribed time at Branch Post Offices, and an hour before at detached Letter Boxes, are susceptible of delivery within the same Postal Division within an hour, *i. e.* by the first issue after posting; but, if addressed to another Division, they will be issued by the next following delivery.

DESPATCH OF INLAND MAILS FROM BOMBAY.

The hours of closing the Inland mails are liable to frequent changes; but they will always be found in the columns of the *Times of India.*

Registered Letters and Banghy Parcels are received daily, Sundays excepted, from 7 A.M. to 8 A.M., and from 12 noon to 5 P.M. Parcels and Registered Letters are not received on Sundays.

THE OVERLAND MAIL EXPRESS.—Letters may be posted for despatch to Calcutta, places in Bengal, N. W. Provinces and Central Provinces by the express mail train which usually leaves Bombay about six hours after the arrival of the English mail. A fee of four annas must be prepaid in stamps on each letter, in addition to the usual postage. Express letters must be put into the box which will be placed in the south verandah of the General Post Office, Bombay, when the mail steamer is signalled, and the hour at which the box will be closed will be notified over it. Express letters posted in any of the other boxes will be liable to detention.

MAILS DESPATCHED BY SEA FROM BOMBAY.

OVERLAND MAILS.—The OVERLAND MAILS for the United Kingdom, the Continent of Europe, and America, leave Bombay every Saturday throughout the year, except during the monsoon season (May 26th to Sept. 15th), when they are despatched on Tuesdays. The hours at which the mails close are published regularly in the *Times of India.*

CHINA MAILS.—The latter remark applies also to the fortnightly mails forwarded from BOMBAY to POINT DE GALLE, SINGAPORE, PENANG, HONGKONG, and SHANGHAI, &c.

AUSTRALIAN MAIL.—And also to the monthly mail to the Australian Colonies.

UNITED STATES.—In addition to the Overland Mail route, mails are forwarded to the United States, monthly, *viâ* Hongkong and San Francisco; the American packets being timed to leave Hongkong on the 15th or 16th of each month.

MAILS FOR MAURITIUS.—The Mail Packets formerly plying between Galle and Mauritius having been discontinued, correspondence for the Seychelles, Mauritius, and Réunion may be forwarded by the French Packets which leave Calcutta on the 3rd, and Madras on the 7th, of each month, reaching Aden in time for the French Packets, leaving that place on the 23rd; or *viâ* Bombay by the Overland Mail steamer to Aden, and thence by French Packet.

CAPE OF GOOD HOPE MAILS.—The Mail Packets between Mauritius and Natal having been discontinued, correspondence for Natal, the Cape of Good Hope, St. Helena, and Ascension is sent *viâ* the United Kingdom.

MAILS FOR KURRACHEE AND PERSIAN GULF.—The B. I. S. N. Company's steamers leave Bombay for Kurrachee with the mails every Monday at noon, proceeding every alternate week, from Kurrachee to the Persian Gulf. Post Offices now exist at the following stations in the Persian Gulf and Turkish Arabia, to and from which Letters, Papers, and Packets can be forwarded at the Indian Inland rates:—Gunder, Muscat, Linga, Bunder Abbas, Bushire, Bussorah and Bagdad. During the monsoon the steamers leave Bombay on Saturdays.

COAST MAILS.—The B. I. S. N. Co. despatch steamers from Bombay on every alternate Tuesday calling at the principal ports between Bombay and Calcutta. The ports at which the steamers call and the hour at which the Mail closes can always be ascertained from the *Times of India*. Letters, 4 as. per half ounce; Newspapers (not exceeding 4 oz.), 2 as. each; Books and Patterns, 2 as. for every 4 oz.

GENERAL POSTAL REGULATIONS.

Any person who, for the purpose of defrauding the Post Office revenue, certifies what is not true in respect to the contents thereof, incurs a penalty not exceeding Rs. 200.

It is unlawful for any person, unless acting by an express order of Government, to detain, except for a criminal offence, a Post Office messenger conveying the mails or on any pretence to open a mail packet in transit.

Any person knowingly sending any explosive or dangerous substance by post is liable to a fine not exceeding Rs. 200.

Any person refusing to deliver up a letter or other article delivered to him by mistake by the Post Office, is liable to fine and imprisonment, with hard labour, for two years.

Letters or other articles, suspected of containing contraband articles, or articles liable to duty, may be opened by a Post Master, under the provisions of the Postal Act, Section 60, within 48 hours of arrival, in the presence of the addressee.

No information will be given respecting letters or other articles which pass through the Post Office, except to persons to whom they are addressed

Persons not belonging to the Department are not allowed admission into the interior of any Post Office, nor permitted to examine the records, without the special permission of the Post Master General, to whom, or to the Inspecting Post Master of the Division, or to the Post Master, applications for information or redress must be made, either in person or in writing.

Postal Officers are not bound to weigh parcels for the public except when at leisure, or when the parcels are received for despatch, as it interferes with their current duties.

Letters directed to Native Officers, or men of Regiments or Detachments, are to be delivered to an Orderly or any other fit person, who shall be deputed by the Officer Commanding the Regiment or Detachment, to receive the same; but letters on which postage may be due, shall not be delivered to such person, unless the postage be first paid.

POSTAGE STAMPS.—Indian Postage stamps only are recognized in India in payment of India postage. Receipt or other Inland Revenue stamps cannot be used as postage stamps, except by the special order of Government, nor can postage stamps that have been torn, cut, or otherwise rendered imperfect. Postage stamps should be affixed to the right hand upper corner of all letters, &c. On re-directed letters care should be taken not to place fresh stamps over any part of the stamps that have been previously used. The crossing of postage stamps, affixed to letters by the initials of the posters, is recommended, as the sale of such stamps is thus rendered almost impossible, but the only obliteration of a stamp recognized by the Post Office is that made by a Post Office obliterator, bearing the number of some Post Office. No Post Master is allowed to fix a postage stamp to a letter brought unstamped to his office. Any Government Stamp vendor refusing, or unnecessarily delaying, to sell Stamps or Postage Labels, is liable to a penalty not exceeding Rs. 100; and when convicted of cheating, or of extortion, is liable to imprisonment for not more than six months, or to a fine of Rs. 100, and also to refund the amount taken in excess.

EXCLUSIVE PRIVILEGES OF THE POST OFFICE.—Wherever postal communications established in British India, the Government have the exclusive privilege of conveying by Post, from one place to another, all letters, and of performing all the incidental services of receiving, collecting, sending, despatching, and delivering all letters except in the following cases:—(1). Letters sent by a friend without reward. (2). Letters sent by a special messenger. (3). Letters solely concerning goods or other property, sent either by sea or land, to be delivered with the goods or property which such letters concern, without reward for carrying or delivering such letters. But it is unlawful to make a collection of such excepted letters.

The following persons are *expressly forbidden* to carry letters although they may not receive hire or reward for so doing:—(1.) Common carriers of passengers or goods and their drivers, servants, or agents, except letters solely concerning goods in their charge. (2.) Owners and Commanders of ships, steam boats, or other vessels, passing on any river or canal, or to or from any port in British India, and their servants or Agents, except letters solely concerning goods on board. The above privileges do not extend to newspapers or books, the means of sending being optional to the sender.

The conveyance of letters by private persons, not exempted from the exclusive privilege of carrying them, is illegal, and punishable by a fine of Rupees fifty for every letter. The making a collection of letters to transmit in clubbed packets by post, is punishable by a similar penalty.

The Post Office possesses no exclusive privileges regarding the despatch of Newspapers, Books, and Parcels.

UNPAID LETTERS.—The person to whom any unpaid letter or other article shall be delivered, shall not be bound to pay the postage if he forthwith return the same *unopened;* it will then be recovered from the sender. If any person shall refuse to pay any postage which he is legally bound to pay for any letter, the same may be legally recovered, and it is lawful for the officer in charge of any Post Office to withhold from the person so refusing, until such postage be paid, any other letter or other article addressed to that person, not being on Her Majesty's Service. The postage, however, may be remitted if it shall appear to the satisfaction of the Post Master of the office of delivery, that the letter or other articles has been maliciously sent for the purpose of annoying the person to whom it is addressed.

The postage charged on any letter or other article maliciously sent for the purpose of annoying the addressee may be remitted by the Post Masters at the office of delivery.

CURRENCY NOTES.—Entire Currency Notes should never be sent by Post; if halved and despatched in registered letters on different dates, their safe arrival will generally be secured.

REGISTERED LETTERS.—Letters, Newspapers, and Books, posted in India for delivery in India, can be registered by the payment of 4 annas in addition to the postage, both of which must be prepaid by Stamps. Letters containing remittances or valuable documents ought to be registered, but it must be remembered that the registration of a letter is no security against the abstraction of the contents, though it may ensure delivery, and it thus becomes practicable to trace it from one Post Office to another.

The Post Office is bound to give receipts for registered letters, bearing the address of the letter and the stamp of the Post Office at which it is posted. On the delivery of registered letter a receipt must be given to the letter carrier, upon a printed form

supplied by the Post Office. Registered letters should be enclosed in a substantial envelope, must always be sealed with wax, and be presented at the Post Office window, not thrown into the Letter Box.

The Government are not responsible for any loss or damage which may occur in respect of anything entrusted to the Post Office for conveyance; and no person, employed in the Post Office Department, is responsible for any such loss, unless that person causes such loss or damage, negligently, maliciously, or fraudulently.

The Post Office is not bound to give receipts except for registered letters or parcels; but if written receipts for *parcels* are presented, the Post Office Stamp will be affixed.

MODE OF ADDRESSING LETTERS.—The address of letters should be legible and complete. The primary sorting of letters is by Post towns, not alphabetically, according to the name of the addresses: hence the last word on every letter should be the name of the town to which the letter is to be sent; if it is not at a Post town, the name of the nearest Post town should be given. The name of the District, when necessary, should also be written in a separate line; this latter is often essential owing to the similarity of names of Post towns in different parts of India. Letters posted in one Presidency of India and intended for another, should always have the name of the Presidency added.

The name of the suburb of the Town, and the number of the house also if in a street, are a great assistance. It must not be supposed that because a letter will eventually reach its destination without this information, the omission is not a cause of delay in the process of sorting for delivery, and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the country as well as the Town or City should be given in full. Attention to this precaution will often assist in deciphering the name of the Town or City, and will prevent the letter from being mis-sent when there are Towns of the same name in different countries. Every letter should contain inside the full name and address of the writer, to ensure speedy return if the addressee be not found.

LETTERS TO PERSONS WHO CANNOT BE FOUND.—A list of all letters, &c., addressed to persons who cannot be found, is prepared daily in every Post Office, and exposed to public inspection; and all such letters, &c., which have remained three weeks unclaimed in any Post Office, are (if the sender's name and address be written on the cover) returned to the Posting Office to be delivered to the sender free of all charges. All letters and other articles of which the sender's name and address cannot be ascertained unless they be opened, are, after remaining unclaimed for three weeks, forwarded to the Dead Letter Office. The officer in charge is bound immediately to open all such letters, &c. and if possible return them to the senders. All letters, &c. of which neither the person addressed nor the sender can be found, after they have remained unclaimed in the Dead Letters Office for one year, are destroyed. All money and the proceeds of property thus found in any unclaimed letter are paid into the Public Treasury.

RE-DIRECTED LETTERS.—Every letter or other article re-directed at any Post Office, or forwarded by post from any place to which it shall have been conveyed by Post, will be charged, *in addition to all other postage paid or due thereon*, with the rate of Postage to which it would be liable if posted and prepaid by stamps at the place where it may be re-directed or from which it may be forwarded.

CHANGES OF ADDRESS.—All communications should be made in writing to the Post Master of Bombay, or other Post Masters, and *not* to the Post Master General. The name of the Post Town to which letters will be found addressed should be stated in the application. A separate instruction is required for every change of address, and no instruction is attended to for more than three months after its receipt. Verbal instructions or such as may be of a complicated or conditional nature will not be attended to. In every requisition the station to which letters, &c. are expected to be addressed should be particularly mentioned, otherwise the instruction cannot be attended to. As signatures are sometimes illegible, the full address of the writer should be given in the letter of instruction. No instructions will be received while a mail is in course of issue. A form will be supplied for this purpose at the enquiry window of the General Post Office.—*See also following para.*

RE-DIRECTION OF OVERLAND LETTER.—At one time the Bombay Post Office, as a favour, attended to instructions from the Public for the interception and re-direction of Overland Letters addressed to the interior. The introduction of sorting the Overland Mails, on board steamers between Suez and Bombay, necessitated the abandon-

ment of this system, as letters now reach Bombay ready packed for transmission up-country. Those expecting a change of residence, are recommended to have their letters consigned to some one in Bombay.

SHIP LETTER POSTAGE.—All letters received or despatched by a private ship are charged with an extra postage of one anna upon each letter in addition to all other postage, which is levied on delivery of the letter. Letters intended for dispatch by private vessels should always be marked on the cover "per ship," and in the absence of such direction they will be forwarded by land where land communication exists.

Unless specially superscribed for first despatch by land or sea, or by some particular ship, letters and other articles will be sent by such route as shall appear to the Post Master to afford the means of most speedy and secure transmission.

Commanders of vessels must deliver their mails as soon as possible after arrival under a penalty of Rs. 1,000; and any person on board retaining letters which ought to be delivered to the Post Office, renders himself liable to the same penalty.

Letters once posted cannot be re-called or returned to the senders except by an express order of Government, the Director General of the Post Office, or a Post Master General.

COMPLAINTS on all subjects, especially of surcharge of postage, missending or delay in the delivery of letters, should be made in Bombay to the Post Master, and in the Mofussil to the Inspecting Post Master of the Division; an appeal always lying to the Post Master General. Information as precise as possible regarding all the facts of the case, should accompany the complaint, and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error are supplied.

WINDOW DELIVERY.—No person living within any town free delivery or within the limits of a rural post free delivery, unless he rent a private box, can claim to have his letters delivered at the office window, if a delivery by Letter Carrier or a despatch by Messenger is about to take place; but letters which arrive by a mail, after which there is no immediate delivery by Letter Carrier or Messenger, may be obtained by any person on application at the office window so long as the office is open for delivery. But in order to prevent the additional trouble which is sometimes caused by letters being directed to a Post Office, although for persons residing within a free delivery from such office, but who have no private box, a Post Master is authorized, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name), and to send them out by the Letter Carriers.

PRIVATE LETTER BOXES.—Any person can rent a private box, and receive his letters, &c. at the Post Office window, who is willing to pay the appointed fee of twelve rupees per annum—to be paid in advance, and for a period of not less than a year. The same also are the terms for a private bag, except that in addition a charge is made for the cost of the bag itself, and for conveyance,—the maximum of the latter being five rupees per annum if the bag be conveyed by a rural messenger, and ten rupees if by a contractor for a mail cart or other Horse Post. The weight of a private bag when empty is limited to one pound. No private bag shall be allowed without the permission of the Inspecting Post Master. A Window Ticket Holder is entitled to receive, in business hours, all letters and newspapers to his address as soon as they are sorted, independent of the issue of Letter Carriers from the Post Office. Overland letters and papers are, as an exception, given at any hour of the day or night as soon as they can be got ready. A ticket taken by a firm is authority for the delivery to their messengers of all letters for the firm or addressed to the care of the firm, but if not so superscribed they will be sent out with the ordinary delivery peons. Letters, &c., addressed to Window Ticket Holders, will be delivered at the window only and not sent out with Letter Carriers. Window Tickets are applicable only to the Post Office at which they are taken out.

DUTIES OF LETTER CARRIERS.—Letter Carriers are prohibited from distributing any letters or newspapers except such as they receive from a Post Office, and are not allowed to demand or receive any payment beyond the postage marked on the unpaid letters or postal articles under distribution; they are liable to punishment of two years imprisonment if any wrong mark is fraudulently put on letters or other articles, or if

any Post Office marks or stamps are erased from such letters or articles by them ; they are also subject to imprisonment for 7 years if they break open, mutilate, or make away with any postal articles or their contents, and are punishable by law for loitering or delaying the delivery of letters, &c., entrusted to them. Letter Carriers are also forbidden to deliver any letter, newspaper, or other article, without requiring *immediate payment of the exact amount of postage.* They are not bound to give change. If the amount of postage due is not at once tendered, and a Letter Carrier is subject to detention, the letters, &c., upon which postage is due, shall be taken back to the Post Office for the next delivery. Letter Carriers are forbidden to deviate from their prescribed route. Whatever postage is marked on a letter, paper, or parcel, must be paid at once on delivery, after which any complaint of overcharge will be duly attended to. Delivering Peons are required to obtain the endorsement of addresses on covers refused by the latter, especially on registered letters, such being necessary for the satisfaction of the senders when the letters are returned to them through the Dead Letter Department and for the protection of the Letter Carriers. When any complaints are preferred against a Letter Carrier, the number on his badge should be specified.

OFFICIAL FRANKING.

On the 1st of August 1866 the authority to frank letters on Her Majesty's Service only, which was given to the Officers and others, was withdrawn, and the following Rules for the payment and settlement of accounts of postage on official correspondence substituted :—

PRIVILEGED OFFICES.—The Public Offices, enumerated in the annexed List, are privileged to send and receive (without actual payment of postage) all letters and packets *bona fide* and exclusively on Her Majesty's Service. The Post Office will keep an account of the Postage due on the official correspondence of each privileged office. Official covers despatched from a privileged office must be properly tied up, faced, and enclosed in a bag sealed with the seal of the office. Each cover must be endorsed, "On Her Majesty's Service only," under the full signature (autograph or stamp) of the head clerk or some other principal officer of the establishment. The address must include the official designation of the office to which the cover is directed. The bag, when made up, must be sent before the hour fixed by the Post Office for the closing of the mails for which it is intended. Official covers addressed to a privileged office by any office not included in the privileged List must be endorsed "On Her Majesty's Service only," under the full signature and official designation of the person by whom they are despatched. The address must include the official designation of the office to which the cover is directed. The official covers for each office are enclosed in the official bag, and sealed and sent out with the ordinary delivery, or given to the messenger of the office, should one be in attendance.

NON-PRIVILEGED OFFICES.—Official covers which are not sent by, or addressed to, a privileged office, are treated in all respects like private covers. Postage labels, marked with the word "Service," are made available for the prepayment of such covers. Service labels are never to be used in payment of the postage of any letter which is not *bona fide* and exclusively on Her Majesty's Service. Every cover prepaid by service labels must be endorsed, "On Her Majesty's Service only," under the full signature and official designation of the person by whom it is despatched. The address must also include the official designation of the office to which it is directed. If the above conditions be not observed covers (even though stamped with Service labels) will be treated as ordinary unpaid covers. Service labels are procurable at the Treasury or local Stamp Depot of each District; officers requiring such labels must purchase the number required, paying for the same in cash as if they were ordinary postage labels. A receipt for the amount to be given by the officer in charge of the Stamp Depot, will serve as a voucher for the charge to be made in the contingent bill of the purchaser. Service labels are not to be attached to letters addressed to, or despatched from, any privileged office. All officials who do not belong to privileged offices, and who have official correspondence with other than privileged offices, must make arrangements for supplying themselves with service labels either by direct purchase or through their departmental superiors.

CORRESPONDENCE OF LOCAL OFFICIALS WITHIN THE LIMITS OF THEIR RESPECTIVE DISTRICTS.—For the present no change will be made in the arrangements under which the public correspondence of local officials is conveyed, within the limits of their respective districts, by District Post or by General Post.

Official letters addressed to Public Officers on Her Majesty's Service, on which postage is due, must be received, and the postage charge paid by the addressee, who has authority to recover the amount by Contingent Bill, if not remitted by the Post Office.

INDIAN INLAND LETTER POST.

By this post letters and other articles are conveyed between any two Post Offices in India at the following rates :—

Not exceeding...	...½ Tolah.	½ Tolah.	1 Tolah.	1½ Tolah.	2 Tolahs.
Postage... ...	...6 Pies.	1 Anna.	2 Annas.	3 Annas.	4 Annas.

For every half tolah or fraction of a half tolah above one tolah an additional anna is charged. If the weight be exceeded to the smallest extent the letter becomes liable to the higher rate.

Pre-payment of postage on letters is optional, but unpaid letters are charged double postage at the prepaid rates; and insufficiently-paid letters double the deficient postage.

Postage can only be paid by means of postage stamps, which should properly be affixed at the upper right hand corner of letters on the address side.

Letters and other postal articles may be registered, but the Registration Fee (4 annas) in addition to the postage, must be prepaid by stamps.

Letters addressed to different parties cannot be enclosed in one cover, and any person collecting, conveying, and delivering letters is liable to a penalty of Rs. 50 for every letter.

* Includes Oriental Translator to Government and Members of Council.

INDIAN INLAND NEWSPAPER AND BOOK POST.

Packets forwarded by this post are transmitted between any two Post Offices in India at the following rates, irrespective of distance, postage to be prepaid by stamps :—

Not exceeding 10 tolahs... ... ... One Anna.
Above 10 and not exceeding 20 tolahs... ... ... Two do.
Every additional 10, or fraction of 10 tolahs... ... ... One do.

NEWSPAPERS.—A Newspaper includes any periodical publication published at regular intervals not exceeding thirty-one days.

Newspapers must be without covers or in short covers open at the ends.

Newspapers, if prepaid, are sent by letter post, but they must not contain any writing except the name and address of the addressee and sender, otherwise they will be charged as an unstamped letter of equal weight.

An extra or supplement to any paper, bearing the same date as the Newspaper and transmitted therewith under the same cover, will be deemed part of the Newspaper.

"Proof Sheets," marked as such, may be sent by the letter post at the rates prescribed for Newspapers, provided "the contents be correctly certified on the cover by the signature in full of the sender;" otherwise the same will be charged with postage at the rate which would be charged on an unstamped letter of equal weight.

BOOK POST.—There is *no restriction* to the articles which may be sent by "Book" or "Packet" Post, excepting letters or communications of the nature of a letter which are not printed, and explosive or dangerous materials.

Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being examined; for the greater security of its contents it may be secured with string, but in such cases the Post Master is authorized to cut the string, although if he do so he must again tie up the packet.

No Book packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the Book, &c., or to whom it is given, are not regarded as a letter. As respects the name and address of the sender, it is recommended, in order that, if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned to the sender.

No Book packet must exceed one foot and half in length, or one foot in width or depth.

No Book packet, exceeding 200 tolahs in weight, can be received for despatch, and any packet exceeding that weight found in any letter box, will be forwarded as a Banghy parcel, if addressed to any place in India.

If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the enclosure will be taken out and forwarded to the address on the packet, charged as an unpaid letter, together with an additional rate; and the remainder of the packet, if duly prepaid, will then be forwarded to its address.

Samples of seeds, &c. may be enclosed in boxes, or in bags of linen or other material, fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they are transparent, so that the officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed the packet will be treated as a letter or banghy parcel, as the case may be.

Scissors, knives, razors, forks, steel-pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like, may be forwarded provided that they be packed in a manner to afford complete protection to the contents of the Mail Bags and Officers of the Post Office, while at the same time they may be easily examined. If any such packet is found not to be sufficiently guarded, it will be stopped, and a notice of its detention sent to the person to whom it is addressed, or to the sender, who may then obtain it upon personal application; but the packet will be charged with a fine equal in amount to the postage to which it was liable.

To prevent obstacles to the regular transmission of letters, a Post Master may, when necessary, delay forwarding any book packet, not a newspaper, for a period not exceeding twenty-four hours beyond the ordinary time.

If the postage chargeable on Books, Packets of Newspapers, &c. be not prepaid as above, they will be subject to Banghy rates of postage, but if partially prepaid, *i.e.* by stamps of the value of one rate, double the deficient postage will be charged.

All book-packets, not exceeding ten tolahs in weight, sent through the Post Office, are conveyed by Letter-Post, and charged with letter postage, *unless specially directed to be sent by Banghy or Book-packet Post.*

The Post Office possesses no exclusive privileges regarding the despatch of Newspapers and Books.

Postage must be paid by Stamps, but prepayment is optional.

The transmission of Books and other parcels by Banghy Post during the Monsoon months, unless they are originally packed so as to be water-proof, is attended with much risk, especially on roads on which the Banghy Mails are conveyed by Runners, and which are often during the rains intersected by deep water-courses through which the Runners have to wade. Parcels not made water-tight are liable to receive damage from wet, for which the Post Office is not responsible.

No Parcel can be received for transmission by Banghy Post unless it be securely packed in cloth, wax cloth, or tin, and, even when so packed, not unless seals bearing distinct impressions of some device (not that of a current coin) be fixed at intervals not exceeding 3 inches, along the line of sewing by which the covering is secured.

No Banghy parcel may exceed 3 feet in length, one in breadth, one in depth, or 2,590 cubic inches in bulk.

Not more than one letter can be enclosed in a Banghy parcel, under a penalty not exceeding fifty rupees.

All Banghy Parcels not exceeding 10 tolahs in weight sent through the Post Office are conveyed by Letter Post, and are charged with Letter Postage, unless specially directed to be sent by Banghy Post.

Receipts for Parcels, when presented ready written, either in Books or on separate slips of paper, along with the parcels, will be stamped with the Post Office stamp.

No Parcel exceeding 2,000 tolahs in weight shall be received for despatch at any Post Office, and no parcel exceeding 600 tolahs on any line of road on which the Banghy Mails are carried by Foot Runners.

Parcels received from seaward exceeding the weight which may be sent by Banghy Post will be made over to the Collector of Customs.

Where there is no Banghy Post established on any line of road, parcels, books, and other articles are received and transmitted by the Letter Post, and are charged with Banghy or Book postage as the case may be, if it be certified in writing, on such parcel, book packet, or other article, under the full signature and address of the sender, that it does not contain any letter or other written communication on which a higher rate of postage is chargeable. If any such certificate be false, any such letter or other written communication contained in such certified parcel, will be charged with letter postage as if sent separately, and the sender will be liable to a heavy penalty.

Parcels once posted cannot be recalled by the senders.

Parcels cannot be forwarded to England at Banghy rates of postage.

Parcels cannot be posted on Sundays, and on week days there are fixed hours for posting at every Post Office. In Bombay they must be posted between 7 and 8 A.M. and 12 A.M. and 5 P. M.

Parcels for stations on lines of Railways cannot be transmitted by Banghy Post, but must be made over to the Railway Companies for conveyance.

SHIP POSTAGE RATES ON PARCELS CONVEYED BY MEANS OF HER MAJESTY'S INDIAN POST.

FOREIGN POSTAL REGULATIONS.

The rates of postage to Great Britain, the Colonies, and to foreign parts, will be found on pages 134 to 147.

The rates by British or French Packet are alike unless otherwise specified.

The registration fee is the same for Newspapers, Books, and Parcels, as for Letters.

Any periodical published at intervals not exceeding 31 days is considered a Newspaper, and any number of papers may be sent under one cover provided Postage is prepaid in stamps for each Newspaper according to weight of each.

Newspapers must have either no cover or a cover open at the ends.

Newspapers must not contain any enclosure.

Where no rates are given, Newspapers, &c., can only be forwarded at the letter rate of postage.

Newspapers for places marked ‡ in the tables on pages 135 to 147, cannot be fully prepaid in this country, but are liable to Indian Inland postage, which must be prepaid.

After-Packet letters are not forwarded unless an 8-anna stamp is affixed to the letter, in addition to the postage.

BOOK AND PATTERN POST.

Great Britain.

Under the following conditions as to mode of packing, exclusion of all communications of the nature of a letter, and prepayment of Postage by means of stamps, packets of books, patterns, publications, or works of literature or art, whether British, Colonial or Foreign; and all packets consisting of printed votes and proceedings of the Imperial Parliament or any Colonial Legislature, may be transmitted between any part of India and the United Kingdom, at the rates of Postage on page 147:—

No packet may exceed 5 lbs. (200 tolahs) in weight, and the postage *must* be prepaid by means of stamps affixed outside the packet or its cover.

Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being removed for examination. Samples, however, of seeds, &c. may be enclosed in boxes or in bags of linen, or other material fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they are transparent, so that the officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed, the packet will be treated as a letter.

A book packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints or maps, and any quantity of paper, parchment or vellum, and the books or other publications, prints, maps, &c. may be either printed, written, engraved, lithographed or plain or any mixture of these; but no printed matter or prints will be allowed, except such as may be printed on paper, parchment or vellum. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, will be allowed, whether such binding, &c. be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books; and in short whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the bindings, &c., must not be sent as a separate packet.

The packet must not contain any letter closed or open, or any enclosure sealed or otherwise closed against inspection, nor must there be any letter or any communication of the nature of a letter written or printed in any such packet or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. In the case of packets of patterns, the address of the sender, a trade mark and numbers, and the prices of the articles, may be written, not on loose pieces of papers, but on the cover, or on small labels attached to the samples or bags containing them.

No book or pattern packet can be received, if it exceeds two feet in length, width or depth.

The prohibition which previously existed to the transmission, as patterns, of articles of intrinsic value by the Post between the United Kingdom and India, has been withdrawn.

The rule which forbids the transmission through the Post of an article which might injure the contents of the mail bags, or the officers of the Post Office, is so far relaxed as to permit the transmission of scissors, knives, razors, forks, steel-pens, nails, keys, watch machinery, metal tubings, pieces of metal or ore, and such like as samples; provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags and the officers of the Post Office, while at the same time, the samples may be easily examined. If any packet containing such article as these be posted, which is found not to be sufficiently guarded, it will be stopped.

Samples of seed and similar articles may be sent in the bags entirely closed if transparent, so that the officers of the Post Office may satisfy themselves of the nature of the contents.

In exception to the rule permitting *articles of intrinsic value* to be forwarded, it must be understood that such articles *cannot be forwarded in the Mails vid Marseilles.*

Any packet which shall not be open to examination, or shall have any letter or any communication of the nature of a letter written or printed in it or upon its cover, will be charged with letter postage.

If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional book rate, that is, with the postage chargeable on a book weighing not more than half a pound—the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

Malta, Gibraltar, Ceylon, China, and the Australian Colonies.

Subject to the conditions under which packets of books, patterns, publications, &c., are forwarded to Great Britain, they can be sent to Mauritius, Ceylon, Hongkong, Singapore, Penang, and the Australian Colonies.

Foreign Countries.

The regulations are the same as to Great Britain, with the following exceptions:—

The patterns or samples must *not* be of intrinsic value. This rule excludes all articles of a saleable nature, and, indeed, whatever may have a value of its own, apart from its mere use as a pattern or sample; and the quantity of any material sent ostensibly as a pattern or sample must not be so great that it can fairly be considered as having on this ground an intrinsic value.

Unless otherwise specified in the preceding tables, the weight of a parcel is limited to 3 lbs.

GERMAN STATES.

The following is the list of German States referred to on pages 188 and 189:—Baden, Bavaria, Birkenfeld, Bremen, Frankfort-Sur-Maine, Hamburg, Hesse Darmstadt, Hesse Electoral, Hesse Homburg, Hohenzollern, Lippe Detmold, Lubeck, Luxemburg, Nassau, Reuss, Saxe-Coburg Gotha, Saxe-Meiningen-Hildburghausen, Saxe-Weimar Eisenach, Schaumburg Lippe, Schwartzburg Ruderstadt, Schwartzburg Sondorhausen, Wurtemburg.

UNPAID AND INSUFFICIENTLY PAID COVERS.

1. *Letters.*—Where pre-payment of letter postage is compulsory, (*i. e.*, places or routes marked with a * in the preceding Table), unpaid or insufficiently paid letters cannot be forwarded. Where prepayment of letter postage is optional, unpaid letters are forwarded subject to the recovery on delivery of such postage as may be chargeable under the regulations of the country to which they are sent; and insufficiently paid letters are treated as if wholly unpaid, except in the case of insufficiently paid letters addressed to the United Kingdom, which are charged with the deficiency, together with a fine of the same amount as that levied on unpaid letters. Unpaid letters for the United Kingdom are charged on delivery at prepaid rates, together with a fine of 9*d.* in the case of ordinary letters; 6*d.* in the case of officers' letters; and 1d. in the case of soldiers' letters.

2. *Newspapers.*—The pre-payment of Newspaper postage is compulsory, and no unpaid or insufficiently paid cover can be forwarded; except in the case of Newspapers addressed to the United Kingdom, which, if they are paid to the extent of at least 8 pie, are forwarded *via* Southampton charged with the deficiency, together with a fine of one penny.

3. *Packets of Books and Patterns.*—The pre-payment of postage on Packets is compulsory, and no unpaid or insufficiently paid covers can be forwarded; except in the case of Packets addressed to the United Kingdom, which, if wholly unpaid, are forwarded, charged with double postage, and if insufficiently paid, are forwarded, charged with the deficiency, together with a fine of 4*d.*

CHARGES ON DELIVERY IN INDIA.

4. Covers which may be re-directed in India, whether at the place of address, or at the Port where the mails are landed, are charged with ordinary Indian inland postage in addition to any other postage which may be due.

5. *Letters.*—Paid letters received, the payment on which includes Indian postage, or on which Indian postage is not levied, are delivered in India without charge. Under this head come paid letters received from the places and by the routes mentioned in the following statement, which shows also the mode of treating insufficiently paid and unpaid letters received from the places in question, *viz*:—

Letters received from other places or by other routes do not bear payment to destination in India, and are therefore chargeable on delivery at ordinary inland (forwarded) rates according to weight in Tolas. In this class are included letters received from the following places by the routes mentioned: Foreign Europe *via Trieste*, by British Packet; Greece, Turkey in Europe, or Austrian Post Offices in Turkey, *through Austrian Post Office at Alexandria*, by British Packet; Spain, Portugal, Madeira, Cape de Verd or Azores *via Gibraltar*, by British Packet.

* In these cases the delivery is free, owing to an arrangement under which double Indian postage is charged on letters despatched.

6. *Newspapers and Packets of Books and Patterns.*—Paid Newspapers and Packets of Books and Patterns received, the payment on which includes Indian inland postage, or on which Indian inland postage is not levied, are not chargeable with additional postage on delivery in India. Under this head come paid Newspapers and Packets from the places and by the routes mentioned in the following statements, which show also the mode of treating insufficiently paid and unpaid Newspapers from the places in question:—

POSTAL REGULATIONS FOR THE ARMY AND NAVY.

COMMISSIONED OFFICERS.

The following Rules and Table of Rates are based on a Treasury Warrant, bearing date the 27th September 1867 (with a subsequent modification made by Her Majesty's Post Master General, under which the scale of charges increases after the first ounce by half ounces, instead of by whole ounces), and on a Treasury Warrant bearing date the 1st May 1868:—

LETTERS POSTED IN INDIA.

The sender must be a Commissioned or Warrant Officer, or a Superintending or 1st Class School Master of the Army, actually employed (otherwise than in Civil employ) in Her Majesty's service in India.

The letter must be one addressed to the United Kingdom.

The letter must bear by way of superscription—

1. The signature of the officer who sends the letter;
2. The signature of the Commanding Officer of the Regiment, Corps, or Detachment in which the sender is serving, or of the local head of the Department to which he belongs;
3. A specification by the Commanding Officer or local head of the name of the Regiment, Corps, or Detachment in which the officer is serving, or of the Department to which he belongs.

The superscription on letters posted in India should be given in the following form, care being taken by the Commanding Officer, or head of the Department who countersigns the cover, to write his name, &c., crossways as shown below:—

Viâ Southampton

(A. B.) Colonel, Commanding Her Majesty's 1st N. I.

Mrs. Jones,
37, Regent Street,
London.

From
(Signed) A. Jones, Captain,
Her Majesty's 1st N. I.

or

Viâ Southampton

(Countersigned) (C. D.) Colonel, Quarter Master General.

Mrs. Jones,
37, Regent Street,
London.

From
(Signed) A. B., Major,
Deputy Quarter Master General.

LETTERS DELIVERED IN INDIA.

The letter must be one which has been posted in the United Kingdom.

It must be addressed to a Commissioned or Warrant Officer or a Superintending or 1st Class School Master of the Army, actually employed (otherwise than in Civil employ) in Her Majesty's service in India.

It must bear by way of superscription—

1. The rank of the addressee; and
2. The Regiment, Corps, or Detachment in which he is serving, or the Department to which he belongs.

As regards the term "Civil employ," all Military Officers serving under the orders of the Civil Administration (*i. e.*, not under the orders of the Commander-in-Chief) are regarded as being in Civil employ. For instance, Military Officers belonging to the Survey, Public Works, Education, Telegraph, Post Office, Police, Jail, and other similar Departments, as well as Secretaries to Government, Cantonment Magistrates, Commissioners, Deputy Commissioners, Civil Surgeons, Chaplains,* &c. are regarded as being in Civil employ.

The condition that the officer must be "actually employed" in Her Majesty's service in India, excludes officers who may be on leave from a title to claim the privilege.

The term local head of a Department is regarded as meaning the chief officer of the Department in the station where the letter is posted. It has been ruled under this head that a Brigade Major at a station where there is a General Commanding Officer, must have his letters countersigned by the General.

Letters for which the privilege may be claimed, but without complete fulfilment of the above conditions, will be treated as ordinary covers.

The privileged rates, subject to the above-mentioned condition, are as follows :—

By British Packet, viâ Southampton.

	Every Letter not exceeding

Letters sent "by French Packet" are not entitled to any privilege, being chargeable at the same rates as letters sent by that route from or to the public generally.

Unpaid letters, or insufficiently paid letters, will be liable to the deficient postage, together with a further rate of 4 annas, or 6d., as a fine.

Officers' letters received in India from the United Kingdom, if addressed to the care of an Agent or any other person, are not entitled to the foregoing privileges, but are liable to the ordinary rate of postage.

Officers' letters received in India from the United Kingdom which have to be redirected to another place in India, are liable to the ordinary Inland charge for redirection; but if the officer has removed *upon service* to the United Kingdom or any other station abroad, the letter will be re-directed without any additional charge for British Packet Postage.

SOLDIERS' AND SEAMEN'S LETTERS.

Subject to the subjoined Regulations, Non-Commissioned Officers, Band Masters, Army School Masters (not being Superintending or 1st Class Schoolmasters), Army School Mistresses, Private Soldiers, or Seamen belonging to Her Majesty's ships, can send and receive letters by British packet for a postage of 8 pie; but if any such letters

* Some Highland Regiments in India have Presbyterian Chaplains attached to them. Such Chaplains are entitled to the same privileges under the Warrant as Regimental Officers.

have to pass through a foreign country, they are subject, in addition, to the foreign postage, whatever that may be. Thus, the postage to the undermentioned countries (including the British packet charge of 8 pie) is as follows:—

By British Packet.	*viâ* Southampton.			*viâ* Marseilles.		
	R.	A.	P.	R.	A.	P.
To or from the United Kingdom	0	0	8	0	3	4
To or from Chili, Peru, or any other place in the South Pacific, Vancouver's Islands, or British Columbia	0	1	4	0	4	0
To or from Canada	0	0	8	0	3	4

To or from Malta, Gibraltar, China, Ceylon, or Australia, 8 pie.

To or from Mauritius, *viâ* Bombay by British packet to Aden, and thence by French packet—4 annas 8 pie.

The person claiming the privilege must at the time be actually employed in the service of Her Majesty, and must not be either a Commissioned Officer, or a Warrant Officer, or a Superintending or 1st Class School Master.

The postage must be prepaid, except in respect of letters addressed to the United Kingdom, or other places to which the prepayment of letter postage on ordinary letters is optional. Unpaid letters received in India are charged, on delivery, 1 anna 4 pie, together with any foreign postage which may be due.

The letter *must not weigh more than half an ounce.*

It must relate entirely to the private concerns of the Soldier, Seaman, &c.

The name of the Soldier, Seaman, &c., with his class or description, must appear on the direction, and the officer having the command must sign his name and specify the Ship or Regiment, Corps, or Detachment to which the Soldier or Seaman belongs: the name of the Ship or Regiment being entered in full. The foregoing particulars should be given in one of the following forms:—

For Seamen.

Viâ——————

H. M. S.——————*Or other Comdg. Officer*.....*Captain,*

(Direction of letter to be entered here.)

From A. B., Seaman,
H. M. S.——————

or

Viâ——————

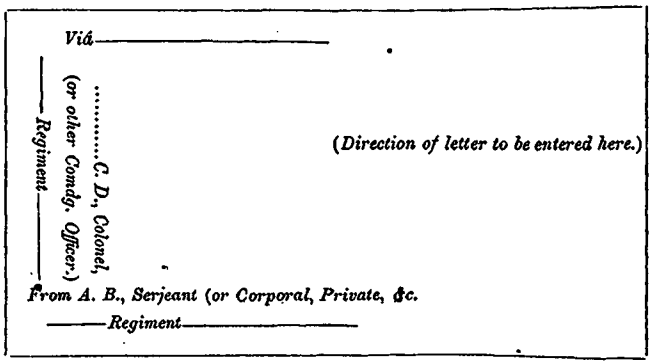
To

A. B.,

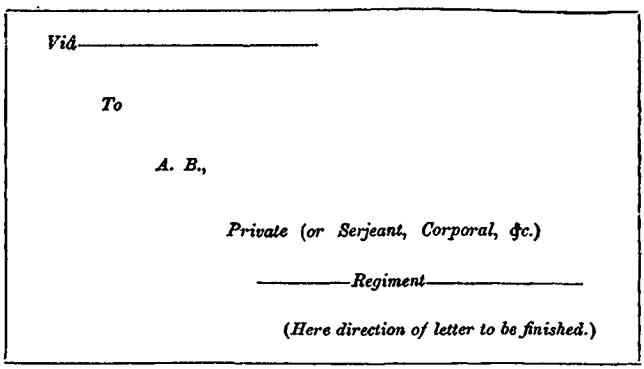
Seaman, H. M. S.——————

(Here direction of letter to be finished.)

For Soldiers.



or



If the letter exceed half an ounce (the foregoing regulations being in other respects complied with), it will be forwarded, charged with the same postage as a Commissioned Officer's letter if addressed to the United Kingdom, but if addressed to any other colony or place abroad it will be treated as an ordinary letter.

Soldiers' or Seamen's letters received in India from abroad, if addressed to the care of an agent or any other person, are liable to the ordinary rate of postage, the privilege of receiving letters at reduced rates being confined to such letters as are addressed directly to them.

Letters received in India from abroad for Soldiers or Seamen who may have removed *upon service* to another place in India, are not subject to any charge for re-direction, provided that the foregoing conditions have been fulfilled, and that the letter does not exceed half an ounce. Subject to the same proviso, letters will be re-directed to Soldiers and Seamen who may have removed *upon service* to the United Kingdom, or any other station abroad without any additional charge for British packet postage.

ECCLESIASTICAL FEES.

The 18th September 1868.

His Excellency the Governor General in Council has been pleased to make the following rules in regard to the levy of Ecclesiastical fees throughout India:—

I.—No fee will be charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs.10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs.50 both at the Presidency towns and in the interior. No fee will be charged on marriages by banns.

IV.—When registers are searched, and copy of any entry given, a fee of one Rupee shall be charged for the first year, and four annas for every additional year over which the search may extend, as well as a fee of one Rupee for the certificate; Soldiers, Sailors, and Non-Commissioned and petty Officers being exempted from payment. [The first year shall be taken to mean any one year indicated by the applicant.]

V.—A fee of one Rupee for every square foot of ground occupied shall be charged for the construction of any masonry grave in burial grounds under the charge of Government, and these fees shall form a fund for keeping the burial ground in order, except in Calcutta and Bombay, where they will be credited to Government.

VI.—A fee of double the amount imposed on a masonry grave shall be levied on the erection of a monument (other than a simple headstone, for which no fee will be taken) in the burial ground, and a fee of Rs.75 on a faculty for the erection of a monument in any church.

COUGHS, AND INCIPIENT EFFECTUALLY

TRADE KEATING MARK. 79 S.T PAUL'S CHURCHYARD.

ASTHMA CONSUMPTION, CURED BY

KEATING'S COUGH LOZENGES.

JUDGED BY THE IMMENSE DEMAND, this UNIVERSAL REMEDY now stands the first in public favour and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony; and throughout India and China they have been highly esteemed wherever introduced. For COUGHS, ASTHMA, and all affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

RECENT TESTIMONIAL.

August 23, 1868.

DEAR SIR,—Having tried your Cough Lozenges in India I have much pleasure in testifying to their beneficial effects in cases of Incipient Consumption, Asthma, and Bronchial affections; so good a medicine ought to be known to be appreciated. I have prescribed it largely with the best results.

W. B. G.,
Apothecary H. M. Indian Medical Service.

CHILDREN'S WORM TABLETS (KEATING'S.)

The recently-discovered unfailing remedy for Worm Disorders in Children and adults, has now been concentrated in the form of a purely Vegetable Sweetmeat. The Tablet is eagerly taken by children, and one to three given twice or thrice a week, will effect a safe and certain cure.

Hydrographic Office, Admiralty, 30th September, 1867.

SIR,—On Wednesday last my wife purchased at your Shop a Tin case of your Worm Tablets. She gave only four in three days to my little boy, 5½ years of age, as he has had a sad cough, and looked ill, with a tickling of his nose for the last eight months, and on Saturday afternoon he voided a large worm eight inches in length, and he appears already to be a different child.

Your obedient Servant,
EDWARD DUNSTERVILLE, Commander R.N.

KEATING'S PERSIAN INSECT DESTROYING POWDER.

This Powder is quite *harmless to animal life*, but is unrivalled in destroying Fleas, Bugs, Flies, Cockroaches, Beetles, Gnats, Mosquitos, Moths in furs, and every other species of Insect. SPORTSMEN will find this an invaluable remedy for destroying FLEAS IN THEIR DOGS, as also *Ladies for their Pet Dogs*. Being the Original Importer of this now invaluable article, which has found so great a sale that it has tempted others to vend a so-called article, the Public are therefore cautioned to observe that the Packets of the genuine Powder bear the autograph of THOMAS KEATING, and also the "Trade Mark" as above.

HUBBUCK'S
PATENT WHITE ZINC PAINT.

By their process, which is patented, the Pure White Zinc Paint is cheaper than White Lead.

For internal and external Painting, HUBBUCK'S Zinc Paint is the most durable and beautiful, and does not stain or discolour with the London atmosphere, or in the neighbourhood of Gas and Chemical Works. In all climates it is superior to other Paint for the inside and outside of Houses, Ships, Lighthouses, Iron Roofing, and Bridges.

ADULTERATIONS.

Some Paint Grinders have been selling adulterated Zinc Paint. No workman can produce good work with such material. Those who have had HUBBUCK'S Patent White Zinc Paint will not use any other Paint for their best work.

To prevent the prejudice which the inferior article must produce, each cask of pure White Zinc Paint is stamped—

"HUBBUCK, LONDON PATENT."

Adulterated Zinc Paint, so marked, having been shipped to Foreign Markets, the Patentees offer a reward of FIFTY POUNDS for information which shall lead to the conviction, in an English or Colonial Court, of those who have pirated their mark.

Grinders, Exporters, and Retailers are all liable for its sale.

THOMAS HUBBUCK & SON,

WHITE LEAD, OIL, PAINT, AND VARNISH WORKS,

24, LIME STREET, LONDON.

"For public schools, and all rooms occupied by children, there will now be no excuse for using poisonous paints. Parents have remarked that their children, on returning to newly painted houses, have suffered in health. The reason is evident; the breath extracts the poison from White Lead, and the lungs draw in the deadly vapour."

"Among other tests to which it has been subjected, has been that of painting the hold of a sugar vessel, which, after a voyage to St. Kitt's and back, was found, after washing, to be as white as the first day the paint was applied."—*John Bull*, September 14, 1850.

HUBBUCK'S ANTI-CORROSIVE PAINTS,

The most valuable protection to Iron Roofs, Bridges, Piers, Ships and Buildings, exposed to stormy weather and scorching sun; they soon become extremely hard, do not blister, and are very durable.

They are made of Stone, Slate, Copper, White, Blue, Green, or any other Colour that is desired.

HUBBUCK'S ANTI-OXIDATION COMPOSITION,

For Coating Iron and Wood Ship's Bottoms: a preservative against fouling and corrosion. This composition is ready for immediate use, and obviates the waste of carrying unmixed Paints, Oils, Driers, &c. It is also applicable to all the purposes of other Paints.

HUBBUCK'S PALE BOILED OIL

Has less colour than Raw Linseed Oil; is a quick, hard, and certain drier for White and Light coloured Paints.

SARSAPARILLA.

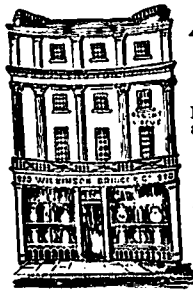
WILKINSON'S (late BRIDGE'S)

ESSENCE OR FLUID EXTRACT OF

RED JAMAICA SARSAPARILLA,

IN PINTS, HALF-PINTS, AND QUARTER-PINTS.

A Pint Bottle is equal to Three Gallons of the ordinary preparations.



"A superior preparation, that may always be relied on."—*Sir Astley Cooper.*

"We are in every respect satisfied with it."—*Lancet.*

"I recommend Bridge's Sarsaparilla."—*Dr. James Johnson.*

"Latterly, in consequence of much debility subsequent to Cholera, I have freely used your preparation myself, with complete benefit and success."—*J Poett*, M.R.C.S.

IMPORTANT CAUTION.

The Public are cautioned against *cheap* preparations of Sarsaparilla which, instead of being what they profess, are nothing more than a *decoction of common herbs sweetened with Molasses*, and flavoured with American Winter Green. The genuine has "THOMAS WILKINSON (late BRIDGE & Co.), 270 Regent Street, London," engraved on each bottle.

QUINTESSENCE OF JAMAICA GINGER AND CAMOMILE.

Ginger has long been deservedly known as an excellent domestic medicine, and combined with Camomile, it is the most efficient stomachic tonic known, for while the Ginger relieves the stomach from distension and flatulency, arising from impaired digestion, the Camomile strengthens the coats of the stomach, and by that means gives it a healthy and invigorating tone. So HIGHLY CONCENTRATED IS THIS PREPARATION, IT IS UNIMPAIRED BY AGE OR CLIMATE, AND WELL ADAPTED FOR EXPORTATION. NO FAMILY SHOULD BE WITHOUT IT. In bottles, half-pints, quarter pints, and one-eighth pints.

WHITMORE'S STOMACHIC DINNER PILLS.

No Pill is so efficacious in promoting DIGESTION, strengthening the STOMACH, correcting ACIDITY, preventing or removing HEADACHE, GIDDINESS, &c., arising from a COSTIVE HABIT, DEBILITATED STOMACH, or TORPID LIVER. They require no change of Diet, and those of the most delicate constitution may take them with safety. Taken as an adjunct with WILKINSON'S SARSAPARILLA, with the greatest success. In bottles, small, medium, and large.

BRONCHIO-THORACIC LOZENGES,

Prepared from the receipt of an eminent Physician, and experience has fully justified their recommendation as the most speedy remedy in IRRITATION OF THE THROAT, CATHARRAL COUGHS, BRONCHITIS, INCIPIENT CONSUMPTION, SPITTING OF BLOOD, &c., &c. To public Speakers and Vocalists they will be found invaluable, as they impart a clear and beautiful tone to the voice. Free from any preparation of Opium, and of an agreeable taste, they are applicable to all. In bottles only.

WHITMORE'S COMPOUND LINIMENT OF ARNICA.

A Specific for the cure of RHEUMATISM, LUMBAGO, SCIATICA, SPRAINS, CONTUSIONS, WEAKNESS OF THE JOINTS, CHILBLAINS, &c. It is also an excellent remedy as a stimulating application to the surface of the Chest and Back in Bronchitis, Inflammation of the Lungs, Pulmonary Consumption, and Whooping Cough. When the Liver is inactive, rubbed over it, its stimulating properties have a beneficial effect, and in all cases where counter irritation is desirable, it will be found invaluable. In bottles, small, medium, and large.

The above Preparations are Manufactured only by

LAMPLOUGH'S

EFFERVESCING

PYRETIC SALINE.

IMPORTANT to Travellers, English Ministers, British Consuls, and Europeans seeking to reside in safety in Tropical and Foreign Climates. Her Majesty's Representative, the Governor of Sierra Leone, in a letter of request for an additional supply of the Pyretic Saline, states:—"It is of GREAT VALUE, and I shall rejoice to hear it is in the hands of all Europeans visiting the Tropics."

The Public, and Invalids especially, are informed that the late distinguished and learned Dr. PROUT charncterized its discovery as unfolding germs of immense benefit to mankind. Thirty years' experience confirms his opinion; numbers, who have previously suffered from climates unsuited to the constitution, or the injurious use of Mercury, inducing disease in its protean form, who had visited our native Bathesdian waters and pools in vain, have, by daily taking the Pyretic Saline, recovered their wonted health and vigour.

SICKNESS, HEADACHE, AND NAUSEA are in most cases immediately relieved by taking a teaspoonful in a tumbler of cold water: this can be repeated once or twice in two hours, if needful.

SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted; it instantly allays the sickness.

For BILIOUS CONSTITUTIONS giving rise to Vitiated Secretions, Indigestion, and Eruptions on the Skin,—a teaspoonful should be taken daily, with the dinner, in a tumbler of water, and the same quantity on going to bed.

JUNGLE or YELLOW FEVER.—Given in teaspoonful doses, every hour, in a tumbler of water, it is by many considered a SPECIFIC, no other medicine being required.—W. STEVENS, Esq., M.D., and D.C.L., in a work upon Fevers, states, that since its introduction the fatal West India Fevers are deprived of their terrors. In the Island of Trinidad alone, out of upwards of One Thousand treated on this plan, there were only eleven deaths. Messrs. ORR & Co., Madras, state in their letters that one of the Staff Surgeons found the partial contents of one bottle sufficient to cure cases of long standing Jungle Fever.

In MEASLES, SCARLET, TYPHUS, JUNGLE, or GASTRIC FEVERS and ERUPTIVE DISEASES, it should be given in teaspoonful doses, every four hours, in a glass half-full of water, or with an increased quantity of water if the patient suffers from thirst; if accompanied with sore throat, or enlarged glands well rub into the part strong hartshorn and oil until redness is produced. "The late Dr. TURLEY, of Worcester, stated, he found this Saline a specific in these diseases, no other medicine being required. Persons at a distance from medical aid would do well to have such simple remedies by them."—*Illustrated News of the World.* This method has been found successful in every instance in which it has been used.

HEARTBURN and INWARD FEVER.—One teaspoonful should be taken in half a glass of water, and repeated if needful.

As a pleasant and active Aperient, one dessert-spoonful should be taken, mixed in a tumbler three parts filled with water, early in the morning; this quantity might be repeated a second or third time in the hour, if obstinate costiveness prevails.

HEALTH SECURED BY
MORISON'S UNIVERSAL MEDICINES,
OF THE
British College of Health, Euston-Road, London.

AN extraordinary case of a tumour, of long standing, which protruded like the hump on a camel's back, and was obliged to be supported with bandages. Also cured of Dropsy :—

James Partridge, aged 45, labourer, residing at Barnes, near Cowley Bridge, had been ill many months with violent pains of the bowels, and great swelling in various parts of the body. He had been under several medical men in Exeter for some time. One told him it was a chronic abcess of the liver, and treated him for such ; but his disorder gaining on him,—his bowels were swollen to a prodigious size, and the tumour like the hump on a camel's back, was obliged to be suspended,—he went into the Devon and Exeter Hospital, where he remained a patient for six weeks ; but instead of giving him purgative opening medicine to reduce the tumour, and carry off the water, the doctors were locking up the bowels, allowing the corrupted matter to accumulate and the Dropsy to increase. Thus he left the Hospital worse than he went in ; his complaint had baffled all their skill, his strength was much reduced, his appetite gone, and his sufferings so great, that one and all of the doctors gave him not the least hope of recovery.

In this state he was removed to his home, where, after remaining some time, he was taken to Witheridge for the change of air. He tried the doctor of that place, whose treatment was, like all the rest, a total failure ; and in this deplorable state he was again taken to his home to linger out a miserable existence.

His wife was now obliged to apply to the Board of St. Thomas's Union for relief, when he was placed under the care of the parish doctor, who attended him for several months, to no benefit, and at last left him, declaring he could do nothing more for him. He was now left to die. As a last resource his wife was persuaded to try the effects of MORISON'S PILLS. She went to the Exeter Hygeian Dispensary, and was informed that while there was life there was hope, and that MORISON'S PILLS had cured many thousands of the doctors' incurables, and no doubt would cure him. He commenced taking the pills five of Nos. 1 and 2 alternately night and morning, for about a week, which brought off great quantities of corrupted matter and water and gave him great relief ; this induced him to increase the numbers and he soon found that the more he took the better he felt. By this time the tumour was greatly diminishing from the effect of the medicine on the disease, and the dropsy was so abated that he could walk about. He was now taking eighteen pills (No. 1) at night, and fourteen No. 2 in the morning ; and the more he took the better he was ; so, instead of lying in bed quite helpless, and deserted by doctors, he was able to walk about, to the amazement of the farmers and inhabitants of the parish. On being asked how many pills he was taking, he said, "Why, twenty at a dose." The reply was, "They will kill you." "Not they ; why I would take forty, if required. Just see, I have almost lost the hump on my bowels, and the dropsy is almost gone." By taking such large doses of the pills, and the great discharge thus produced, he required more nourishment to sustain his strength and expedite his cure. The case was reported to the Board, who augmented his allowance for three months to try the effect. At the end of that time, the patient attended himself, when the gentlemen examined him at great length, and were quite astonished at his statement of the number of pills he was taking, and the wonderful effects they produced. He has now given up his pay, and has resumed his labour again.

The above facts can be verified by the Board of Guardians of St. Thomas' Union, Exeter.

Sold by the Hygeian Agents and all Medicine Vendors, in boxes, 7½d., 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. packets.

Morison's Pills sent by post to all parts, by enclosing postage stamps.

MEAGHER'S NEW FOLDING CAMERA.

This CAMERA is similar in construction to the already well known Binocular Camera, and possesses the following advantages over the existing Landscape or Kinnear form of Camera:—No screws are required for fixing; the focussing is effected from the back by the Screw Adjustment; the Focussing-screen is attached to the Camera, and the Bellows-body is PARALLEL. This will be found of great advantage when using Wide-angle Lenses. It is available either for the studio or field, the range of focus permitting the use of the shortest-focus Stereo Lenses, or any of the Wide-angle, Doublet, or View Lenses, also for the C. D. V. or Cabinet Lenses.

"The Cameras of Meagher *deserve especial examination, as well for the perfection of their workmanship as for their perfect adaptation to the purposes for which they are designed.*"—*Vide* Report of Jurors, Class IX., International Exhibition, Paris, 1867, *Illustrated London News*, September 14, 1867, page 298.

The Rates of Premium for Fire and Life Insurances will be found as moderate as those of other first class offices. Policies are issued under the Life Branch of this Company recently established in Bombay, on Civil lives and Military lives in Civil employ.

The following are some of the advantages obtained by those who assure with this Company:

1. Proposals accepted and Policies issued by the Agents in Bombay, without reference to the Chief Office, within certain limitations.
2. Non-Forfeiture of Policies by the issue of Free Paid-up Policies.
   If a person, after having been assured for three years under the ordinary whole Life Scale, at any age up to and inclusive of forty-five, should wish to discontinue paying his premiums, the Directors will issue a Policy for the amount of premiums paid, together with any Bonus that may have been added, and free from any further payment whatever. This feature secures not only a provision in the event of premature death, but a remedy—*long desired*—should the payment of the premium become an inconvenience.
3. Policies indisputable after being five years in force.
   All ordinary Queen Policies without exception, on which the age of the assured has been admitted, will, at the end of five years from their date, be absolutely indisputable, the only condition being the punctual payment of the premiums with any extra premium that may be exigible for foreign residence.
4. New and Extensive Travelling License to Policy Holders.
   Persons Assured with the Company, under the Indian Table, are permitted, in time of peace, without license or additional premium, to proceed to and reside in any part of the World, except the West Coast of Africa.

Messrs. RIMINGTON, HORE & LANGLEY.

After the operation of upwards of 30 years, the Directors feel entitled, with great confidence, to invite the attention of the Public to the marked success which has attended this Society, and the strong claims it possesses to the confidence and support of all classes desirous of effecting Assurance on Lives.

Combining the advantages of a mutual and proprietary Company, and without attempting a rash competition with other Offices, it has pursued a steady progressive course, affording all the benefits which, consistently with the security to Assurers and Assured, can possibly be given.

The Tables of Rates for India have been accurately calculated from the Records of the late East India Company, and are as moderate as is consistent with perfect security.

The total number of Policies issued from the commencement of the Society to the end of the year 1865 was 8,893, Assuring	£7,897,283	0	0
And the amount of claims paid during the same period was	1,545,348	0	0
The assets of the Society in England and India on the 1st Dec. 1865, were	804,989	0	0

A reduction of 50 per cent on the Premia of Policies entitled to participate in the profits was declared on the 8th May 1867.

So that the Annual premium of an individual insuring on the Profit Scale at the age of 30, in the sum of Rs. 10,000, would be at the Civil Rate	Rs. 480	0	0
And after 6 years he would be entitled to a reduction of 60 per cent. for Profit	,, 240	0	0
Net Annual Premium	Rs. 240	0	0
Or at the reduced English rate	Rs. 246	0	0
Less 50 per cent. as above	,, 123	0	0
Net Annual Premium	Rs. 123	0	0

No Society, Mutual or Proprietary, with rates of premium so low as those of the Universal, and retaining so ample a reserve for its liabilities, has been able to afford larger advantages than these to its assured.

The rates for short terms are as low as those of any other Assurance Companies.

SPECIAL ADVANTAGES TO THE ASSURED AFFORDED BY THE SOCIETY.

1st. Perfect security combined with the utmost liberality and economy in rates of premium.

2nd. No liability of partnership.

3rd. Lives below the ordinary standard of health, or afflicted with Gout, Rupture, or other ailment not immediately dangerous, may be assured at a moderate increase of the usual rate in proportion to the extra risk.

4th. Assurances may be effected on participating scales, entitling to profits, and on non-participating scales, viz., without profits, at reduced rates, for short periods or for the whole term of life.

5th. Stamp duty on all policies paid by the Society without charge to the assured.

6th. All Medical Fees, including those of the Medical Referee named by the Society, and of the Society's own Medical Examiner, are paid by the Society.

7th. All claims paid within three months after satisfactory proof of Death ; or earlier, under discount.

8th. One Calendar month, as days of Grace, allowed for payment of premiums, and claims paid should death occur within that period upon tenders of the premium within the days of grace, or deduction of such premium, with interest, from the sum Assured claimed upon death.

9th. Policies on lives in India for the whole term of life, which have been in force for the full period of three years, are purchased by the Society, or loans granted thereon to the extent of two-thirds their estimated value.

Fidelity Assurance.

The European Assurance Society is the ONLY Society in England, India and the Colonies, specially empowered by the British Parliament to guarantee the fidelity of, or become Surety for Officers of Her Majesty's Naval, Military, and Civil Services, besides Managers, Secretaries, Accountants, Cashiers, Shroffs, Clerks, and others holding situations of trust in Banks and public Companies, private Firms, &c.

Life Assurance.

Every description of this important business is transacted by the Society, at rates which will be found to be generally more moderate than those of any other Insurance Company in India, whether with or without participation in profits.

Fidelity and Life Assurance Combined.

This method introduced by this Society confers important advantages by the REDUCTIONS allowed in the Life premiums to the extent of FROM 50 to 100 per cent. of the Guarantee premium.

D. S. KEMP & Co.

PHARMACEUTICAL CHEMISTS,

5, ELPHINSTONE CIRCLE, BOMBAY.

BRANCH--BELLASIS ROAD, BYCULLA.

Established January 1st 1868 on the dissolution of the firm of

ROGERS & Co. :

of which D. S. KEMP was eight years a Partner.

The business is especially organized for the importation and manufacture of pure medicines, and for the correct dispensing of prescriptions. The long attention paid by the Manager to the processes of practical pharmacy, the constant improvements in laboratory appliances which are being introduced, and the care inculcated on every assistant in the establishment, assure D. S. Kemp & Co. of their being, in this respect, beyond the competition of other houses.

MEDICINE CHESTS.

This important department is constantly receiving accessions of improved chests and fittings The daily and hourly experience of the wants and suggestions of purchasers is taken advantage of in constructing new patterns and in adding to the internal conveniences of the chests. Since D. S. K. gave an impulse to this trade, some years ago, these articles have come to be regarded as necessary to every resident in this country ; and there is no doubt that Europeans are largely indebted to their general use for the safety to health with which they now travel and reside in the East: —

Travelling	Chests.	Ships'	Chests.
Sportsmen's	do.	Yachting	do.
Domestic	do.	Factory	do.

Surgeons'	do.	Railway	do.
Emigrants'	do.	Contractors'	Pill Cases.

POCKET PILL CASES.

Each Chest is furnished with a copy of D. S. Kemp's "Medicine Chest Companion," written expressly for them.

AERATED WATERS.

D. S. K. & Co. have considerably extended their factory, and increased the number and power of their machines. In this department they feel sure they cannot be excelled. They prepare all the Waters usually sold, as well as some of their own invention. They are the sole manufacturers of the celebrated stimuli—

The Tonic Refresher and Juniper Restorative,

invented by their Manager as adjuncts to aerated waters.

OVERLAND ROUTE

Viâ JUBBULPORE, NAGPORE, and BOMBAY.

NOTICE TO TRAVELLERS.

Re-Opening of the Deccan Horse Dak and the Jubbulpore Bullock Train.

FROM THIS DATE the operations of the above HORSE DAK and BULLOCK TRAIN are resumed, and Travellers are informed that DAKS CAN NOW BE BOOKED and LUGGAGE FORWARDED. As Eight Horses are stationed at each Stage on the Road between JUBBULPORE and NAGPORE, Two Dak Carriages can be despatched Daily by their Branch Firms at each of these Stations. The attention of Families arriving by Overland Steamer, or proceeding Home, is therefore particularly directed to this Notice.

HOWARD BROTHERS.

1st October, 1868.

The attention of Overland Travellers likely to adopt this Route is directed to the following particulars:—

COST OF THE DAK JOURNEY FROM NAGPORE TO JUBBULPORE.

For 1 Passenger	with 1 maund (80 lbs.) of luggage	= 1 inside seat.....	Rs.	100	0	0
„ 1 do.	and Native Servant with 1½ md. luggage.....	= 1 inside and 1 outside seat	„	120	0	0
„ 2 do.	with 2 mds. (160 lbs.) of luggage	= 2 inside seats	„	145	0	0
„ 2 do.	and Native Servant with 3 mds. of luggage	= Whole Carriage	„	160	0	0
Extra luggage taken in Dak Carriage charged for at the Parcel Rate, *viz.*, per seer (2 lbs.)			„	0	8	0

Two children under 12 years are reckoned as one adult Passenger. One child under 10 allowed free if 2 inside seats be taken.

Passengers are informed that the Daks can be started only from the Agency Offices, as Carriages are not sent to Private Bungalows, Railway Stations, or Hotels.

For the use of Ladies and Children travelling by the above Dak, a Ladies' Waiting Room, with *Ayah* in attendance, is available at the Nagpore and Jubbulpore Agencies, free of charge.

The carriages of the "DECCAN HORSE DAK" are of superior construction, being Calcutta built; and the journey, performed with pairs of Horses from each stage, is accomplished in about 30 hours, exclusive of rests at Dak Bungalows.

Travellers need only take a few biscuits with them for the day, as good food is obtainable at the Refreshment Rooms on the Railways, at the Hotels in Jubbulpore and Nagpore, and also at the Dak Bungalows on the road.

Travellers from Bombay for Jubbulpore will please communicate, regarding both luggage and dak, with the undersigned, at Bombay and Nagpore.

To obviate disappointment, a few days' notice of the dak required should be furnished. This notice should also be accompanied by a remittance, as without prepayment a dak on a particular date cannot be booked for certain.

COMPARISON OF THE TIME OCCUPIED IN THE PRESENT OVERLAND ROUTES.

1ST—CALCUTTA ROUTE.

Time occupied in the "P. & O." Journey from London to Calcutta, via Marseilles 35 days.

2ND—BOMBAY ROUTE.

Time occupied in the "P. & O." Journey from London to Bombay,	21 days.		
Ditto from Bombay to Nagpore by G. I. P. Railway (20 hours)	1 „		
Ditto from Nagpore to Jubbulpore by "Deccan Horse Dak"	1½ „		25 days.
Ditto from Jubbulpore to Allahabad by E. I. Railway (9 hours)	½ „		
Ditto from Allahabad to Calcutta by ditto 27 „	1 „		

THE ADVANTAGES OF THE ABOVE ROUTE ARE

1*st*.—It lessons the sea voyage by FOURTEEN DAYS.

2*nd*.—It shortens the whole journey by TEN DAYS, even for travellers bound to or from Calcutta; and for those starting from other parts in India, the saving of time is still greater.

3rd.—It affords opportunities to parties proceeding home, or coming out, to see many Indian sights before leaving the country, such as the Marble Rocks at Jubbulpore, the Elephanta Caves at Bombay, the Western Ghats, &c.

COVERED SPRING VANS DRAWN BY BULLOCKS

May also be engaged on application to the undersigned. These Coaches are very comfortable, and accommodate 2 Passengers and 3 maunds of Luggage. Hire Rs. 50 per Coach. Time in transit from Jubbulpore to Nagpore, 3 days.

EXTRA AND HEAVY LUGGAGE

IS CONVEYED BY THE

JUBBULPORE BULLOCK TRAIN from NAGPORE to JUBBULPORE in covered Waggons at Rs. 3 per Maund (80 lbs.)

Travellers from the N. W. P., &c., should, to escape being delayed at Bombay on account of their extra Luggage, send it on in advance by the "E. I. Railway" to Jubbulpore, arranging so that it will reach there *at least 20 days before themselves as the delays of the Railway Traffic Departments, which are quite beyond our control, are occasionally very serious.* The bills of Lading or Rail Receipt for it must be sent to the undersigned at Jubbulpore, to enable them to take delivery from the Railway, and despatch the same right through to their Office in Bombay, at No. 2 Bell-lane, Fort, where on receipt of bearing freight and charges due, it will be made over to the Traveller on arrival.

Passengers arriving by the Overland steamers at Bombay are informed that the undersigned at Bombay will book any daks required from Nagpore, and also receive charge of luggage, and arrange for its onward transmission to owners' address in any part of India, by the best means available, either by Rail, Bullock Train, Country Cart, or Coolies.

Payment of freight and forwarding charges will *precede delivery*;—and also *despatch* from the Office *nearest* to address, in cases where the Consignees of packages reside at outlying stations.

For further particulars apply to the undersigned at Calcutta, Mirzapore, Allahabad, Lucknow, Jubbulpore, Nagpore, and No. 2, Bell-lane, Fort, Bombay.

(Extract from the Administrative Report of the Général Swiss Commissary at the Universal Exhibition at Paris in 1867.)

PAGE 75.—Switzerland exposed nothing that belonged to the No 2, 4 & 8. This country sent no astronomical regulator, and was represented among the watches of high Horology but by 4 Marine Chronometers, 3 of which were manufactured by Mess. HY. GRANDJEAN & Co. at LOCLE (Neuchâtel).

The Chronometers of Mess. HY. GRANDJEAN & Co. conveyed from the railway to the Imperial Observatory, where they remained during five days, were accompanied by a certificate from M. LE VERRIER, Director of the Imperial Observatory of Paris, stating their excellent manner of going. This was not the first essay of these skilful watchmakers. Their results from a report, addressed to M. HIRSCH, Director of the Observatory of Neuchâtel to the President of the Cantonal Society of Natural Sciences, that the Firm HY. GRANDJEAN & Co has made since 1830 one dozen of marine watches, the medium variation of which from one day to another is less than the third part of a second. I regret that this example is not more generalized, for it is of the highest importance to the Swiss fabric, to possess artists trained to the construction and regulating of the most delicate watches which have been executed till now.

PAGE 85.—The watches exhibited by Mess. H. GRANDJEAN & Co. merited them glorious recompenses. They must esteem them so much the more as the number of Medals, placed at the disposal of the Jury of Horology, was very limited. It is thus, that it was not possible to confer on the Firm Dent, for instance, more than one silver medal, although this firm has been celebrated for such a length of time ec.....

PAGE 100.—List of the Rewards in the class 23: Mess. HY. GRANDJEAN & Co. at Locle (Neuchâtel.) The first silver medal of the size delivered to the classe 23 & the fifth of the 25 delivered to the Suisse.

(Signed) E. WARTMANN, *Reporter of the Jury for Horology.*

REPRESENTATIVES

In China, Calcutta, Madras, Colombo, Kurrachee, New York, New Zealand, Manilla, New Orleans.

WE respectfully solicit the commands of MESSES, GENERAL MERCHANTS, and EUROPEAN RESIDENTS OF WESTERN INDIA, to whom, from the extensive nature of our business, we can offer better terms than any other House in Bombay. Our business in Europe has for upwards of FIFTY YEARS been confined to the Wine trade, and being Importers on the London and Bordeaux markets we are in the best position to meet the requirements of the Indian public.

We subjoin our LIST OF SELECTED WINES for this Market, and beg to intimate—

1st. That we cannot execute orders for less than 1 dozen quarts, or 2 dozen pints, of either one of them, Liqueurs excepted; these in not less quantities than half-dozen pints or quarts.

2nd. That our Wines and Spirits are procurable from every respectable General Shopkeeper in Bombay and at Out-stations; they, however, fix their own selling prices for them.

3rd. That our quotations are for delivery from our Godowns, and that we do not take the risk of subsequent breakage, nor can we undertake to deliver Wines, &c., in Bombay.

4th. That our quotations for *all* Sparkling Wines do NOT provide for examination of original packed Cases, or for the rejection of ullaged or broken bottles likely to be found in such cases, on arrival, after a long sea voyage. We guarantee each Case to contain its full complement of sound Bottles at time of shipment, but at our prices we cannot guarantee loss arising from atmospheric or climatic influences; if our constituents wish us to take this risk, which affects Sparkling Wines more than any other, we can only do so by adding Rs. 4 per dozen quarts, and Rs. 2½ per dozen pints, to our quotations.

THE

S OF INDIA" CALENDAR

AND DIRECTORY FOR 1869.

LARGE EDITION.

This volume comprising over [illegible] closely printed pages, and statistics, IN ADDITION TO THE MATTER TO BE FOUND IN THE ABRIDGED EDITION, a mass of information on all subjects connected with the Bombay Presidency not furnished in any other similar publication, rendering it indispensable to every [illegible] and Mercantile Office.

The arrangement of the Contents is very similar to that adopted in the Directories for 1867 and 1868; the volume is similarly bound, and every possible care has been taken to make the work complete and correct up to date of publication.

The Army and Civil Lists will be found corrected up to [illegible] the close of 1868. Following the Army Lists are the new Furlough Rules, and a list of Officers who have received rewards for services in Abyssinia.

The Government of India and Subordinate Governments and Agencies will be fully represented, with Tables of Precedence, Salaries, and Population; the Exalted Order of the Star of India; the Indian Council, &c.

The Commercial Directory includes the Rules of the Bombay Chamber of Commerce, with List of its Members. The Customs Tariff, Transhipment Rules, Bombay Wharfage Rates, Brokers' Commission, &c. In addition to the names of the Directors, amount of Capital, &c. of the Banks and Joint Stock Companies, the Directory shows as far as possible the dividends declared for 1867; additional information is given regarding the Cotton Companies, showing the number of workmen employed, &c. The list comprises—12 Banks, and Financial Associations; 58 Miscellaneous Joint Stock Companies; 60 Bank and Financial Agents; and 38 Miscellaneous Companies in course of Liquidation, with the names of Liquidators and Dividends declared; 14 Companies finally wound up. List of Insurance Companies. Fire European and Native Firms in Bombay described in detail. A complete List of the Insolvencies under Act 28 of 1866, with the names of the Trustees, the dates up to which accounts have been filed in the High Court, an approximate amount of the unsecured liabilities, the Dividends already declared, and probable further dividends.

In the portion devoted to Telegraphy, will be found the new official tariff for [illegible]-Egypt cable Telegrams, showing the rates from any part of India to the United Kingdom, and to each of the Capitals of the Continent of Europe, with the various routes sanctioned for Anglo-Indian telegrams by the Indo-European Convention of 1868; a list of the stations within the London delivery, [illegible] of all Telegraph Stations in the United Kingdom; the working of the Indo-European Telegraph Department; the new Indian Telegraph Tariff, and a list of Telegraph Offices in India; [illegible] B. B. & C. I. Railway Telegraphs, with lists of Officers; the Rules for the [illegible] messages, and a tariff of rates to all parts of America.

The Shipping Directory supplies all the needful information [illegible] of Bombay, with a list of the Shipping, Arrivals and Departures [illegible] of the arrival of the Overland Mail, steamers during last year clyde [illegible]

Educational Institutions, Religious and other Societies [illegible] of the Directory has been greatly increased by the addition of [illegible] The hours of Divine Service at Colaba are given, and a [illegible] by Government for the support of the various churches.

Freemasonry.—The Office Bearers for 1869.—The information [illegible] has been very considerably increased, and occupies more than double the space allotted to it in the Directory for 1868. It will be found a complete record of the Craft in Western India.

Parliamentary.—The Members of the new Parliament, and the new Ministry.
